PREFACE

This body of work has taken 40 years of record searching in courthouses, interviews with living relatives, cemeteries, microfilm reading of census records, deeds and most important of all...libraries from the local town library to the National Archives, resources gathered from all over Missouri and Tennessee.

I have had help from many researchers sharing their research over the years with the intent that one-day, I would be able to compile and share what was found with others. It is with great pleasure I am able to share this accumulative descendant research in this comprehensive volume of work.

First and foremost, please make copies of this file for future preservation.

LAYOUT

There are several sections in this book.

- [1] 31-page descendant chart of François Columbier "Lum" Missé Missey's family comprising of 4 generations.

This book is to be used as a roadmap for identifying your ancestors and is not represented to be a complete body of work.
- [3] Most descendants have spousal information including children and their spouses. If further information is wanted concerning allied families, please contact the author.
- [4] Names highlighted in blue are the author's direct line ancestors.
- [5] The end of the book has the author's pedigree showing his relationship to the common ancestor. Also, there is a short biography of the author explaining his interest and qualifications in family history research.

I hope you will share this book with others in your family and it will become a family treasure.

Any questions you may have concerning information in this book can be asked of the author either at his home address: Floyd Pratt, 15434 East Ford Circle Apt A-1, Aurora, Colorado 80017 or by phone 941.209.1701 or by email floydpratt59@yahoo.com or floydpratt59@gmail.com

It is and always has been my desire to share what I have found with others so they may use our research as a springboard to launch their family histories. Only through knowing our ancestors...can we know ourselves.

Missier Name by Floyd Thomas Pratt F.H.C., M.A.G.I. 2009

François Columbier Misse was the name on his birth and christening records at Saint Stephen's Catholic Church, Richwoods, Richwoods Twp, Washington, Missouri, United States. Originally, his great grandfather; Jacques Missier came from near Antibes, Alpes-Maritimes, France. His name on his American Revolution papers is spelled Missier, pronounced Miss-aye. As the Missier family gained prominence in Missouri, they dropped the "ier" and started spelling the name Missé. This changed the pronunciation from Miss-aye to Miss-eee. Then in the 1900's they added a "y" at the end of the name probably by Americans who spelled the name pheonectically and that is how we have them listed today as Missey. That's the history of the Missier, Misse, Missey name. Floyd Thomas Pratt 2009

AKA Francois Columbier Misse by Floyd Thomas Pratt F.H.C., M.A.G.I. 2009

Although his christening record which was recorded on 24 July 1847 in the presence of his parents, listed him officially as Francois Columbier Misse, he probably did not like Francis and used his middle name the rest of his life. He was known throughout the community as C. F. Missey, Columbus F. Missey, Lum Missey. Families sometimes called their children by their middle name or used a nickname. Concerning Columbus Missey. As he grew in age and maturity, he "Americanized" his name and became Francis Columbus Missey or Frank Columbus Missey. However he changed his names around, he became known as Columbus Francis Missey and went by the nickname of "Lum".

During the Civil War, Benton Barracks was an encampment for Union troops and was located in north St. Louis County, 4-5 miles from the City of St. Louis. . "The facility, located on the outskirts of St. Louis, could accommodate 30,000 soldiers and contained a mile of barracks, warehouses, cavalry stables, parade grounds, and a large military hospital. The hospital itself could...serve 2,000 to 3,000 patients." Benton Barracks was situated on land once owned by John O'Fallon who rented the acreage to U.S. Army, and on the grounds of the old State fairgrounds. This area is now part of the City of St. Louis, in the location of Fairgrounds Park (at Grand Ave. and Natural Bridge Rd.) . Camp Benton, which began operations in 1861 had numerous functions: a troop cantonment (replacing Jefferson Barracks after it was converted to a hospital); a parole encampment; a military hospital; and a camp for contraband or refugee slaves. Refugee Unionist (whites) also found sanctuary here. There is also some evidence that a few Confederate guerilla POWs were housed here for a short duration, perhaps awaiting the sentence of execution, in the camp guardhouse. Charles Van Ravenswaay in his book, Saint Louis: An Informal History of the City and its People, 1764-1865, states that work on the barracks began in August, 1861 when "workmen began building five barracks, each 750 feet long and 40 feet wide. Kitchen sheds,

stables, warehouses, and other buildings went up nearby. Around this camp... sprang up a cluster of saloons, restaurants, and little photograph galleries." Many of the photographs taken of soldiers in uniform before going to the battlefields were made at these photo studios at Benton Barracks. An account by F. F. Kiner, of the 14th Iowa Infantry gives the following description: "Benton Barracks is situated upon a very flat piece of land, but very suitable for a drill camp, for which it was originally intended. The buildings, so far as comfortable quarters for the soldiers was taken into consideration, I think were well designed. Good cook houses, with suitable furnaces for cooking were conveniently arranged in the rear of the Barracks.--As to water, nothing could have been better looked to than the water conveniences; and, no doubt, this was one of the reasons for selecting this piece of ground, as being sufficiently low to allow water to be carried into camp by the means of pipes leading from a large reservoir situated upon an elevated part of the city. This water was, we might say, carried to the door of every cook house, and was in every way convenient. The buildings for the Port commander, and for Regimental Head Quarters were also convenient and well arranged. The camp was well drained, consequently it never remained muddy any length of time after heavy rains and spells of wet weather. Upon the whole, I never saw any better in all my travels as a soldier, and doubt much if there is any better of a kind in the United States." (Thanks to Steve Kiner, gg grandson of F.F. Kiner for One Years Soldiering, published 1863 by F.F. Kiner; Republished by Morgan Avenue Press, Savage, MN) As a troop cantonment, new regiments were organized and mustered into service. Numerous Union troops were stationed here in white-washed wooden barracks and tents. Troops were instructed on march and drill in preparation of deployment to fighting Confederate troops. The number of troops stationed at Benton Barracks varied considerably as some troops in transit waited only for a short duration before being moved by steamboat to battlefields in the lower South. Besides functioning as a campaign "launch pad", the base was also used as an encampment for paroled Federal POWs released from the Confederacy. These paroled prisoners were released by Confederate authorities on the condition they would "not bear arms against Southern forces until the expiration of parole". At least one regiment on parole, the 3rd Minnesota Volunteer Infantry, was sent North on Aug 27, 1862 to put down the "Great Sioux Uprising". Dyer's Compendium records that the 29th Iowa Volunteer Infantry were stationed at Benton Barracks from Dec 19, 1861- Dec 25, 1862 during the time they guarded the post's prison. This was probably a prison for the Barrack's Provost police which kept Union soldiers that violated regulations or committed common crimes. From Oct. 1862- April 1864, the 10th Minnesota Vol. Infantry provided garrison and provost duty. For the final months, Jan-July 1865, Co. H 39th Missouri Infantry was assigned garrison and provost duty. Not all the troops at Benton Barracks experienced good treatment from the government. Lt. Col. William F. Fox, U.S.V. reported that for the 2nd Missouri Colored Infantry, "Over 100 men died at [Benton] Barracks before the regiment took the field, the men having been enlisted by the Provost-Marshals throughout the State and forwarded to this Post during an inclement season,-- thinly clad, and many of them hatless, shoeless, and without food. Many suffered amputation of frozen feet or hands, and the diseases engendered by this exposure resulted in a terrible and unprecedented mortality." The winter of 1862-1863 was especially tough for all soldiers at the barracks. Besides being very cold, a small pox epidemic broke out and many of the sick soldiers were taken to the small pox hospital (on an island in the Mississippi River) to die.

1916 Obituary of Columbus Francis Missey by son; Rev. Albert Paris Missey

Written by his son Rev. Albert Paris Missey states in his journal as follows: Red Bird, MO. May 16-1916.

My Father C.F. Missey whose biography will be found on Page 1 of the ledger departed this life April 26th 1916 at the home of his son Ed F. Missey Bourbon, Mo. All the family were present at his death but two. Lee and Ambrose. The following is his obituary written by me after coming to Red Bird. A.P. Missey, Pastor M. E. Church South, Red Bird, Mo.

The subject of this sketch, Columbus F. Missey, was born at Richwoods, Washington County, Mo., July 7, 1844, and departed this life at Bourbon, Mo., April 26, 1916, at the age 71 years 9 months and 19 days. He was married to Synthia N. Talbot, in Washington County Mo., August 19, 1866. To this union were born nine children, eight of whom survive, one dying in infancy. Those that survive are: A. P. Missey, Red Bird, Mo.; B. J. Missey, Prosperity, Mo.; Lee C. Missey, Deslet, Mo.; Mrs. Laura Pratt, Bourbon, Mo.; Judson Missey, Morse Mill, Mo.; Frank C, Missey, Morse Mill, Mo.; Ambrose Missey, Patsy, Mo.; Edward F. Missey, Bourbon, Mo. He professed faith in Christ in 1884, and with his wife, united with the Methodist East Church South and lived a consistent Christian life until death. His wife preceded him several years, dying March 28, 1896. Funeral services were conducted by Rev. M. A. Clayton at the Harrison Cemetery, after which his body was laid to rest and to wait his appointed time when the dead in Christ shall rise first, than we which remain shall be changed in a moment, in the twinkling of an eye shall be caught up and ever be with the Lord. So we can well say, "Blessed are the dead that die in the Lord, Jesus while our hearts are bleeding O'er the spoils that death has won, We would at this time solemn meeting Calmly say, "Thy will be done." "By Thy hands the boon was given, Thou has taken but Thine own, Lord of earth and God of Heaven, Evermore "Thy will be done." [Newspaper unknown, maybe Bourbon Beacon- Tom Pratt]

Cradle to Grave Profile (C2G) for Cynthia N. (TALBOTT) by Floyd Thomas Pratt F.H.C., M.A.G.I. 2010

In harmony with the first law of genealogy or family history research, i.e., documentation, I submit my famous Cradle to Grave (C2G) Profile on this subject including all known documentation presented for the serious researcher. This has been done to help family historians continue in their pursuit of family history knowledge without a duplication of effort. All I ask is that you acknowledge my contribution to your family history research. My gift to you...Floyd Thomas Pratt F.H.C., M.A.G.I.

1847 Birthblock for Cynthia N. (TALBOTT) daughter of Benjamin "Ben" and Laura (FARRIS) Talbott

Cynthia N. (TALBOTT) was born in Concord Twp, Washington, Missouri, United States on 3 April 1848.

Date from 1850 census states she was born 1847 in Missouri.

Date from 1860 census states she was born 1847 in Missouri.

François Columbier Columbus "Lum" Missey and Descendants

Date from 1870 census states she was born 1847 in Missouri.

Date from 1880 census states she was born 1848 in Missouri.

Date from son; Rev. Albert Paris Missey's journal states she was born April 3, 1848.

Date from headstone states she was born 3 April 1848.

Therefore she was born April 3, 1847. Since her parents said she was 3 years old in 1850, and they said she was born in 1847 for the first three censuses, then she was probably born in 1847.

Research Note

Some on the Internet have posted the "N" in Cynthia's middle initial stood for Narcissus.

However, when I wrote to the originator of that information I asked them where they obtained the name Narcissus. They did not have any documents and could not support their assumption with evidence other than hearsay. I am sure there are documents in Washington County and/or Crawford County, Missouri courthouse that exists with the validating proof.

However, until new evidence can be obtained I will not be using Narcissus as Cynthia's middle name. Floyd Thomas Pratt F.H.C., M.A.G.I.

He has heard with much indignation that you are carrying on an indiscriminate course of impressment, and that friends suffer as often as foes by your actions. He desires me to assure you on his word of honor, that he will hold you strictly accountable for your actions in these matters; or, to use his own words, "Tell Captain Talbot, by God, I'll hang the first man, be he private or officer, be he sworn in the service or not, who transgresses the enclosed general orders ." Research Note

This raises a question concerning the 1910 census record. Mary says 5 children have been born and all we know about is one deceased daughter, then who are the two children still living and why aren't they listed in the 1910 census with their parents? Unless.. These are children from all of her marriages. More research needs to be done. Tom Pratt

My above FAG entry no longer exists. When I created the entry I gave a full Cradle to Grave Profile. I removed my original entry due to unethical practices by the Find A Grave administration. Read my report, "**Why I STILL can no longer support www.findagrave.com**" for the details.

For your information, I have severed my relationship with the Find A Grave organization. I have asked them to remove all memorials, flowers and any references relating or mentioning my account. I have had an uneasy relationship with their administration for the last 5 years and in my opinion, they have lost faith and violated the public trust.

1913-1942 Journal of Rev. Albert Paris Missey

by Rev. Albert Paris Missey and Elucidations by Floyd Thomas Pratt, F.H.C., M.A.G.I. 2009

Rev. Albert Paris Missey after being ordained in the Methodist Episcopal Church South in 1908, began keeping a journal covering various dates from September 1913 to November 25, 1942. He and his family moved from community to community in obedience to his calling serving the people of central Missouri covering several states during his tenure. In his account of the events of their lives, his family suffered many dissapointments and hardships as you will read. Being in contact with his parishioners on a day by day basis, you will find his journal of current events interesting and informative. This journal was generously shared with me by JoAnn (**SNOWDEN**) Missey deceased, wife of Lawrence Joseph Missey, son of Albert Paris & Mary Jane (**STROUP**) Missey.

After Albert's *italicized* journal notes and commentaries, **Elucidations by Floyd Thomas Pratt F.H.C., M.A.G.I.** indicates my comments and elucidations are to follow. Each local named individual in Albert's journal has been assigned a number in brackets. This was done to keep track of the people he mentions. These numerical [] brackets coorespond to the same numbered individual in his previous entries. Extensive comprehensive details on each individual can be obtained from the author; Floyd Thomas Pratt at floydpratt59@verizon.net or 6732 Northampton Place, Bradenton, Florida 34207

Bourbon, Mo September 1913

We were sent from Red Bird, Mo. to this charge by the presiding elder. When we left Red Bird the church there was a fire for God but we found the Bourbon church as dead as Pompeii there is no sign of spiritual life.

The people here feed upon sensationalism they are worldly minded back-sliding. There are some that never attend church or prayer meeting only when they think it policy to do so. I have never saw anything just like

François Columbier Columbus "Lum" Missey and Descendants

this. Kenton H. Bird and Howard Callis held two meeting here in one year 1913-14 there were 35 or 40 professions and reclamations, but the church was not edified. Some of the converts? were dancing in less than a year. The Evangelist is always ready to blame the Pastor because they do not hold out, the trouble is they have never been saved. I hope however there are brighter suns ahead for Bourbon. Yours in Christ, A. P. Missey

Bourbon, Mo. November 3rd 1914

Election day, the different parties were well represented and general excitement and enthusiasm prevailed every where. One of the most important features of the election was that of woman suffrage which carried by a large majority here. A nice little fight was witnessed as a result of too much booze. I was greatly surprised at how little regard people hold for the word of God. When a preacher appeared on the street and read from the sacred pages while the preacher voice was hardly audible on account the confusion of the voices of the people talking and arguing something they knew nothing about. My father [1] C. F. Missey is with us at this time. The returns of the election by 9pm show considerable gains for the Republicans the only Democrat elected in the county were the Prosecuting Attorney and one Justice of the Peace as far as I know. Yours truly, A. P. Missey

I preached last night at Rock School house from the text Psalms 18:19. The Lord was

François Columbier Columbus "Lum" Missey and Descendants

present in great power. I had the great pleasure of spending the night with my life long friends [2] Allen Carter and wife. I always feel at home at Brother Carters. Bro. Carter was Civil War veteran and if I remember correctly he enlisted at the commencement of the war and served until discharged in 1865. He served on the Union side. Bro. Carter has lived a very temperat life and yet at the age of --- years is full of vigor. My Sister [3] Mrs. Pratt is with us to day. Wife is ironing. The weather is extremely warm for the time of year. I praise God to day for victory in my soul. A. P. Missey

Bourbon, Mo. Saturday night November 14, 1914

The week has passed unusually quiet. The election temperature has about subsided to normal. And business has about resumed its normal attitude. The thing of the most vital interest and the thing that concerns me most is the spiritual condition of the church at this place. There is not a live member in the church and yet I feel more determined to night than ever to press the battle for God. I have been greatly burdened today in prayer and tomorrow the Lord willing I will preach from the text I Cor. 12:31. (I am sleepy and must retire for tonight.)
Missey

Bourbon, Mo. November 26, 1914

Thanks giving day passed off unusually quiet. A thanksgiving was held at the Methodist Church at 8pm. The Rev. J. P. Hill of St. James, Mo occupied the pulpit and preached an excellent sermon from the text Psalms 103:1,2,3. The congregation was small owing to the fact that the devil made his usual visit to town. And a dance at Rhorer Hall was the result. I must not fail to mention that the church was fairly represented at the dance, another item of interest I must not fail to note, was; that his Satanic majesty inspired the ladies aid to give a surprise party in town for the benefit of those that for policy sake would not attend the dance, and at the same time did not feel disposed to attend church. It is any wonder that the spiritual temperature of the church is low. Who is to blame for this, if not the Devil? O' God give us grace and wisdom to deal prudently with such problems from time to time.

Bourbon, Mo. November 29, 30 1914

I preached at Rock School House Sunday at 11am to an attentive and appreciative audience for the text 1 Cor 12:31, 13:1-6. The Lord was present in great power. Spent Saturday with [4] Bro. A. V. Carter & family. Sunday after noon and Sunday night with [5] Bro. Allen Carter & family. Sunday night services were conducted by Bro. Young of the Christian Holiness Sect. Monday morning the 30th, Bro. Allen Carter brought me home. I found family all well. My sister [6] Mrs. Laura Pratt paid us a visit to day. One would be surprised to note the change that has taken place in the Rock Community in the last 30 years in a religious way. Nearly all of the old settlers have died and gone. And the spiritual death is due largely to that fact, and it can be attributed to the fact that Russelism, Mormonism, and Catholicism, and the Devil is responsible for it all.

Bourbon, Mo. December 25, 1914

This is the second Christmas that we have spent during our Pastorate here in the little town of Bourbon. There were no services that I know of at any of the churches except at the Luthern Church. Every thing was unusually quiet over the entire town as Bourbon has no saloons. My Father and my sister and her family were with us today and we spent a very pleasant Christmas to gether. My nephew [7] Lloyd Missey from Jefferson County was with us also. While we have enjoyed ourselves immensely to day. I am not unmindfull of the fact that in European Countries to night there are thousands of homeless mothers and children without food and shelter that need the prayers and assistance of a great country like this. I have just sent \$5.00 of the Lord's money to be applied to the war relief fund. Yours in Christ, A. P. Missey Pastor

Bourbon, Mo. 9:24am January 1st, 1915

The new year of 1915 dawned moderately fair. Temperatures at present stands at 32 1/2. The year of nineteen hundred and Fourteen closed one of the most eventful years in the history of the world. The European war is conceded to be one of the bloodiest conflicts that ever stained the annals of history. And still goes on with increasing fury. Just what the outcome is going to be is hard to tell. We had an interesting service last night at the M. E. Church. I preached from Joshua 3:4,5. Mr. Howard our telephone man recited a splendid piece from "Prentice! The Closing Years. " [8] Mrs. Amelia Koppelman read a splendid article on thankfulness. [9] Miss Lillian Koppelman performed at the organ and rendered excellent music. The congregational singing was unusally good. In the evening we were surprised to receive a visit from our cousins, [10] Mr. Nathaniel Walker and [11] Frank Pearman and wife. "Come let us a new, our January persue, roll round with the years, roll round with the years, and never stand still till the Master appears. " A. P. Missey, Pastor

Bourbon, Mo. February 2nd 1915

The day has been cloudy and snowing. The sun was visible about twice during the day. It was possible for the ground hog to have seen his shadow at that time if he came out. Everything has been unusually quiet today. But, quite a number from the country came to town regardless of the mud and enclement weather. Brother [12] Ed Missey went to Owensville, Mo. to day to look out a location for a Barber shop. We are planning and praying for a revival here at the Methodist Church to begin next Sunday the 7th. Rev. B. L. Patterson of Henderson, KY will assist in the meeting, the Baptist are all ready holding for it Rev. G. J. Northcutt, doing the preaching. If ever there was a place that needed a genuine Holy Ghost revival it is Bourbon. "Lord wilt thou not revive us again." Yours in Christ, A. P. Missey

Bourbon, MO May 26th 1915

I was born in Belleview, Iron Co., MO, Nov. the 11th 1867. How long we lived in Iron County I do not know. My father moving from there while I was quite small. Since that time I have lived and raised principally in Washington and Crawford Counties. So it can truthfully be said that I am a Missouiran for which I have every reason to be proud and feel really honored. My father [13] Columbus F. Missey was born in Washington County July 7th 1844. My mother [14] Synthia N. Missey was born in Washington Co. April 3rd 1848 and died March 28th 1896. To this union was born nine children:

François Columbier Columbus "Lum" Missey and Descendants

- [15] Albert Paris Missey born November 11th 1867;
- [16] Benjamin Missey born October 4th 1869;
- [17] Lee C. Missey born March 2nd 1872;
- [18] Laura M. Missey born July 20th 1874-died April 17, 1938;
- [19] Judson R. Missey born February 4th 1876;
- [20] Frank C. Missey born March 20th 1879;
- [21] Ambrose J. Missey born August 9th 1881;
- [22] Ed F. Missey born August 29th 1884;
- [23] Gertrude A. Missey born November 6th 1888-died November 12, 1888

My father was married to my mother who was Miss Synthia Talbot, August 19th 1866. My mother was the daughter of Captain [24] Benjamin Talbot served in the Southern Confederacy and was killed while at home on a furlow by bushwackers just before the close of the Civil War. Her mother was Miss [25] Laura Farris. To this union was born eleven children of whom the greater part are fast asleep, only 3 now living.

My father's family was mostly brought up in Washington Co., MO. His parents finally moving to Crawford Co., Mo, where they resided untill death. Their family was large being eight in all that grew up to man and woman several dying in infancy. My father was the oldest of the boys serving as soldier in the Union Army of his family 4 are still living. My father is still living residing at present time in Bourbon.

I was the oldest of my father's family we came to Crawford Co., MO. when I was quite small brought up in the occupation of farming on what is known as Crows Creek in the grand old Meremac hills. Here I lived untill I was grown. About this time I was seized with a desire to study medicine and in 1893 I entered the Marion Sims College of Medicine in St. Louis, MO. After taking a 3 year course in medicine I decided to practice between terms and in the spring of 1896 I located at Old Mines in Washington Co., MO. Here I practiced medicine for about 12 years never taking my M.D. degree.

It was during my college days and the 12 years of the practise of medicine that I fearfully into sin and probably would have continued so had not I met with my dear friend John W. Dotson of Troutt, Mo. And by his kindly advice and earnest Christian preaching I was won back to Christ. And I at once united with the Methodist Church South at Souls Chapel in Washington Co., MO. From this time I yielded to the urgent call to the ministry that I had felt from early boyhood which I had tried to ignore by my dissipated life. I was then licensed to preach by the licensing committee at Irondale in the Farmington district while R. A. Vaughn was presiding elder of that district.

Here commenced the greatest battle of my life. I saw that I could not mix medicine and religion together one or the other had to be given up. The Devil used my friends to try to persuade me to continue the practise of medicine and finish my graduating course in college. But I knew too well that my old associations would prove conducive to my best spiritual interest and I was having a struggle to break away from my old habits. I was living an up and down life several times falling completely back to sin. This state of affairs continued for about 3 years untill I was led into the state of santification in the year of 1907. Here the struggle with liquor and the tobacco habit ceased and my ministry was a marked success. To the Father, Son and the Holy Ghost be all the praise both now and for ever. Amen.

We then moved back to Crows Creek in Crawford Co., MO. to our old home when our second child Laura was born. Red Bird, Mo. December 2, 1915

We closed a two years turn on the Bourbon Circuit and have been assigned back to Red Bird Circuit. And find the spiritual conditions very bad, in fact the entire work is in a backslider state. We we left here over two years ago, the church at this place and at Hadley was in a high state of spirituality. But now everything is a cold and lifeless as the tomb. But there are a few faithful souls that still love God's cause and we are praying that will again visit us with a gracious revival of religion over the entire world. Thanks giving day was passed quietly without even having a Thanksgiving service this I mostly blame my self for, my father C. F. Missey from Prosperity, Mo. was with us on this occasion. And at this writing is still with us. Everything is unusually dull and quiet, but we are praising God for good health and fine weather. Mary has dinner ready and must close. 12am A. P. Missey

Christmas at Red Bird, MO. Evening December 25th, 1915

The day has passed off unusually quiet, but was pleasant, the children were very happy with their dolls, toys and candy, we were all in splendid health and did ample justice to a fat goose for dinner presented to us by Bro. [41] Clin Sewell and Bro. [42] Chas. Gibson. And many other good things were presented to us in a friend party by the good people of Red Bird. Methodists, Campbellites, and Baptists. The day presented the appearance of a real Christmas on account of a heavy snow that had fallen all day yesterday and through the night, but the day has been warm and pleasant. Sister [43] Arvey Farris came in for a few minutes in the morning and Bro. [44] T. S. Brown came in the evening and presented us with a beautiful scripture text calendar. [45] Lidda, Olia, and Thelma Gibson spent the evening with our children and had a pleasant time. During the day I visited at Grays, Gibsons, Kempers and Sewells. The Lord willing I will preach at the Methodist Church tomorrow. Subject. God's gift to the world. John 3:16. 6-45pm A. P. Missey

Red Bird, Mo. February 2, 1916

Old January has just passed out was unusually warm with considerable rainfall. The month came in warm and raining and has continued so up untill the last few days when it turned real cold. The thermometer registered 8 degrees below zero. I think this only occured one night. The month closed with rain freezing on the timber doing great damage to timbers and orchards. This is ground hog day and the sun has been shining brightly most all of the day. So he has had no trouble about seeing his shadow. The weather is still very cold and the heavy coat of ice still hangs on the timber. While the indications for fair weather are very favorable to

Red Bird, Mo. May 16-1916

My Father [46] C. F. Missey whose biography will be found on page 1 of this leger departed this life April 26th 1916 at the home of his son [47] Ed. F. Missey, Bourbon, Mo. All the family were present at his death, but two. [48] Lee and [49] Ambrose. The following is his obituary written by me after coming to Red Bird. A. P. Missey Pastor M. E. Church South, Red Bird, Mo.

The subject of this sketch, [46] Columbus F. Missey, was born at Richwoods, Washington County, Mo., July 7, 1844, and departed this life at Bourbon, Mo., April 26, 1916, at the age 71 years 9 months and 19 days. He was married to [47] Synthia N. Talbot, in Washington County Mo., August 19, 1866. To this union were born nine children, eight of whom survive, one dying in infancy. Those that survive are: [48] A. P. Missey, Red Bird, Mo.; [49] B. J. Missey, Prosperity, Mo.; [50] Lee C. Missey, Deslet, Mo.; [51] Mrs. Laura Pratt, Bourbon, Mo.; [52] Judson Missey, Morse Mill, Mo.; [53] Frank C. Missey, Morse Mill, Mo.; [54] Ambrose Missey, Patsy, Mo.; [55] Edward F. Missey, Bourbon, Mo. He professed faith in Christ in 1884, and with his wife, united with the Methodist East Church South and lived a consistent Christian life until death. His wife preceded him several years, dying March 28, 1896. Funeral services were conducted by Rev. [56] M. A. Clayton at the Harrison Cemetery, after which his body was laid to rest and to wait his appointed time when the dead in Christ shall rise first, than we which remain shall be changed in a moment, in the twinkling of an eye shall be caught up and ever be with the Lord. So we can well say, "Blessed are the dead that die in the Lord, Jesus while our hearts are bleeding O'er the spoils that death has won, We would at this time solemn meeting Calmly say, "Thy will be done." "By Thy hands the boon was given, Thou has taken but Thine own, Lord of earth and God of Heaven, Evermore "Thy will be done."

Bourbon, Mo. January 1st 1917

The year that has just past has been full of events and strange happenings. The european war is still raging with very little signs of peace. While our own country is at peace for which we are very very thankfull to our creator, yet we are experiencing trying times. The high cost of living is making it very hard for poor people to get through the winter and worse has not yet come. This is the first time in ten years that we have been without a pastorate. But still we are preaching when we have an opportunity and working at what ever we can find to do at very small wages. Truly these are "perilous times" and I believe we are living in the last days. The

François Columbiere Columbus "Lum" Missey and Descendants

new year of 1917 has been one of the longest days I ever experienced for the 1st of January. We all spent the day with [57] Thomas Farris Jr. and helped him to kill hogs to day. How thankful we are to night that we have health for which we praise the good Lord. At this writing the Lord has blessed us with five precious children. We are starting in with new resolutions and a greater determination to walk closer with God this year than ever before. When we note the great falling away in the church and a moving indifference among the people about spiritual things we think it is high time to awake. "Lord wilt Thou not revive us again?" How can the church be satisfied with such a low standard of liety even among its pastors, but such is the conditions. Of that God would visit his people with a mighty out pouring of his spirit untill every dancing, card playing, pool playing church members and every backsliden preacher in the country would awake and come to God. Lord teach us how to pray. Written at home. 7-00 pm A. P. Missey

Birch Tree, Mo., November 28, 1918

After our appointment to the Birch Tree and Emmenence circuit, we was late arriving on the work arriving here the 6th of November after along and wearisome journey of 300 miles on our arriving in Birch Tree we was taken into the home of [58] Rev. Paschall one of superanuated preachers. The next morning I awoke with a burning fever. (Spanish Enfluenza) which was prevailing very extensively in the United States. Many people dying as a result of Pneumonia. Here our entire family fell a victim to this dreaded disease. Also, Bro. Paschall's family was prostrated at the same time. Here we stayed for 2 weeks when on the 17th we moved into the parsonage, wife being very weak only being out of bed but a few days. Since then the Lord has wonderfully blessed us all having fully returned to health. We was made sad on Thanksgiving day to recieve the sad news of the death of my dear brother [59] Frank Missey whom we had left in good health on the 5th of November. My brother dying November 22,

François Columbier Columbus "Lum" Missey and Descendants

1918, thus broke the first link in the chain of a large family of eight children - correction this was the second link in the family of 9 children one dying in infancy. After spending 2 years on the Birch Tree Circuit we were removed to Centralia, Okla. We made many friends while at Birch Tree, Mo. Some have crossed over, since our coming to Birch Tree, we met with a great deal of friendly opposition while at Birch Tree, this came from the church their names I will not mention. While here I was compelled to take up the practice of medicine. Partly in the interest of humanity and partly as a means of support during the winter of 1920 the worst epidemic of flu broke out that the country had experienced up to this time. Many people died as a result of the flu and it's complications- pneumonia. I hope the country will never experience another such a scourge. We pray God's blessing upon the people of Birch Tree.

Birch Tree, Mo., Saturday June 28, 1919

Birch Tree is an unusually hard circuit for a preacher with a large family. Religion is at a very low ebb here. The Lord willing we will begin a revival meeting, here the 9th of July. Our children enjoy themselves here very much, the 4 small ones have been having a time with a toad, and [60] Charles has raised a racket as he wants the toad all to himself. I wonder if they will remember this in after years at present they are all a sleep but [61] Martha. A. P.

Centralia, Okla January the 10th 1921

We arrived in Okla at Vinita Nov. 9-1920 and come out to Centralia that evening paying a man \$12.00 to bring us out in a car. We saw the hardest looking place when we arrived that mortal eye ever looked upon. Since then we have become more reconciled and better satisfied. Centralia was once a prosperous town of 1000 inhabitants, to day you could scarcely find 500. The church is spiritually dead. And I am expecting to accomplish some good here, yet it is all with the Lord.

Centralia, Okla. November 10, 1921

We have just closed a splendid year on the Centralia Circuit. We have held some good meetings, especially at Tympson Chapel. A number of people were saved and the church was greatly strengthened and built up. I have found some loyal people among the Cherokees while holding my meeting there. Two young men gave their lives to the ministry namely Bro. Dwight Hunt and Bro. Cicero Hilderbrand, a full blood Cherokee. This has been a source of new pleasure to me to have them recommended for licenses to preach at my 4th conference at Tympson Chapel, a place with people I have learned to love.

The Annual Conference will convene today Tulsa, Okla. Bro. Martin and I will start tonight for our place at the conference. I will write later when I return from the conference. A. P. Missey, Pastor

Centralia, Okla December 25th 1921

Christmas day in Centralia, Okla, in some respect I believe this is the dullest Christmas that I have ever experienced. Only for the fact that the Lord is with us it would be a dull day in deed. We have been bountifully supplied by friends with plenty to eat to day. This is our second Christmas here in Okla and if the Lord is willing I want it to be the last. There are five families in this town that like Alexander the copper smith, have "greatly with stood us. " For the benefit of the reader I will mention Montgomerys, Hartleys, Grimes, J. M.

Whites and W. H. Reynolds, rather his wife. He himself is not a Christain but here for has stood by us. I am praying God to give us a great victory here this year. Yours in Christ, A. P. Missey

In the evening [74] Bro. Tom Farris and two daughters [75] Annie and [75] Kathrine and [76] Bro. E. V. Carter came in and held a blessed religious service. Bro. Carter made a splendid talk on the birth of our Savior. I think every body went away happy. I had about forgotten that I helped [77] Brother Ed butcher his dead sow in the morning. His children [78] Paul, [79] Hellan, [80] Elsie, and [81] Hazel, came down in the evening. Also, [82] C. B. Pratt and wife, and children visited in the evening. Bliss, Mo. January 1, 1926

New Years day at Bliss. Nothing of importance to record except that we are all well. Still practicing medicine with much splendid success, but, very little pay. Laura is down from St. Louis but will go back the 2nd to work. [90] Martha is in Bourbon but lived here during the summer of 1926. This would be a prosperous community if the right parties had charge of this claim. And a different class of people lived here on the claim. The people are Godless and selfish and very poor because they have no advantages. Church and Sunday School is a thing unknown. I hope the Lord will lead us out of this by spring. [91] Evalyne Coleman and [92] Velma Coleman and [93] Lucy Maness visited spent the day with [94] May and [95] Laura. Yours truly, A. P. Missey

Concerning Mary Plina (**KINCAID**) Coleman, I believe she is the daughter of John Thomas (1856-1915) & Ozile (1872-??) (??) Kincaid. Having trouble building a bridge with her parents since she was born after the 1880 census, but in the 1900 census Brent and Plina Coleman family are living a few pages from the John Thomas & Ozile Kincaid family. The Kincaid children appear to be the right age and John and Ozile said they were married in 1878. Until the death certificate can be located for Mary Plina to verify parentage, her parentage is only speculation.

McGregory Claim 1-30 PM, Mineral Point, Mo. March 15, 1928

We have just enjoyed the visit of a hail storm. Many hail stones allmost as large as hens egg. [96] Wilburn and [97] Bob Paterson gathered many stones of considerable sizes. When the storm was over the ground was white with hail stones for all most an hour. An angry cloud past northward we have not heard yet if any damage has been done. A. P. Grubville, Mo. September 15, 1928

I took charge of Fair View church September 1928, under the most trying circumstances. It was the most backslidding church that I have ever seen. And it has continued so, we held one revival F. F. Bante of Sullivan doing the preaching but he might as well have preached to the dead out in the cemetary. Bickerings and strife and envy and selfishness covetousness; this is the state of the church I am sorry to say and will continue until the old set have died off and a new generation arises to take their places. A. P. Missey

Christmas Day was pleasantly spent with all the children at home. [98] Martha was visiting from Bourbon with the two children. [99] Buck Drennen and [100] Alva Veach from St. Louis. We certainly had a splendid day. We attending church at Fair View had a good service. The text for the occasion Math 1:21. I wondered how many in the congregation were saved from

all sin. Dear reader if you are not saved from sin let me point you to the Lamb of God that taketh away the sin of the world! A. P. Missey

[100] Alva Veach...the difficulty with this person's identity first starts with gender. Alva could be male or female. Since Albert said Alva was from St. Louis the 1930 census should have yielded some results but it did not. Also, Alva may have been a middle name which makes them more difficult to identify.

Red Bird. Mo. May 14, 1934

This 2 1/2 years at Red Bird will never be forgotten. The churches are spiritually dead. The people are backslidden in heart and life. While we in the midst of an awful financial depression. The people have withheld from God and God is withholding from them. And the Pastor and his family has suffered for the necessities of life. But we are hoping for better things. This morning May the 14th a glorious rain is falling after a 3 or 4 weeks dry spell for which we thank the good Lord. [102] Clarence and [103] Charles are away from, Charley is working on a farm near home, while Clarence is the CCC Co. 739 at Sullivan, Mo. The money we get from that every month is a great blessing to us for which we thank God. Yours Truly. A.P. Missey Pastor

Red Bird. Mo. July 20, 1935

We have not been in charge of any church this year. Red Bird church is as dead as Pompeii; the old church and parsonage are fast going into decay. The people that were here 24 years ago when I first was assigned to this charge and was the financial and spiritual life of the church have died and gone to their reward, those that remain have died a spiritual death which is far worse than physical death. My what a change from what it was 24 years. It is like walking through the tombs of some ancient cemetery where the dark night of ages have settled down with melancholly and spectral silence of forgotten ages. I can predict nothing in the way of a revival for the Methodist at Red Bird. We are planning to leave here in about 3 months which will be final. My children are most all married and gone [104] Charley the oldest one at home is 18 past and at present is in the CCC Co. 3731 at Fulton. Mo. We have only 4 at home. [105] Martha is married and lives at Bourbon. Mo. [106] Laura is married and lives at Mineral Point. Mo. [107] Mae is married and resides on a farm not far from Bourbon, Mo. [108] Clarence our oldest boy

is married and lives at Bourbon, Mo. I do not know that I will ever take on another charge, but will preach as long as I can find a congregation. I can not boast of many years ahead. I feel that I am feeling I have been "an unprofitable servant." My only desire is for a "closer walk with God."

I was born in Belleview, Mo. (Iron County) Nov 11, 1867, written for the benefit of my wife and children, and all who wish to read. Yours in Christ, A. P. Missey

[114] Charley is in the CCC Camp No.732 in California 2500 miles from home and we certainly did miss him. [115] Mae and [116] Martha live at Bourbon but could not be with us this xmas. [117] Preston, [118] Clarence and [119] Buck are rabbit hunting this evening. Well this my 69th Christmas but can't say how many more I will see. We are digging tiff partly for a living and it is very uncertain the miner is nearly getting \$4.75 per ton, I don't dig much my self, the boys won't let me do much. If I live to see an other Christmas will write more the Lord willing. Yours Truly, Dad

Mineral Point, Mo. November 25, 1940

Wonderfull changes have developed since our leaving Red Bird. Which was the last charge I served in M. E. South connection. We moved to Mineral Point which has been our post office up to the preset time, where we have engaged in tiff mining. Some changes have been made in our family. [120] Preston and [121] Charley have married and live here near us. For the last 2 years I have not worked any on account of bad health. The boys have all left us except [122] Wilbourn who is now in the CCC Camp at Berryman, Mo. He pays us a visit most every week end. I am now 72 years of age will be 73 the 11th of November. I have had 2 very bad

sicknesses of flu and pneumonia conditions which come very near taking me away but the Lord has spared me to this present time to which I thank and praise him with all my heart. My faithfull wife is still with me she 49 years of age and in good health and is a great blessing to me and family. [123] Martha our oldest daughter is with us and is a victum of TB. She is making preparation to go to Mt. Vernon Sanuai and is liable to be called any time. We have raised 9 children all married but 3, [124] Wilbourn, [125] Viola and [126] Lawrence. We had 10 in all [127] Columbus Alfred dying in infancy. [128] Martha is 32 and a TB patient. The rest of the children are well developed as healthy children.

Children, I realize that my race is all most run, and soon will be numbered with the nation's dead. And if any of you die unsaved, remember that your Father and Mother taught you different. Your Mother and me have walked together for 32 years to date and I wish it could be longer but at my age I can not count much on time. Your Mother has been to me a faithful loving wife. While we have made many mistakes we have tried in our weak way to set a good example before you in the Christain life, especialy your Mother. Follow her and you will not go far wrong, listen to her and never mistreat her. May the blessings of God rest up on you all. Dad

My Tribute to Rev. Albert Paris Missey

by Floyd Thomas Pratt F.H.C., M.A.G.I. December 2009

I personally feel a kinship and deep respect for my Great Uncle Rev. Albert Paris Missey. I respect his dedication to his calling, and I also admire him and his family for the sacrifices they made on behalf of his ministry. He is, in my opinion, not only a great uncle but also a great man.

Prior to his conversion, he was a man of the material world and as a man of the world, he indulged in worldly pleasures, which carry consequences and he even admits, those consequences were a heavy burden to bear. He also describes the classic struggle between good and evil, unchecked passions against temperance, self control in conflict with indulgences for the possession of his eternal soul. Struggling with the vices of this world he claimed victory and sought to help others, who also, were struggling. This is a sign of genuine repentance...when you desire to help others overcome the ways of the world.

He did his duty moving his family from place to place in pursuit of spreading the gospel of Jesus Christ by teaching others the way to conquer their passions and master the control of their physical bodies. His family suffered, not for lack of the necessities of life... I am sure there were shortcomings, but suffered through sacrifice, economic and lack of social and

François Columbier Columbus "Lum" Missey and Descendants

physical luxuries.

For such a divine ministry, the Lord requires such sacrifices. Had he denied his calling and remained in Bourbon, he would have prospered and been established with a business and property as a respected physician. He could have continued his medical training and pursued his medical career instead of the ministry. He would have enjoyed a wealthy and prosperous life.

However, being a man of high caliber, he could not deny the burning in his bosom to serve his Heavenly Father and by serving his fellow man he served his Heavenly Father. He knew the pleasures of this life are not needed when the Lord calls you to "feed" his sheep. The Lord requires we go where he wants us to go and he will provide.

This, Reverend Albert and his family did with undying dedication and love and have benefited from the blessings of such sacrifice. Reading his journals, I conclude he was a good preacher, and not only morally good, but he was successful in his work.

As you have read in his journal, each time he was assigned to minister to a circuit, the people in that region were in poor spiritual health. Through his guidance and love, he increased their spirituality and brought them closer to their Heavenly Father. When he left the region, the congregation was on a high spiritual plane and when he would return, a few years later, he found the spirituality had declined in his absence. Since he was a good spiritual teacher, and a good example, our Heavenly Father blessed him and his family.

As a blessed man, he found favor with our Heavenly Father and all who came in contact with him were blessed. He helped people build families by marrying hundreds of people throughout the Maries, Gasconade, Phelps, Crawford, Washington and Jefferson Counties of Missouri. He brought much joy into the lives of his congregations and set a good example for them as their preacher, father, husband and son.

As evident in his journals, he loved his family, and actively participated in their lives. As you read his journal, pay particular attention to his closing remarks. He gave his family a father's blessing before he died as did our great progenitor...Father Adam did at Adam-ondi-Ahman.

I feel Albert is a man who lived, walked and taught in the light of our Heavenly Father. I look forward to meeting him, one day, and pray that I am worthy to do so. -- Floyd Thomas Pratt

Research Note

My above FAG entry no longer exists. When I created the entry I gave a full Cradle to Grave Profile. I removed my original entry due to unethical practices by the Find A Grave administration. Read my report, "[**Why I STILL can no longer support www.findagrave.com**](#)" for the details.

For your information, I have severed my relationship with the Find A Grave organization. I have asked them to remove all memorials, flowers and any references relating or mentioning my account. I have had an uneasy relationship with their administration for the last 5 years and in my opinion, they have lost faith and violated the public trust.

Research Note

Based on the certainty this is William in the 1930 census dated 24 May 1930, and Mae Iva (**MISSEY**) was living with her parents in the 1930 census dated 7 April 1930, it appears the reported marriage date of 19 April 1930 in Union, Missouri is incorrect. Since William was still living in St. Louis as a single man on the 24th of May AFTER the alleged marriage date, then the 19th of April marriage date is incorrect.

Research Note

My above FAG entry no longer exists as it is written here. When I created the entry I always gave a full Cradle to Grave Profile for the memorial. I removed my original entry due to unethical practices by the Find A Grave administration. Read my 2nd report, "**Why I STILL can no longer support www.findagrave.com**" for details. Due to their unscrupulous practices, I have severed my relationship with the Find A Grave organization. I have asked them to remove all memorials, flowers and any references relating or mentioning my account. I have had an uneasy relationship with their administration for the last 5 years and in my opinion, they have lost faith and violated the public trust. I continue to list various Find A Grave memorials in my publications strictly to affix the burial locations in my reports. Most memorial data on Find A Grave is in conflict with the facts and should not be accepted without research validation.

Cradle to Grave Report: John Benjamin "Ben" Missey by Floyd Thomas Pratt F.H.C., M.A.G.I. 2010

In harmony with the first law of genealogy or family history research, i.e., documentation, I submit my famous Cradle to Grave (C2G) Profile on this subject including all known documentation presented for the serious researcher. This has been done to help family historians continue in their pursuit of family history knowledge without a duplication of effort. All I ask is that you acknowledge my contribution to your family history research. My gift to you...Floyd Thomas Pratt F.H.C., M.A.G.I.

1869 Birthblock for John Benjamin "Ben" Missey son of Francois "Francis" Columbier "Columbus" and Cynthia N. (TALBOT) Misse Missey

John Benjamin Missey was born near Caledonia Post Office, Kingston Twp, Washington, Missouri, United States on 4 December 1869.

Date from the 1870 census states he was born in December 1869 in Missouri.

Date from the 1880 census states he was born 1870 in Missouri.

Date from the 1900 census states he was born October 1869 in Missouri.

François Columbier Columbus "Lum" Missey and Descendants

Date from the 1910 census states he was born 1869 in Missouri.

Date from the 1920 census states he was born 1870 in Missouri.

Date from the 1930 census states he was born 1870 in Missouri.

Date from brother; Albert Paris Missey's journal states he was born 4 October 1869.

Date from the death certificate states his birth as 4 October 1870.

Since the 1870 census states he was born in December 1869, therefore he was probably born 4 December 1869.

AKA John Benjamin not Benjamin John Missey

by Floyd Thomas Pratt F.H.C., M.A.G.I. 11 January 2010

Seems to be some confusion as to the name and order of John Benjamin Missey.

In the 1870 census his parents list him as Benjamin born in December 1869.

In the 1880 census his parents list him as **John B. Mesey**.

In the 1900 & 1910 census he is listed as Benjamin J. Missey.

In the 1920 census he is Ben Missey.

In the 1930 census he is Benjamin Missey.

In the 1940 census he is Ben Missey.

Many as they grew to adulthood reversed their names. This was common when children are called by their middle name as they grow up, and continue to use their middle name as their first. However, he was legally born as John Benjamin Missey. When his mother; Cynthia listed her children in the 1880 census, she was using the full name sequence with each child. Therefore, Albert P. was Albert Paris, John B. was John Benjamin, Lee C. was Lee Clinton, Mary L. was Mary Laura, Robert J. was Robert Judson, Frank C. was Frank Carter. I hope this clarifies his name confusion. Floyd Thomas Pratt F.H.C., M.A.G.I. 11 January 2010

My above FAG entry no longer exists. When I created the entry I gave a full Cradle to Grave Profile. I removed my original entry due to unethical practices by the Find A Grave administration. Read my report, "**Why I STILL can no longer support www.findagrave.com**" for the details.

For your information, I have severed my relationship with the Find A Grave organization. I have asked them to remove all memorials, flowers and any references relating or mentioning my account. I have had an uneasy relationship with their administration for the last 5 years and in my opinion, they have lost faith and violated the public trust.

Research Note

My above FAG entry no longer exists. When I created the entry I gave a full Cradle to Grave Profile. I removed my original entry due to unethical practices by the Find A Grave administration. Read my report, "**Why I STILL can no longer support www.findagrave.com**" for the details.

For your information, I have severed my relationship with the Find A Grave organization. I have asked them to remove all memorials, flowers and any references relating or mentioning my

François Columbier Columbus "Lum" Missey and Descendants

account. I have had an uneasy relationship with their administration for the last 5 years and in my opinion, they have lost faith and violated the public trust.

Bourbon, Mo. December 25, 1914

"Journal of Rev. Albert Paris Missey" by Rev. Albert Paris Missey 1913-1942, Elucidation by Floyd Thomas Pratt 2009

This is the second Christmas that we have spent during our Pastorate here in the little town of Bourbon. There were no services that I know of at any of the churches except at the Luthern Church. Every thing was unusually quiet over the entire town as Bourbon has no saloons. My Father and my sister and her family were with us today and we spent a very pleasant Christmas to gether. My nephew Lloyd Missey from Jefferson County was with us also. While we have enjoyed ourselves immensely to day. I am not unmindefull of the fact that in European Countries to night there are thousands of homeless mothers and children without food and shelter that need the prayers and assistance of a great country like this. I have just sent \$5.00 of the Lord's money to be applied to the war relief fund. Yours in Christ, A. P. Missey Pastor

A Rose by any other name...Courtoise

When researching the Courtway family surname, pronounced "Court-way" one has to be flexible to variations. Actually the surname Courtway is really the surname Courtoise however due to the French slang they pronounced the name phonetically sounding like Courtway. Many of the Courtoise ancestors pronounced their surname with such a southern French drawl, as to render the name unrecognizable, confusing the listener into believing it was a new name altogether.

Some documents and records used Courtoise, Courtois, Courtaway, Courtway and all manner of pronunciations. One has to remember, back in the day, so many of our American ancestors were uneducated and they spelled and pronounced their name phonetically without regard to the actual official and legal family spelling.

Some even became creative and added additional characters or eliminated characters in the surnames to suit their whims. So, when you are looking for family records, discard your years of education from your mind, and reduce your thinking to a fourth grader or less and think phonetically.

How would they pronounce their surname if they, [1] slurred their words, [2] spoke too quickly, [3] talked with their mouth full, [4] spoke too quietly, [5] had tobacco in their mouth [6] were drunk and/or [5] didn't care if the census taker got their name correct or not.

In any case be flexible...like flowing water and let the surname flow off the tongue as if you really didn't care how your surname was spelled and I think you will be able to decipher some of these twisted, convoluted and distorted surnames and in the process, discover new ancestor records you thought were lost. Autobiography of Esther Nora (MISSEY) Grimm Maul

Esther Missey's personal history written by her:

I was borned Esther Nora Missey daughter of Lee and Eliza. We never lived in one place long. My father always seemed to be looking for greener pastures. I think the most interesting part of my life probably started in the year of 1918. We moved to Arkansas, several miles from Pocahontas on Current River. We farmed there one year. The misquetoos were so bad, we all got malaria. My brother and Uncle Judson nearly died.

We then moved over in what were called the sand hills, address Holmes, Ark. We farmed there one year and had a bumper cotton crop, also my sister Fieda was borned there May 8, 1920. Just when our cotton fell to almost nothing we wound up with enough money to pay for a team of snow white mules named Jack and Beck, and a wagon. We then moved to the hills in Ark., post office Attica, Ark. We farmed there one year. We grew a big patch of Sorghum Cane. Pop made Sourghum molasses. He knew how to make it real good.

In the fall we decided to move back to MO., but didn't have enough money. So we packed what we could in a covered wagon including 2 large lard cans full of molasses and went to Bigers, Ark, where the cotton picking was good, we all picked long and hard to make some money, then we headed for Iron Mt., Mo. where my Grandpa Studdard lived.

Pop and Chester would take turns driving and walking. Mom would stay in the wagon with Doris and Frieda. Then Edna got sick so her and mom would take turns in the wagon. But Edith and I had to walk all the time. So I can truly say I walked from Biggers, Ark., to Iron Mountain, Mo. We would stop a lot along a creek some where, then we would make camp at night. Pop was real good at making flap jacks. He would use a frying pan, brown them one side, then throw them up in the air they would flip over and land in the frying pan. We would stop at farms and buy butter and milk. The farmers would often come to our camp and visit. Mom would cook a big pot of beans at nite and put them in the wagon for the next day. Those flap jacks with butter and sorghum sure were good.

We stayed at Grandpa's a couple a weeks, Pop and Chester worked in the timber making ties (railroad). I watched Pop make ties with a broad ax many times. Then we headed back to Bliss, Mo. We stayed a few nites at Uncle Ben's, he lived on Cannon Mines Creek, untill Pop found a place for us to live. I could go on and on about my life. Esther Nora Missey [We wished you had Esther.]

2010 Personal Story

In my pursuit of Missey family history, I made contact with Esther when she lived on Pennsylvania Avenue down in St. Louis (1980's). I was living in St. Charles at the time and drove down to visit with her. She lived in one of those brick homes almost like a box with a neat manacured lawn in a very clean area and was very helpful with the Missey family history. On my second, visit she had a daughter with her whom I have forgotten the name and I had my wife...Bonnie with me. We all had a great visit. Esther brought out her old family pictures and family history papers and explained her family and her

François Columbier Columbus "Lum" Missey and Descendants

father's family. She gave me valuable information that paved a road back into the lives of the Missey family. It is with deep appreciation that I wish to thank her for her help and assistance of which I could not have done this by myself. Once again thank you Esther and family. Cradle to Grave (C2G) Profile for Mary Laura Magdalene (MISSEY) by Floyd Thomas Pratt F.H.C., M.A.G.I. 17 August 2010

In harmony with the first law of genealogy or family history research, i.e., documentation, I submit my famous Cradle to Grave (C2G) Profile on this subject including all known documentation presented for the serious researcher. This has been done to help the serious researcher continue in their thirst for family history knowledge without a duplication of effort. All I ask is that you acknowledge my contribution to your family history research. My gift to you...Floyd Thomas Pratt F.H.C., M.A.G.I.

1874 Birthblock for Mary Laura Magdalene (MISSEY) daughter of François Columbier Columbus "Lum" & Cynthia N. (TALBOT) Missé Missey

Mary Laura Magdalene (**MISSEY**) was born in Johnson Twp, Washington, Missouri, United States on 20 February 1874.

Date from 1880 census states she was born in 1874 in Missouri.

Date from 1900 census states she was born February 1876 in Missouri.

Date from 1910 census states she was born 1875 in Missouri.

Date from 1920 census states she was born 1875 in Missouri.

Date from 1930 census states she was born 1874 in Missouri.

Date from death certificate states she was born 20 July 1874.

Date from headstone states she was born 20 July 1874.

[This is another instance where the birthdate is not conclusive. In the 1900 census at age 24 she states she was born in February 1876. Her parents in the 1880 census states she was born in 1874. On the death certificate her son, Virgil was the informant and he made errors on the death certificate. Therefore, apparently he really didn't know when she was born. I believe that the 20th day was correct, that February was the correct month and 1874 was the correct year. Therefore, I'm going with 20 February 1874.]

Name Variations

I was told that her name was Laura Mary Magdalene (**MISSEY**), however, her mother in the 1880 census states her name is Mary Laura (**MISSEY**). Therefore since we are striving to record accurate information she will be recorded as Mary Laura Magdalene (**MISSEY**). Also, my father; Floyd Theodore Pratt gave me the information of the middle name of Magdalene.

1893 Marriage of Henry Winslow Pratt and Mary Laura Magdalene (MISSEY)

Crawford County, Missouri, Marriage Record Book "E", page 172

"William H. Pratt and Laura M. Missey, State of Missouri County of Crawford, This license authorizes any Judge, Justice of the Peace, Licensed or Ordained Preacher of the Gospel, or any other person authorized under the Laws of this State, to Solemnize Marriage between William H. Pratt of Vilander County of Crawford and State of Missouri, who is over the age of twenty-one years; and Laura M. Missey of Vilander in the County of Crawford and State of Missouri, who is over the age of eighteen years. This is to certify, that undersigned a Minister of the Gospel did at residence of the bride in said County, on the 29th day of January A.D. 1893, unite in marriage the above named persons. M. A. Clayton"

[Should be noted that this is the only reference to Winslow's name as William. I attribute this error to the county clerk or minister recording this marriage due to their lack of familiarity with Henry Winslow Pratt. Laura (**MISSEY**)'s residence was with her father; Columbus Francis Missey at Vilander, Liberty Twp, Crawford, Missouri, United States.]

1893 Childbirth of son: Columbus "Lum" Benjamin Alexander Pratt

Columbus Benjamin Alexander Pratt was born 1 December 1893 at Hamilton Hollow, Johnson Twp, Washington, Missouri, United States. [Concerning his place of birth, my grandmother, Rue (**JOHNSON**) Pratt told me Lum was born in Catawissa, Calvey Twp, Franklin, Missouri. However, this is contrary to the location of his parent's residence which was at Hamilton Hollow, Johnson Twp, Washington, Missouri, United States. Since the 1890 census was destroyed by fire, we do not have the location of his parent's exact residence. The 1880 census states his father was in Johnson Twp, Washington County, Missouri and the 1900 census states his father lived in Johnson Twp, Washington County, Missouri since both censuses are in Johnson Twp, Washington County, Missouri then I would conclude that he was born in Johnson Twp, Washington, Missouri not Catawissa, Calvey Twp, Franklin, Missouri. Also, on his brother's, Jesse Lee Pratt's death certificate, it states that Jess was born near Sullivan, Missouri. Since Sullivan is the closest town to Hamilton Hollow then this also supports my assumption that Columbus was born in Hamilton Hollow. Without stronger evidence supporting the Catawissa birthplace, I believe that Columbus Benjamin Alexander Pratt was born at Hamilton Hollow, Johnson Twp, Washington, Missouri, United States. Therefore, until new proof can be found to support the Catawissa birthplace, henceforth based on the above evidence I stand by my presumptive conclusions.]-Floyd Thomas Pratt 2009

Living a few doors down from John & Susan (WEST) Studdard family. Even though Henry Winslow Pratt says he owned the home in the 1910 census, I could not find the deed recorded in Crawford County deeds. I checked 1881 to 1917 deed records and could not find an entry where Henry Winslow Pratt was grantor or grantee. The home that my aunts and uncles remember between Crows Creek and Brazil Creek (see map) belonged to Columbus Francois Missey, Laura's father. He had entered a deed for 120 acres on 20 April 1889. Either he sold the property to Henry Winslow Pratt and they never filed the deed or the land was given to his daughter and son-in-law as a gift. The deed records need to be searched from 1917 to Laura's death to find out when C. F. Missey sold that land or how it was disposed. -Floyd Thomas Pratt]

Francois Columbier Columbus "Lum" Misse died in Bourbon, Boone Twp, Crawford, Missouri, United States on 26 April 1916.

1914-1916 Postcard

It looks like my Grandmother Rue (JOHNSON) Pratt's writing of the names on the postcard which states..."Mrs. Laura Pratt, Ruth Pratt, Mary Pratt and Arvill Pratt". The other writing says "from Mother to Lum" that looks like Laura's writing and addressed to her son, "Columbus "Lum" Pratt, Patsy, Missouri". This was in the possession of my Aunt Evelin

François Columbier Columbus "Lum" Missey and Descendants

Juanita (**MILLER**) Pratt, wife of James Henry Pratt and she sent a copy of the picture and postcard to my father with the following note, "This picture was a postal card that Luara Pratt sent to your father. I have copied it for you. In case you wonder, Patsy, Missouri was around Cherry Valley. Don't know what he was doing there unless he was doing a home. Juanita." Lum worked in masonry and was a tie maker. Unknown, if this took place before the death of Henry Winslow Pratt in 1914 on afterwards. I figure the date to be circa 1914-1916 because Ruth looks like she is 10-11, Mary looks like she is 6-7, Orville looks like he is 3-4 years old. Floyd Thomas Pratt, F.H.C., M.A.G.I. 2009

Dad (Floyd Theodore Pratt) was 9 years old when he attended her funeral. She died on Sunday, 17 April 1938 at her home on Spruce Street at Bourbon, Missouri. This picture shows the open aired viewing of Laura in her front yard on Spruce Street. The funeral service was at the Pentecostal Church which became the Assembly of God Church across from her home where she attended for years. Dad says her coffin was opened for viewing sometime between Monday the 18th and Tuesday the 19th before she was buried on Wednesday the 20th. Family Story

Carl Benjamin Pratt told me that he remembers Grandma Laura Pratt used to carry a tobacco pouch under her petty coat. And when she chewed tobacco she would take a chunk out of the pouch and cut a slice off with a pocket knife. (Pioneer woman) FTP

Family Story

Floyd Theodore Pratt told me the story that his Grandma Laura Pratt told him that the Missey's owned land that the city of Boston is built on. Great Aunt Eula Pratt added to this that Laura Pratt had the deeds in her possession and one of the Pratt boys stole the deeds. She mentioned him by name, however I cannot verify this so no names are mentioned. FTP [See the report "**Who Stole the Pratt Deeds**"]

Family Story

Mary Edith (**PRATT**) Skaggs told me the following story about her Grandma Laura Pratt. One day when Edith was a small child, she was riding in a buckboard wagon with Grandma Laura Pratt when they came to Brazeal Creek. It had rained the night before and the river was flooded. Grandma Pratt decided to go ahead and cross the creek without the benefit of a bridge. Edith said Grandma Pratt stuck her corn-cob pipe between her teeth and told the mules to giddy-up. As they crossed the high river, Edith said that the sides of the buckboard were almost flooded with river water. But this did not phase Grandma Pratt and they made it across to the other side safely. Edith said she was scared to death when the water almost overflowed into the wagon.

[This shows the pioneer spirit that our frontier women possessed. Strong women raised strong men and kept families together in a time when survival against the animals, wildness and weather was a primary concern. Laura Dea Pratt my daughter; was named in honor of this courageous ancestor. FTP]

Mary married **Henry Winslow "Win" Pratt**, son of **Alexander "Alex" R. Pratt** and **Mary (KIMBERLIN)**, on 29 January 1893 in Vilander, Liberty Township, Crawford County, Missouri, United States. Henry was born on 6 September 1869 near Osage Post Office, Johnson Twp, Washington, Missouri, United States, died on 24 March 1914 near Crow's Creek, Boone Twp, Crawford, Missouri, United States at age 44, and was buried on 26 March 1914 in Harrison Cemetery, Vilander, Liberty Township, Crawford, Missouri, United States.

Cradle to Grave (C2G) Profile for Henry Winslow "Win" Pratt by his great grandson: Floyd Thomas Pratt F.H.C., M.A.G.I. 2 December 2013

In harmony with the first law of genealogy or family history research, i.e., documentation, I submit my famous Cradle to Grave (C2G) Profile on this subject including all known documentation presented for the serious researcher. This has been done to help the serious researcher continue in their thirst for family history knowledge without a duplication of effort. All I ask is that you acknowledge my contribution to your family history research. My gift to you...Floyd Thomas Pratt F.H.C., M.A.G.I.

This C2G profile is unique in several ways. Within each heading of proof of statement and documentation, the subject of the paragraph is not only listed but their parents are also listed. As in the case where this subject will become important in some future event in the life of our main ancestor, the spouse of that future event is also listed with identifying parents. Any additional references to those individuals or their ancestors are listed after

François Columbier Columbus "Lum" Missey and Descendants

each paragraph. These references can be books, stories, articles or pictures indicated by the title of these references in underlined **bold**. This convenience not only allows the reader to quickly identify the subjects of the paragraph, but also allows the reader to order a **free flyer** from the author concerning the additional resource items. Remember, the age, years, months, and days after the heading refers to Winslow's age at the time of the event.

Be mindful as little Winslow aged, he attended these weddings and get togethers. He knew these people we call ancestors and shared in their joys and disappointments. He not only saw babies being born but witnessed courtships that led to marriages. He saw the victims of war and conflict and attended the funerals of family and friends. As familiar as we are today with aunts, uncles and cousins, he too knew these people we today, honor as our ancestors.

Research Note

Seems to be a discrepancy of enormous proportions. When I read their marriage record in 1976, I was new to research and as an untrained observer, I thought I saw her name as Mrs. Other researchers have now reported the Mrs. was actually Misf, which was a double "s" indicating she was a Miss not a Mrs. Looking for a Mrs. Dugan over the last 20 years produced no possible candidate. However, after viewing the actual record, I must now conclude that it is written as Miss not Mrs. I have found in the census records a Miss Catherine Adaline (**DUGAN**) in Franklin County, Missouri who was 20 years old. Alexander would have been 53 years old at the time of this marriage and surely the newspapers should have written an article about the discrepancy in age of this marriage. I have not had the time to check the Sullivan, Potosi, Bourbon or Steelville newspapers to verify any such article. After researching the Dugan family, I am convinced Adaline, the 20 year old in the census is the one he married...that would explain her ability to bear two children and dying young, from childbirth complications in 1892.

Research Note

Concerning his place of birth, my grandmother, Rue (**JOHNSON**) Pratt told me Lum was born in Catawissa, Calvey Twp, Franklin, Missouri. However, this is contrary to the location of his parent's residence which was at Hamilton Hollow, Johnson Twp, Washington, Missouri, United States. Since the 1890 census was destroyed by fire, we do not have the location of his parent's exact residence. The 1880 census states his father was in Johnson Twp, Washington County, Missouri and the 1900 census states his father lived in Johnson Twp, Washington County, Missouri since both censuses are in Johnson Twp, Washington County, Missouri then I would conclude that he was born in Johnson Twp, Washington, Missouri not Catawissa, Calvey Twp, Franklin, Missouri. Also, on his brother's, Jesse Lee Pratt's death certificate, it states that Jess was born near Sullivan, Missouri. Since Sullivan is the closest town to Hamilton Hollow then this also supports my assumption that Columbus was born in Hamilton Hollow. Without stronger evidence supporting the Catawissa birthplace, I believe that Columbus Benjamin Alexander Pratt was born at Hamilton Hollow, Johnson Twp, Washington, Missouri, United States. Therefore, until new proof can be found to support the Catawissa birthplace, henceforth based on the above evidence I stand by my presumptive conclusions.-Floyd Thomas Pratt 2009

Research Update

See the book, "**The Pratt Chronicles...Columbus Benjamin Alexander Pratt**" 2013 by this author concerning definitive proof of Columbus Pratt's birth location. Also, in that book, the Catawissa birth mystery is explained and solved. Floyd Thomas Pratt 2013

The Catholic Priest were meticulous concerning the name of the person being born, baptised or married, including in the record, the parents and God-parents of the individuals involved. This example of record keeping inspired me to produce the type of records you...my fellow researchers, have come to expect from my publications. Because of the wonderful example our Catholic ancestors set for the rest of us, I have chosen to adopt their style of record keeping and you are blessed with these wonderful ancestor records I am trying to preserve. Yes, it does take longer, yes, it requires additional research and validation, but knowing who married who is not enough, we should want to know all about our ancestors and in the attempt, we will at least be able to carry on some sort of intelligent conversation with them

1900-1902 Family Move

From Hamilton Hollow, Johnson Twp, Washington, Missouri, United States to Bourbon,
Boone Twp, Crawford, Missouri, United States.

Research Note

Bourbon, Missouri plays an important role in the lives of my ancestors and I feel it would be
apropos to tell something about the town's origins.

Virtually Bourbon

<http://www.bourbonmo.com/history.htm>

*Bourbon, Missouri had its beginnings in the early 1800's. Bourbon is believed to be the only
town in the United States named for Bourbon whiskey. The beginnings of the city coincide
with the construction of the railroad (first called the Pacific and later the Frisco).*

François Columbian Columbus "Lum" Missey and Descendants

The southern branch of the railroad was completed to Rolla in 1860. The construction of the railroad brought settlers to the area, encouraged by the availability of inexpensive land from the railroad, which was granted every other section along the right of way. Settlers also came into the country to homestead land and to settle on land granted to veterans of the War of 1812.

A road from St. Louis to Springfield was already in use, roughly following the divide between the Missouri River and the Meramec. The new railroad closely followed the route of the Old Springfield or "Wire" Road.

At that time there were several farmers living in the Bourbon area. A town was proposed one and one-half miles east of the present town. Streets were laid out and lots marked off, at least on paper, and the village was to be named St. Cloud. Richard Turner set up a general store on his property just west of the proposed village to serve the needs of both settlers and railroad workers who moved along with the building of the line. Camps were set up along the right of way and the workers stayed in some places several months, as was the case here where a 50 ft. fill was constructed at Boone Creek. Most of the workers were Irish Immigrants who built the railroad with picks and shovels and their own strong backs.

The Irishmen (and some of the settlers, too) were used to drinking whiskey, so Turner soon imported barrels of the new brand, Bourbon, which was becoming popular all over the New West. A large barrel labeled "Bourbon" sat on the porch of his store.

The barrel of whiskey was hauled to the construction project, and the Irishmen could go to "Bourbon" whenever they wanted a drink. Turner's store came to be called the "Bourbon" store, and the railroad workers soon called the entire area Bourbon.

When a post office was established in September 1853, the name was given as "Bourbon in the village of St. Cloud ". The town was never located at the proposed village, but was built further west where the steam engines could stop and start where there was no grade. The town of Bourbon sprang up along the railroad tracks and the Old Springfield Road, where it is located today.

Bourbon has never aspired to be a big city, with a cold, business-like attitude. Instead, Bourbon's businessmen and civic leaders strive to keep the friendly, neighborly manner that has long been an Ozark tradition. Bourbon people are just plain folks, who like to make friends and make you feel at home. [End]

Comment

I remember how my Christian-minded Grandmother; Rue Flavilla (**JOHNSON**) Pratt who had attended the churches in Bourbon since she was a little girl, felt it was disgraceful that the town she was born and grew up in was named after a decadent sinful drink called Bourbon whiskey. She set the bar high for her family and friends including this grandson concerning good strong moral character, which sadly we always did not emulate. I remember one time when my parents had gone out for the evening, Grandmother Rue was babysitting us three boys at our home in Bridgeton, Missouri in the early 1960's. She found in dad's kitchen pantry, bottles and bottles of alcohol and knowing this was not proper and unhealthy for her son and his family poured all the contents of those very expensive bottles down the kitchen drain. I watched her pour them down the drain and as I remember there

François Columbier Columbus "Lum" Missey and Descendants

were 6-8 bottles of all kinds of alcohol. I don't remember how the conversation went when my dad and mom got home from their evening's entertainment, but I imagine dad probably didn't say anything about the incident because he knew his mother; Rue was right. But, when she left for her home in Bourbon, I also, imagine those bottles were replaced...too bad lessons weren't learned. I don't want to give the impression that my parents drank a great deal of alcohol, which they didn't, but my father was a professional businessman and entertained guests in his home and had a variety of alcohol for his guests. Dad's choice of drink was beer, which he only drank when he played cards with my uncles. Floyd Thomas Pratt 2013

Research Note

Concerning Beulah's 1st spouse; James Thomas Beuten son of Charles William and Eva Alice (**RAYON**) Beuten, after his marriage to Beulah he changed his name to Edwin Carl Busch.

In all my 38 years of family history research, I have never seen anything like the marriage anomalies of the wives of my great Uncle Henry Arthur Pratt.

Art's first wife; Hazel Belle (**COZIAH**) daughter of James J. & Eva May (**OSTRANDER**) Coziah was married 5 times before marrying Art,

Art's second wife; Beulah Trassy (**COFFMAN**) daughter of Joseph Lafayette "Fate" & Elizabeth Isabelle "Izzie" (**DAVIS**) Coffman was married 3 times before marrying Art and once after Art's death. In all that drama...Art never had any children.

Each of those wives had some children with various husbands. This complex stage of events intrigued me so much, I wrote an article titled, " **The Amazing Wives of Henry Arthur Pratt 2nd Edition 2013**" detailing my discovery of the origin of these wives, their family history and evolving information concerning their spouses.

Many of these marriages ended in divorce, some due to death however, for a woman back in those times, to entertain so many husbands, was not only unusual but by "proper" society standards...disgraceful. Art's willingness to accept a relationship with these women, and their "baggage", indicates a rebel mentality and defiance for "proper" society rules.

This story of Art and these women contain the foundation of an unbelievable Hollywood movie. You have everything from the hardship of a loss of mother; due to sickness, single parent father with 4 children from babies to age 6 forced to give them to neighbors and family to be raised, each women forced to survive in a pre-welfare world, using their wits and determination.

As additional information has been discovered concerning these extraordinary women, I have had to "update" my previous editions with newly discovered information. Far from complete, but an extraordinary view into the lives of these wonderful people giving the reader an appreciation for the struggles these strong women had to face to survive in an unsympathetic world. I consider this story a tribute to them and their struggles and an example for all women who think they had it rough. Floyd Thomas Pratt F.H.C., M.A.G.I.

Song: "Meet Me In St. Louie, Louie" The words were by Andrew B. Sterling; the music, by Kerry Mills

"Meet Me in St. Louis, Louis", better known as just *Meet Me in St. Louis*, was a popular song from 1904 which celebrated the Louisiana Purchase Exposition, i.e., the St. Louis World's Fair. The song was published in 1904 in New York by Mills's firm operating under the name F. A. Mills. It was recorded by many artists such as William F. Denny and Billy Murray. The song and the fair were focal points of the Judy Garland, *Meet Me in St. Louis*. Garland recorded the song in 1944. "Louis" in the song is pronounced "LOO-ee", akin to the French. The song is one of the few instances of pronouncing the city's name that way. It is normally pronounced "LOO-is". The song, which is generally styled in the form of a limerick, has many and varied verses, few of which are remembered today - unlike the chorus. In the original sheet music, the chorus is the same for the first two verses but varies in verses three through six, which are essentially jokes with the punch line in the chorus.

Song: "Frankie And Johnny" by Hughie Cannon

It has been suggested that the song was inspired, or its details influenced, by one or more actual murders. One of these took place in St. Louis, Missouri, on October 15, 1899, when Frankie Baker, a 22-year-old dancer, stabbed (or shot) her 17-year-old lover Allen "Al" Britt, who was having a relationship with a woman named Alice Pryor. Britt died of his wounds two days later. On trial, Baker claimed that Britt had attacked her with a knife and that she acted in self-defense; she was acquitted and died in a Portland, Oregon mental institution in 1952.

The song has also been linked to Frances Silver, convicted in 1832 of murdering her husband Charles Silver in Burke County, North Carolina. Unlike Frankie Baker, Silver was executed.

The card game, Pit, was first produced. It was one of the first games where all players acted at the same time

Song: "The Caissons Go Rolling Along" The Caisson Song

The song is based on the "Caisson Song" written by field artillery (later Brigadier General) Edmund L. Gruber, Lieutenant William Bryden, and Lieutenant (later Major General) Robert Danford while stationed at Fort Stotsenburg in the Philippines in March 1908. The tune quickly became popular in field artillery units. In 1917 the Secretary of the Navy and Army Lieutenant George Friedlander of the 306th Field Artillery asked John Philip Sousa to create a march using the "Caisson Song." Sousa changed the key, harmony, and rhythm and renamed it "U.S. Field Artillery." The recording sold 750,000 copies. Sousa didn't know who had written the song and had been told that it dated back to the Civil War. Although an Army magazine claims that Sousa passed on his royalties to Gruber other sources state that Gruber became involved in a prolonged legal battle to recover the rights to music he had written and that had been lifted (unknowingly or not) by Sousa and widely sold by sheet music publishers who reaped profits while Gruber received nothing. The music became so popular that it was also used in radio ads by firms such as the Hoover Vacuum Company. Gruber lost his battle in the courts. They ruled that he had waited too long to complain and that his music was by that time in the public domain. "The Caisson Song" was never designated as the official U.S. Army song likely because the lyrics were too closely identified with the field artillery and not the entire army. The official song retains Gruber's music, but with re-written lyrics.

1907-1914 Family Story told in the 1970's

During a family reunion in Bourbon, Missouri, sometime during the late 1970's before her death in 1978, Ethel Delora (**MISSEY**) Isgriggs told me a story about Henry Winslow Pratt and his son; Columbus Benjamin Alexander Pratt having an argument over who was going to cut the firewood.

Ethel Delora (**MISSEY**) Stroup Hamlin Isgriggs is the daughter of Ambrose James and Parry Jane (**RICHARDSON**) Missey. She was a good family friend of my Great Aunt Eula Viola (**RICHARDSON**) Pratt, who also collaborated this story.

The story goes that "Winslow" told his son "Lum" to cut some firewood. Lum refused and Win told him he would have whip him if he didn't obey. Lum still refused and Win and Lum started to fistfight and brawl on the ground until Winslow was victorious and Lum succumbed and cut the firewood.

If this story is true, which I have no reason to doubt these ladies, this would have had to take place before Winslow's death in 1914. Lum would have been around 14 to 20 years old (1907-1914) and Winslow would have been in his 40's!

Columbus was way to old for fighting with his father and Winslow was way to old for trying to prove he was still the top dog in his house.

Ethel also said the Pratt's were hard cases and rough people. Not only were they financially poor and lacking higher educations, but this hard case characteristic in their personality was a carryover from their Cherokee heritage.

Harboring a "Trail of Tears" survival mentality where life was rough and survival was the order of the day, hard times required hard men and the Pratt's and their counterparts; the Blanton's took second seat to no one.

My father often told me that you did not want to challenge or cross Lum Pratt because he was a tough character and a no nonsense type of guy. Whatever he said, you did with no backtalk or discussion...that is if you didn't want to pick your teeth up off the ground.

This type of rough love behavior had its positive influences and negative influences. The positive effect was that the Pratts were taught to stand on their own two feet and take charge and be responsible and accountable for their actions. This led to independence and strength with a get-it-done attitude. The negative result was a lack of or the ability to offer unconditional love or to express their affections to family and friends.

François Columbier Columbus "Lum" Missey and Descendants

Dad says the only time his father (Lum) embraced him and gave him a hug was when Dad came back from WWII in 1947...my father was 20 years old at that time.

I am convinced without the saving graces of our dear wives teaching us to even the scales of justice...with love, we Pratts would not have the potential to be the loving husbands and fathers that we strive to be today.

Hopefully, when dealing with friends and especially family, none of us in this period of education and enlightenment will carry over the negative caveman characteristics exhibited by our forefathers.

Song: "Cuddle Up A Little Closer, Lovey Mine" The music was written by Karl Hoschna, the lyrics by Otto Harbach

Song: "Take Me Out To The Ballgame" The words were written in 1908 by vaudeville star Jack Norworth, who while riding a subway train, was inspired by a sign that said "Baseball Today - Polo Grounds". In the song, Katie's (and later Nelly's) beau calls to ask her out to see a show. She accepts the date, but only if her date will take her out to the ballgame. The words were set to music by Albert Von Tilzer, (Norworth and Von Tilzer finally saw their first Major League Baseball games 32 and 20 years later, respectively). The song was first sung by Norworth's then-wife Nora Bayes and popularized by many other vaudeville acts. It was played at a ballpark for the first known time in 1934, at a high-school game in Los Angeles, and researchers think it made its debut at a major-league park later that year.

Song: "Shine On, Harvest Moon" is the name of a popular early-1900s song credited to the married vaudeville team Nora Bayes and Jack Norworth. It was one of a series of moon related Tin Pan Alley songs of the era. The song was debuted by the composers in the Ziegfeld Follies of 1908 to great acclaim. It became a pop standard, and continues to be performed and recorded into the 21st century.

Song: "Casey Jones" There are several songs about Casey Jones, the famous railway man of the Illinois Central. The songs are based on the train wreck of April 1900 at Vaughan, Mississippi. Jones was a well-known and respected driver. He was driving No. 382, possibly

for a sick friend. The switching station at Vaughan did not have enough room to accommodate the length of trains there. Flagmen were sent to warn Jones, but for unknown reasons, he was unaware of the problem until it was too late. Jones was killed in the accident. He left a wife and three children. Wallace Saunders, Casey's African-American engine wiper, wrote the first Casey Jones ballad. It was sung to the tune *Jimmy Jones*, which was popular at the time. Engineer William Leighton heard the song. His brothers Frank and Bert, vaudeville performers, polished the song, added a chorus, and began to perform it in their act. When the ballad was published in 1902 the words were credited to T. Lawrence Seibert, and Eddie Newton was credited with the music.

Henry Winslow & Mary Laura Magdalene (MISSEY) Pratt's Crows Creek Family Home by Floyd Thomas Pratt F.H.C., M.A.G.I. 16 August 2010

Back in the early 1990's Bonnie and I were attending the Pratt-Graddy family reunion in Bourbon, Missouri. They always held the reunion on the 2nd Saturday of each September.

After much coaxing, I was able to convince Dad, Uncle Jim and Aunt Edith to take me to Henry Winslow Pratt's cabin location on Crows Creek. I had never been there and after all these years I now knew some history of that property. I wanted to research the property and surroundings taking pictures for future posterity.

So, with about 15 to 20 people, piled into several cars, we drove out of Bourbon to Sullivan took Highway D to Sappington Road and drove down to Thickey Ford Road near Greens Branch creek...I think. I think we had to cross Greens Branch to get to the cabin's location because there were no roads into the property.

François Columbier Columbus "Lum" Missey and Descendants

When we got to the section where Thickey Ford Road makes a sharp left, the dirt road continued straight on down the hill...but, at the entrance of someone's property there was a padlocked gate so, we had to park our cars up by the gate and walk to the creek.

We walked down the hill towards the creek about 100 yards and when we got to the creek, the 2 wheeled road drove right into the creek and up the other side. You've seen those roads, where you have weeds and grass growing up in-between where the wheels drove. The creek was about 30 feet wide but not very deep.

It had rained the night before and the creek was up to about our knees-waist and it was flowing rather quickly and it was *cold*.

I was excited about being able to see the cabin location that Columbus Francis Missey had owned and gave to Henry & wife; Mary Laura Magdalene (**MISSEY**) Pratt family.

Uncle Jim knew the most about the location and said that when they were little, he and his brothers used to visit the cabin before it burned down. Now all that was left was a rock foundation and maybe a chimney. He said he would like to take a metal detector and look for old coins around the cabin.

I was of course, gung ho! And ready to wade the creek but the rest being of older years, feigned off and I did not get to cross the creek and walk to the Pratt family home site. Uncle Jim said it was quite a ways up the hill.

So, my fellow readers, cousins, brothers, nieces, nephews, grandchildren and children I can not give you an exact location or my impressions of the area...maybe one day, you may get to visit it.

Besides my 30-year insurance career, I also held two real estate licenses; one for Gundaker Realty in St. Charles, Missouri (about 1992-1993) and one for All Aces Century 21 Real Estate Company in Bradenton, Florida (1995-1996).

One of the purposes of getting a real estate license besides making money-selling properties was to teach myself how to read maps. This has come in handy when reading deed records and looking for ancestor's property.

In the C2G Profile of François Columbier Columbus "Lum" Missé, I list the exact location of that property he bought on Crows Creek in 1890.

That property he lived at from 1890 to 1911, when Henry & family moved in, I guess it became too much for Lum, because the Sullivan Sentinel newspaper article on 3 November 1911 said Lum was moving to Bourbon, Missouri.

I imagine Lum's second wife; Mary Lavina (**CAUFIELD**) Missey may not have liked being crammed into a small cabin with Henry's large family.

He left Henry and Mary the house on Crow's Creek and Lum and wife moved to Bourbon where Lum died on 26 April 1916.

François Columbier Columbus "Lum" Missey and Descendants

So, there you have it, one of my disappointments of life...locating the cabin where my 2nd great grandfather; François Columbier Columbus "Lum" Missé (Lum) lived and owned, where my great grandfather Henry Winslow Pratt (Win) lived and died (1914) and where my grandfather; Columbus Benjamin Alexander Pratt (Lum) was born (1896).

Who knows, maybe...one day I may still get there yet. Floyd Thomas Pratt F.H.C., M.A.G.I.

1970 John McCormick's Book (as it was written)

"Forest Hills and Vicinity" by John Steele McCormick, 1970, states the following about Henry Winslow Pratt family, Page 376:

Over a century ago Alex Pratt came from Pennsylvania and settled on Brazeal Creek and Greens Branch. He married a Kimberlin. Their four children were.

I. Henry Winslow,

II. Rynard,

III. Carric,

IV. Cleave.

Henry Winslow Pratt married Laura M. Missey, daughter of Columbus and Cynthia (TALBOT) Missey. They were the parents of the following eight children:

1. Columbus, b. Nov. 1, 1893; d. July 27, 19 ; married April 12, 1919, Rue Johnson, daughter of James Millard and Mary Jane "Dosia" (BARTON) Johnson of Bourbon. The family always lived in or near to Bourbon. Their children;

A. Edith, who married Chester Skaggs.

B. Carl, m. Mary of St. Louis.

C. Roy, of near Steelville.

D. Floyd, who with his family of wife and three sons lives in Sioux Falls, S.D. where he is executive vice- president of Atlas Life Insurance Company and is regarded as a leading efficiency expert.

E. Nadine, who died young.

F. James, of California.

2. Jesse L., b. 1895; d. 1962; buried National Cemetery at Jefferson Barracks; of Leasburg; m. Nadine (SKAGGS).

3. Allan

4. Virgill of Bourbon m Eula, daughter of Pete Richardson of Steelville.

5. Arthur, b. Jan 2, 1902; d. May 7, 1961; m. (1) Hazel Belle Stall of Kansas City; m. (2) Mrs. Beulah Cross of Detroit, Mich.; no children.

6. Mary

7. Ruth, b. Aug. 8, 1904; d. Sept. 26, 1961; married Oct. 23 1919, Allan Graddy of Coffeyton, Oct. 23, 1919; all their children attended Forest Hill School.

8. Orville, of Kansas City.

There was also a John Pratt family whose descendants spread into northern Crawford County. This family came from Tennessee, but if related to the Alex Pratt family, it is not known. John A. Blanton of Sullivan married Sarah (PRATT) of this family. There were two other wives.

The 1850 census, always unsatisfactory, especially in giving initials instead of given names of member of the families, lists a Pratt family in Crawford County at this date as follows:

"J. Pratt, age 23, b. in Ohio, and his wife, R. Pratt, aged 20, b. in N.C." and their two sons:N.C. aged 3 and J.M. aged one both here." (end of article)

Research Rebuttal

This is the entirety of the text. However it is riddled with errors. When John McCormick was gathering information for his book, he sent letters to all the surnames he could find in the Crawford, Washington, Franklin county areas. One of these letters came to Floyd Theodore Pratt, my father.

Dad, not knowing a great deal about ancestors sent a copy of the letter to Rue Flavilla (**JOHNSON**) Pratt his mother; my grandmother. She wrote what she knew on letter paper about the Pratt, Johnson and allied families and sent it back to Dad in Sioux Falls, South Dakota where we lived in 1961. Dad added his comments to the information and sent all he knew with Grandmother's information and sent it to Mr. McCormick. Without my grandmother's effort there would have been no reference to the Pratt's let alone related families.

Concerning the validity of the information, as you know by now Alexander R. Pratt was born in Monroe County, Tennessee in 1831-1832. After a forced march on the "Trail of Tears" with his family, Henry and Nancy (**CARTER**) Pratt jumped trail in Crawford County, Missouri and by the 1840 census had settled in Richwoods Twp, Washington, Missouri.

After some time, Henry and family settled in what is now called the Hamilton Hollow area of the Johnson Township of Washington County, Missouri.

In 1856 Alexander 1st married Mary (**KIMBERLIN**) daughter of Rhinard & Frances Jane (**PETERS**) Kimberlin(g). Alexander and Mary had 8 children; (1) Mary Ellen (**PRATT**) married James Franklin Studdard; (2) Michael Pratt died young; (3) Stonewall Jackson Pratt married Mary Louise (**TAYLOR**); (4) Frances "Fannie" Minerva (**PRATT**) 1st married Jackman Whiteside, 2nd David McDonald Campbell; (5) Polina "Lina" (**PRATT**) married Thomas Livey Callahan; (6) Henry Winslow Pratt married Laura Mary Magdalene (**MISSEY**); (7) Rhinehart "Rinard" Pratt never married; (8) Minnie (**PRATT**) married George William Richter.

On 20 August 1885, Alexander Pratt married 2nd; Catherine Adaline (**DUGAN**) they had 2 children; (1) Carac Francis Pratt married Olivea Jane (**JARVIS**); (2) Cleveland Pratt died young. It appears according to family tradition, Catherine Adaline (**DUGAN**) Pratt died in childbirth in 1892.

Even though John McCormick's article was full of errors, written back in 1970, it gave me a roadmap to verify and validate the information I discovered about the Pratt family...thank you, John McCormick...good job, well done. And thank you Dad and Grandmother Rue. -Floyd Thomas Pratt 2009]

1994 Newspaper Article

Bourbon Beacon Newspaper, Thursday, February 24, 1994 page 12 (as it was written) **"The Henry Winslow Pratt Family"** by Submitted by Harry H. Missey & James King *Over a century ago Alex Pratt came from Pennsylvania and settle on Brazil Creek and Green's Branch. He married a Kimberlin. Their four children were Henry Winslow, Rynard, Carric, and Cleave.*
Henry Winslow Pratt married Laura M. Missey, daughter of Columbus and Cynthia (Talbot) Missey.

François Columbier Columbus "Lum" Missey and Descendants

They were parents of the following eight children:

Columbus was born on November 1, 1893 and died on July 27, 19___. He married Rue Johnson, daughter of James Millard and Mary Jane "Dosia" (Barton) Johnson of Bourbon on April 12, 1919. The family always lived in or near Bourbon. Their children were: Edith, who married Chester Skaggs; Carl who married Mary of St. Louis; Roy, who married Bernice Clark; Floyd, who married Dorothy Bebbini; James who moved to California; Nadine who died young.

Jess L. Pratt was born in 1895 and died in 1962 and was buried in the National Cemetery at Jefferson Barracks. He married Nadine Skaggs.

Virgil Pratt of Bourbon married Eula Richardson, daughter of Pete Richardson of Steelville. Children of Virgil and Eula (Richardson) Pratt were: Rosalee married Jim Mayberry, Thelma married Dave Roland, Mary married Calvin Ivy, Don married Wilma George; Eugene married Lucille ?; Virginia married Leonard Slabert.

Arthur Pratt was born on January 2, 1902 and died on May 7, 1961. He married (1) Hazel Belle Stall of Kansas City, and then (2) married Mrs. Beulah Cross of Detroit, MI. There were no children born to either union.

Mary died young and is buried at Harrison Cemetery.

Ruth was born on August 8, 1904 and died on September 26, 1961. She married Allan Graddy of Coffeyton, on October 23, 1919. All 14 of their children attended Forest Hill School. Their children were: Dorothy who married Ernest Wilaker; Mildred married Allie Hurst; Bill who married Parline Davis; Harold who married a Mick, first name not know; Hilda who married PEarl Phillips; Ed married Cathleen Reeves; Evelyn who married the A. Schmidt; Ben who married Evelyn Vayless; Don who married Faye Broy; Hazel married Ronnie Pennock; Dean married Pearl ?; Cecil married Rose Mary Madison; Betty married Leo Mayberry; and Ronnie who married Kathy McMillian.

Orville married Olive Mellow. Three children were born to this union. They lived in Kansas City. Their children were Orville, Jr., Kenneth, and Kathleen.

There was also a John Pratt family whose descendants spread into northern Crawford County. This family came from Tennessee, but if related to the Alex Pratt family, it is not known. John A. Blanton of Sullivan, married Sarah Pratt of this family. There were two other wives.

The 1850 census, always unsatisfactory, especially in giving initials instead of given names of members of families, lists a Pratt family in Crawford County at this date as follows: "I J Pratt, age 23, born in Ohio, and his wife, R. Pratt, age 20, born in North Carolina and their two sons: N C aged 3, and J M aged one, both were born here." (end of article)

Research Rebuttal

This is what happens when people take other people's information without research or collaboration. As you probably already have seen the similarities between the John McCormick book and the above information Harry wrote in this article. When Harry was alive in 1990's I visited him at his home in Leasburg and he gave me many newspaper articles about the people of Crawford County. I have those in my collection of family artifacts. He admitted he did not do any research and just collected other people's information for his weekly article in the Bourbon Beacon. This prompted my decision to submit articles to the Bourbon Beacon about families of Crawford County but the difference being, my material would be original with documented evidence. That's when I sent my articles to the Bourbon Beacon for about a year before they went out of business.

Concerning the article above, on the newspaper original that I have in the Henry Winslow

François Columbier Columbus "Lum" Missey and Descendants

Pratt family file, it is unknown to me where I got that article or who had written on it and made corrections. So, I did not write on it but maybe it was in Grandmother Rue's stuff that dad had given me. However, the following are the facts.

First of all Alexander Pratt married **Mary** Kimberlin, daughter of Rinhard (Rhinehart) Kimberlin(g) and Frances Jane (**PETERS**). Alex was from Tennessee not Pennsylvania. Looking at the 1860 census it looks like the censustaker wrote PENN for a birthplace for Alex but if you compare the T's you will see it acutally is TENN for Tennessee. Alex and Mary had 8 children. Alex married 2nd Miss Catherine Adlaine (**DUGAN**) and had sons; Carric & Cleveland Pratt.

Children of Alex and Mary (**KIMBERLIN**) Pratt: (1) Mary Ellen (**PRATT**) married James Franklin Studdard; (2) Michael Pratt died young; (3) Stonewall Jackson Newton Pratt married Mary "Mollie" Louise (**TAYLOR**); (4) Frances "Fannie" Manerva (**PRATT**) married 1st Jackman Whiteside, 2nd David McDonald Campbell; (5) Paulina "Lina" (**PRATT**) married Thomas Livey Callahan; (6) Henry Winslow "Win" married Laura Mary Magdalene (**MISSEY**); (7) Rhinehart "Rinard" Pratt never married; (8) Minnie (**PRATT**) married George William Richter.

Children of Alex and Catherine Adaline (**DUGAN**) Pratt: (1) Carac Francis Pratt married Olivea Jane (**JARVIS**); (2) Cleveland Pratt died young.

Children of Henry "Win" Winslow and Larua (**MISSEY**) Pratt all 8 of them:

[Henry & Laura children are listed as 1a, 2a, 3, etc.]

(1a) Columbus was born 1 November 1893 in Johnson Twp, Washington, Missouri and died 27 July 1947. He married Rue Flavilla (**JOHNSON**) daughter of Judge James Millard Sr. and Mary Jane Theodosia "Dosia" (**BARTON**) Johnson of Bourbon on 12 April 1919.

Children of Columbus & Rue (**JOHNSON**) Pratt all 6 of them: (1) Mary Edith (**PRATT**) married Chester Milford Skaggs; (2) Carl Benjamin married Mary Theresa (**BRESCIA**); (3) Roy Lee married 1st Mary Jane (**STEIDEL**), 2nd Gladys Louise (**EATON**), 3rd Bernice Irene (**STRAIN**); (4) Floyd Theodore married 1st Delores Virginia (**BROWN**), 2nd Dorothy (**BEDNAREK**); (5) James Henry married Evelin Juantia (**MILLER**); (6) Nadine Wilma Pearl (**PRATT**) died young.

(2a) Jesse Lee Pratt born 23 November 1894 and died 12 August 1962 married Nadine Mae (**SKAGGS**) no children.

Note: When you have amatuers giving information without documentation and proven research, mistakes like the above article are written. Harry states in the article that Winslow and Laura had the following 8 children and then he names only 7 of them leaving Albert Paris Pratt completely out of the article.

Remember, genealogy without documentation is mythology .-Floyd Thomas Pratt

(3a) Albert Paris Pratt born 28 June 1897 and died 11 August 1936. He married Mary (_____) Shepard. No children.

(4a) Virgil Ranson Pratt born 4 July 1899 and died 21 January 1971. He married Eula Viola

François Columbier Columbus "Lum" Missey and Descendants

(**RICHARDSON**) daughter of William Eli "Pete" and Jessie (COFFMAN) Richardson.

Children of Virgil and Eua (**RICHARDSON**) Pratt all 6 of them: (1) Rosalie Ruth (**PRATT**) married James "Jim" William Mayberry; (2) Thelma Dorothy (**PRATT**) married David Andrew Rowland; (3) Mary Jessie (**PRATT**) married Calvin Mason Ivie; (4) Curtis "Curt" Albert Pratt married Tommie (**MULLENS**); (5) Donald Virgil Pratt married Wilma Laverne (**GEORGE**); (6) Eugene "Gene" Lee Pratt married Joann (GARCIA); (7) Virginia "Ginnie" Gay (**PRATT**) married Leonard Edward Slankard.

(5a) Henry Arthur "Art" Pratt born 3 January 1902 and died 7 May 1961. He married 1st Hazel Belle (**COZIAH**) Darnell Schwartz Bellamy Vail Stall, 2nd Beulah Trassy (**COFFMAN**) Beauton Spoel Cross, no children.

(6a) Ruth Jane (**PRATT**) born 8 August 1904 died 26 September 1961 married Rufus Allen Graddy.

Children of Rufus & Ruth (**PRATT**) Graddy all 14 of them: (1) Dorothy Mae (**GRADDY**) married Ernest Otha Whitaker; (2) Mildred Opal (**GRADDY**) married Allie Hurst; (3) William Allen Graddy married Pearline (DAVIS); (4) Hilda Mary (**GRADDY**) married Murrel Clay Phillips; (5) Harold Lee Graddy married Mildred "Mickey" (**MARTIN**); (6) Edward James Graddy married Kathleen (REEVES); (7) Evelyn Laura (**GRADDY**) married Virgil Charles Schmitt; (8) Benjamin Lewis Graddy married Evelyn (**BAYLESS**); (9) Donald Earl Graddy married Faye (**BRAY**); (10) Cecil Arthur Graddy married 1st Rosemary Ann Hartl (**FOLEY**), 2nd Frances Marie (**MANUES**); (11) Hazel Bell (**GRADDY**) married Rolan Charles Pennock; (12) Laird Dean Graddy married Pearl (**LITAKER**); (13) Betty Jane (**GRADDY**) married Leo Mayberry; (14) Ronald Francis Graddy married Cathy (**McMILLIEN**).

(7a) Mary (**PRATT**) born 12 June 1907 and died 7 October 1918 never married, died young.

(8a) Orville Hayes Pratt born 17 December 1911 and died 11 June 1980 married 1st Mary Olive (**MALLOW**) they had 3 children; (1) Orville Willard Pratt married Patricia Janet (**BARNES**); (2) Kenneth Lee Pratt married Joan Marie (**BENOIST**); (3) Kathleen Mae (**PRATT**) married Gayle Starling; Orville's 2nd wife Marie Virginia (**PARSLEY**), no children.

Concerning the John Pratt family that Harry refers to, no connection can be found at this time. However, Harry's information was wrong again because the Sarah (**PRATT**) he mentions is not the daughter of John Pratt but the daughter of Henry & Nancy (**CARTER**) Pratt.

Sarah Ann (**PRATT**) born 31 October 1834 and died 7 December 1896 married John Anderson Blanton son of Joshua and Benthany (**HARMON**) Blanton. After Sarah Ann died, John Blanton married 2nd Emma J. (**TROUTT**), 3rd wife _____ (**SKAGGS**).

Harry speaks of another J. Pratt in the 1850 census but I have not been able to connect him to the above Pratts. All the above information is documented in my 35 years of research

Why did Alexander R. & Mary (KIMBERLIN) Pratt name one of their sons; Henry Winslow Pratt?

by Floyd Thomas Pratt F.H.C., M.A.G.I. 2009

The name Winslow is so unusual it is hard to determine where it came from. I can find no references or articles to famous people carrying that name circa 1860's or around the time of Henry Winslow Pratt's birth (1869). I can not find any family member in the Pratt, Carter, Blanton or Kimberlin lines that carried the Winslow name. However, there is a long shot I found through my research efforts, that may have a clue to the origin of the name.

David Jackson Staples married Mary Pratt (**WINSLOW**) in Boston, Massachusetts in 1848. This was the same year that gold had been discovered on the American River in California. David decided he had to go west to seek his fortune and with 25 men, including Mary's brother George Winslow from Newton, Massachusetts and her Uncle Jesse Winslow and others, formed the Boston-Newton Joint Stock Association.

In 1848 and with the intent of going to California to participate in the gold rush, David Staples kept a journal of the trip. Traveling by train and lake steamer they reached Ohio without incident. After reaching Cairo, Illinois by April 27th and heading north to Saint Louis (City) for provisions, the party was spurred on by a cholera epidemic in St. Louis and left for Independence, Missouri by paddleboat up the Missouri River.

On May 27th, Staples wrote of Indians, mule trouble, double-teaming the wagons through the wet prairie, a party"....returning haveing lost a husband father and friend of Cholera." Who this was and the party that returned is not mentioned. But, on June 8th, George Winslow died in Nebraska from cholera. David Staples and party continued on to California and in 1862, David was one of the founders of the Fireman's Fund Insurance Company, in San Francisco.

A Rose by any other name...

The following questions and assumptions are based on several coincidences from the David Jackson Staples story. These queries are meant to provoke contemplation and engage the reader into action, so someone, somewhere will desire to investigate and find some answers.

(1) Could the Mary Pratt (**WINSLOW**) from Newton, Massachusetts, that married David Staples have been a relative of Alexander or one of the other Pratts?

(2) Was Alexander Pratt familiar with the Boston Pratts?

(3) When the Staples party left St. Louis by paddleboat, they probably traveled the Missouri River.

(4) They may have stopped at Hannibal, Missouri for provisions. Hannibal is not far from our Pratts in Crawford County.

(5) Did the Staples-Winslow party stop and visit with the Pratts from Crawford County,

François Columbier Columbus "Lum" Missey and Descendants

Missouri?

(6) One thing is known...Alexander Pratt went to the California gold fields in 1848-1849. This story was passed down by Alexander to his son; Carac who told his son; Orville, who told me in the 1980's before he died about Alex making the trip to California.

(7) I have always speculated that if 17 year-old Alexander went west in 1848 to California for gold, he didn't go alone. I believe some of his brother's and maybe his father; Henry Pratt accompanied him.

(8) Let's take this one step further, could Henry & Alexander and his brothers have hooked up with the David Staples party when they were going through Missouri at about the same time?

(9) Could Henry Pratt, who we know was alive in 1842, could he have died on the trail out west? His wife, Nancy (**CARTER**) Pratt is a widow by the 8 October 1850 census date. After 35 years of researching, we still do not know where or when Henry Pratt died.

(10) David Staples' Journal says that "*a party of their group lost a husband father and friend due to the cholera epidemic and returned*". Could this have been Henry Pratt who died on the trail and his sons returned home to Crawford County, Missouri?

(11) Alexander is in the 1850 census of Crawford County, Missouri with his mother and brothers. Why didn't he continue his westward trek to the gold fields of California? What would force him to return prematurely? Maybe the death of their father?

(12) Did Alexander's association with the Staples and Winslow men on the trail create an impression on Alexander, that in 1869 he named one of his sons--Henry after his grandfather and Winslow after his good friend George Winslow of Newton, Massachusetts?

(13) Alexander's son; Stonewall Jackson Pratt after reaching adulthood, dropped the "Stonewall" and took the middle name of "Newton". All the while he was alive in Columbia, Missouri since his adult life he was known as Jackson "Jack" Newton Pratt. Where did he get the name of Newton...from Newton, Massachusetts?

(14) Henry Winslow Pratt named one of his sons, Jesse Lee Pratt in 1894. I can find no previous references to the name Jesse in the Pratt, Kimberlin, Missey families other than Carter family which I am sure they, meaning Henry Winslow Pratt, was not aware of...Jesse Carter Sr. his great-grandfather. The Pratts did not have any written record of their family history so I am sure Jesse Carter Sr. was unknown to them. I think Henry Winslow Pratt named Jesse Pratt after Jesse Winslow from Newton, Massachusetts, who accompanied his father, Alex and David Stapes westward to California.

(15) Once again Boston, Massachusetts pops up in my research. If the above hypothesis has any creditability, then maybe there was something to my great Aunt Eula's story about one of Jackson Pratt's boys stealing some Boston deeds from Laura (**MISSEY**) Pratt in the late 1920's or early 1930's. More on that story can be found in my article, "**Who Stole the Deeds?**" Should be noted that **many older** family members retold the stolen deed story to me, not just my great Eula Viola (**RICHARDSON**) Pratt.

I have a book titled "**Still Flying and Nailed to the Mast**", The First Hundred Years of the Fireman's Fund Insurance Company, by William Bronson, © 1963 by Doubleday & Company, Inc. Garden City, New York. This book gives an accounting of some of the journals of David Staples and the hardships they faced on their journey to California from Boston.

When my father was in the insurance business and owned his own agency, he contracted with Fireman's Fund Insurance Company as an agent (around 1969) and they gave him this book. He later gave me the book. Little did I know the mysteries I would find concerning the Staples, Winslow and Pratt families within its pages. I found it strange that the founder of the Fireman's Fund Insurance Company had married Mary Pratt (**WINSLOW**). I realize without more collaborating evidence, the above hypothesis is purely speculation. In any case there are some coincidences that can not be overlooked. -Floyd Thomas Pratt 2009

Further Research

The above article was written to invoke an interest in someone pursuing additional research into the David Staples story and his involvement in the Gold rush of 1848-1849. Through "new" research, maybe additional information may be found concerning the location of Mr. Staples' gold mining operations and a report on his successes or failures in pursuit of the elusive mineral. For instance, if he became wealthy from his mining venture, was his wealth the capital for financing the Fireman's Fund Insurance Company? Was there a record of the men who also lived at Mr. Staples's mining camp in California? Could any of our Pratts be on that list? Could any of our Pratts have filed a deed or become involved in property transactions? Checking with the archives of the Fireman's Fund Insurance Company based in San Francisco may hold some of these answers.

If there are any readers who want to pursue this research, I still have the book "**Still Flying and Nailed to the Mast**", The First Hundred Years of the Fireman's Fund Insurance Company, by William Bronson, © 1963 by Doubleday & Company, Inc. Garden City, New York. It is for sale.

As more and more information is discovered in dusty courthouses concerning our ancestors, new information will help rewrite their history. In any case, in the Crawford County area, Henry Winslow Pratt was known by his contemporaries as "Win" Pratt. -Floyd Thomas Pratt 2013

My Mission Statement

by Floyd Thomas Pratt F.H.C., M.A.G.I.

The above information has taken 35 years to track down, collect, acquire and accumulate. When I began my research into the Pratt family in 1975, to fulfill the requirements of my church, very little was known about the Pratts.

Some knew of Winslow Pratt, only one person I met within the Pratt circle of family members knew of Alex Pratt, but just his name, but none not even the Blanton researchers had the facts straight or had done any serious research.

The research process was hard and difficult. Information could be obtained from very limited sources. Libraries, courthouses, cemeteries and personal stories from those who had lived

François Columbier Columbus "Lum" Missey and Descendants

and made history. Many hours were spent in front of microfilm machines looking at page after page, rolls after rolls of microfilm hoping to find your ancestor. Cemetery after cemetery were visited when one could make time between raising a family and working to support that family.

In the process, I met many new friends and shared stories with people, like ships passing in the night, sharing what I knew and finding out what they knew. This research process has and always will be a collective effort.

The research process required me to drive hundreds if not thousands of miles and led me into dusty record rooms of old courthouses, hundreds of cemeteries, small libraires in little towns across the United States documenting and looking for my roots and origins.

I traveled in pursuit of the truth from coast to coast, we have been to Washington D.C. to the Library of Congress, the Library of the Daughters of the American Revolution and the National Archives to name a few places.

I have sat in the chairs of Senators of Congress and seen the great hall, have picked up from the dirt a hand made nail in Spotsylvania, Virginia from my wife's family ancestral homestead. Brought back a homemade brick from the same ancestral home.

Have copied countless numbers of documents from all over this country and spent a small fortune in pursuit of the great question...Who was I, why was I here and who were those who had blazed trails before me? And most important of all...Why wasn't I rich?

I was not only able to answer those questions, but much, much more.

I discovered our Cherokee heritage and felt the sadness and heartbreak of Henry, Nancy and children leaving our Tennessee homeland, forced by bayonet on the "Trail of Tears", suffering the loss of children and family members on the journey. Having to jump the "trail" in order to prevent confinement in another concentration camp in Indian Territory...now known as Oklahoma.

I have walked over the hills of Monroe County, Tennessee on land where my Pratts and Carters lived.

Feeling, the struggle of the Pratts as they marched in the cold, without means and food to march over 800 miles to a strange land where they did not want to go to. Because of their Cherokee heritage, they were denied the rights of other men, to vote, to own land and to prosper as white men prospered.

Hiding in the caves of Johnson Township, Washington County, Missouri, from the US Army so they would not be forced to go to Indian territory, the cave they hid in is now named Pratt Cave by the Missouri Army Corps of Engineers.

Henry and sons, building a log cabin on the bluff overlooking Pratt Spring, while white men like Absalom Blanton who married Henry's sister Cynthia, a Cherokee princess, was able to buy land and develop a mining operation and build a manison in what used to be called Blanton Hollow is now known as Hamiton Hollow.

François Columbier Columbus "Lum" Missey and Descendants

Living in fear of the government, Henry and family scratched a meek meager existence as did other natives in the region. Eventually, their sons and daughters had children who attended schools and became prosperous. Leaving a proud legacy for future generations.

I climbed the hills to see Blanton Cemetery and on the other hill, Hamilton Cemetery and found the unmarked graves of many of my ancestors. Many indentations of a burial site with a rock or a mason glass jar as a headstone, with artifacts inside, as was Cherokee custom.

So, remember my reader, while you bask in your proud heritage of your pioneer ancestors, remember...they walked over the bones of my native ancestors to get where they were going. Since my Pratts are only one line, I am a man in conflict, because the rest of my ancestors were those European pioneers.

Has my life been enriched because of my genealogy research? Indeed. Do I have any regrets, none, just wish I had more time on this earth to continue more research and find the answers to some intriguing questions. But, I leave that to you, the next generations, to find the answers...or not.

I and many like me have given you a road map to follow and pointed you in the right direction to find your family. To answer your questions for instance, "Who do you think you are?" I have found my answers and I challenge the next generation to magnify what you have been given and leave a true legacy for your children and grandchildren. Floyd Thomas Pratt

Research Note

This is a prime example of ancestors celebrating their birthday on the wrong day, month or year. It happens so often it's not even funny. Due to the lack of availability to the participants and the reluctance of the government to release records, any one of us is at the mercy of the recorded document or heresy about our birth. Not only was Lum's month wrong, but also Rue's birth month was also wrong. At this state, it doesn't really matter because what is important is to identify the individual for ancestral verification.-Floyd Thomas Pratt

AKA

My father, Floyd Theodore Pratt told me his Dad's full name was Columbus Benjamin Alexander Pratt. Nickname "Lum". Columbus "Lum" Benjamin Alexander Pratt's name is a collection of names from ancestors. When "Win" and Laura were naming their children they liked to use ancestor's names. Since Grandpa Lum died before I was born, I guess he was named for the following reasons. Columbus after Laura's father; Francois Columbier Missé or better known as Columbus Frank Missey. This is where the "Lum" comes from. Benjamin I am at a mystery as to who this name belongs to. There were no Benjamins on the Pratt family side and on the Missey side there was Laura's brother; John Benjamin Missey. Maybe that's where they picked up the name Benjamin. Alexander is from "Win's" father's name; Alexander R. Pratt. So I am guessing but this seems a logical explanation.-Floyd Thomas Pratt (FTP)

Comment

I don't have any personal stories or testimony about my Grandfather Columbus Pratt because he died before any of his 14 grandchildren were born. Being the oldest grandchild, he died the year before I was born. (1947) However, I did ask questions about him from the people who knew him and gathered a great deal of information concerning his life of which I have shared in this profile.

Research Note

At the end of major events in Columbus Pratt's life you will see...years, months and days. These figures are based on 1 December 1893 being Columbus' actual birth date and all these events have been calculated by the program, "Personal Historian" <http://www.rootsmagic.com/personal-historian/> by Root Magic. Therefore, these years, months and days reflect the age that Columbus was at the time of these events.

Birth Location of Columbus "Lum" Benjamin Alexander Pratt

Concerning his place of birth, my grandmother, Rue (**JOHNSON**) Pratt told me Lum was born in Catawissa, Calvey Twp, Franklin, Missouri. However, this is contrary to the location of his parent's residence, which was at Hamilton Hollow, Johnson Twp, Washington, Missouri, United States. Since the 1890 census was destroyed by fire, we do not have the location of his parent's exact residence. The 1880 census states his father; Henry Winslow Pratt was living in Johnson Twp, Washington County, Missouri and also the 1900 census states his father lived in Johnson Twp, Washington County, Missouri since both censuses are in Johnson Twp, Washington County, Missouri then I would conclude that he was born near Hamilton Hollow in Johnson Twp, Washington, Missouri not Catawissa, Calvey Twp, Franklin, Missouri. Also, on his brother's, Jesse Lee Pratt's death certificate, it states that Jess was born near Sullivan, Missouri. Since Sullivan is the closest town to Hamilton Hollow then this also supports my assumption that Columbus was born in Hamilton Hollow. Without stronger evidence supporting the Catawissa birthplace, I believe that Columbus Benjamin Alexander Pratt was born at Hamilton Hollow, Johnson Twp, Washington, Missouri, United States. Therefore, until new proof can be found to support the Catawissa birthplace, henceforth based on the above evidence I stand by my presumptive conclusions.-Floyd Thomas Pratt 2009

Research Note

Embedded in this enhanced Cradle to Grave Profile for Columbus Benjamin Alexander Pratt are yearly world events that took place through his youth, teen years and as an adult. These events are comprised in nature as political, medical, birth, death, military, marriages, wars, inventions, movies, songs and other events that could have or would have had an effect on Columbus Pratt's life. Be mindful that the Pratts did not own a radio, which was the primary means of obtaining worldly events and information from the outside world. They lived in the hills south of Sullivan in Hamilton Hollow, Johnson Township, Washington County, Missouri.

Word of mouth and newspapers were the only means of learning what was taking place outside his community. It wasn't until after his marriage (1919) to the wealthy Judge James Millard Johnson's daughter; Rue that Columbus was able to move in with her newly married father at the old Johnson house at Walnut Street and Blue Springs Road in Bourbon that the family had access to a radio. So, many of these inventions, songs and wordly events went unnoticed by most of the citizens in rural America.

If you google the name of the song, movie or topic, you can read additional information and on www.youtube.com you can hear the old songs when they were popular. FTP

Research Note

Bourbon, Missouri plays an important role in the lives of my ancestors and I feel it would be apropos to tell something about the town's origins.

Virtually Bourbon

<http://www.bourbonmo.com/history.htm>

Bourbon, Missouri had its beginnings in the early 1800's. Bourbon is believed to be the only town in the United States named for Bourbon whiskey. The beginnings of the city coincide with the construction of the railroad (first called the Pacific and later the Frisco).

The southern branch of the railroad was completed to Rolla in 1860. The construction of the railroad brought settlers to the area, encouraged by the availability of inexpensive land from the railroad, which was granted every other section along the right of way. Settlers also came into the country to homestead land and to settle on land granted to veterans of the War of 1812.

A road from St. Louis to Springfield was already in use, roughly following the divide between the Missouri River and the Meramec. The new railroad closely followed the route of the Old Springfield or "Wire" Road.

At that time there were several farmers living in the Bourbon area. A town was proposed one and one-half miles east of the present town. Streets were laid out and lots marked off, at least on paper, and the village was to be named St. Cloud. Richard Turner set up a general store on his property just west of the proposed village to serve the needs of both settlers and railroad workers who moved along with the building of the line. Camps were set up along the right of way and the workers stayed in some places several months, as was the case here where a 50 ft. fill was constructed at Boone Creek. Most of the workers were Irish Immigrants who built the railroad with picks and shovels and their own strong backs.

The Irishmen (and some of the settlers, too) were used to drinking whiskey, so Turner soon imported barrels of the new brand, Bourbon, which was becoming popular all over the New West. A large barrel labeled "Bourbon" sat on the porch of his store.

The barrel of whiskey was hauled to the construction project, and the Irishmen could go to "Bourbon" whenever they wanted a drink. Turner's store came to be called the "Bourbon" store, and the railroad workers soon called the entire area Bourbon.

When a post office was established in September 1853, the name was given as "Bourbon in the village of St. Cloud ". The town was never located at the proposed village, but was built further west where the steam engines could stop and start where there was no grade. The town of Bourbon sprang up along the railroad tracks and the Old Springfield Road, where it is located today.

François Columbier Columbus "Lum" Missey and Descendants

Bourbon has never aspired to be a big city, with a cold, business-like attitude. Instead, Bourbon's businessmen and civic leaders strive to keep the friendly, neighborly manner that has long been an Ozark tradition. Bourbon people are just plain folks, who like to make friends and make you feel at home. [End]

Comment

I remember how my Christian-minded Grandmother; Rue Flavilla (**JOHNSON**) Pratt who had attended the churches in Bourbon since she was a little girl, felt it was disgraceful that the town she was born and grew up in was named after a decadent sinful drink called Bourbon whiskey. She set the bar high for her family and friends including this grandson concerning good strong moral character, which sadly we always did not emulate. I remember one time when my parents had gone out for the evening, Grandmother Rue was babysitting us three boys at our home in Bridgeton, Missouri in the early 1960's. She found in dad's kitchen pantry, bottles and bottles of alcohol and knowing this was not proper and unhealthy for her son and his family poured all the contents of those very expensive bottles down the kitchen drain. I watched her pour them down the drain and as I remember there were 6-8 bottles of all kinds of alcohol. I don't remember how the conversation went when my dad and mom got home from their evening's entertainment, but I imagine dad probably didn't say anything about the incident because he knew his mother; Rue was right. But, when she left for her home in Bourbon, I also, imagine those bottles were replaced...too bad lessons weren't learned. I don't want to give the impression that my parents drank a great deal of alcohol, which they didn't, but my father was a professional businessman and entertained guests in his home and had a variety of alcohol for his guests. Dad's choice of drink was beer, which he only drank when he played cards with my uncles. Floyd Thomas Pratt 2013

Song: "Meet Me In St. Louie, Louie" The words were by Andrew B. Sterling; the music, by Kerry Mills

"Meet Me in St. Louis, Louis", better known as just *Meet Me in St. Louis*, was a popular song from 1904 which celebrated the Louisiana Purchase Exposition, i.e., the St. Louis World's Fair. The song was published in 1904 in New York by Mills's firm operating under the name F. A. Mills. It was recorded by many artists such as William F. Denny and Billy Murray. The song and the fair were focal points of the Judy Garland, *Meet Me in St. Louis*. Garland recorded the song in 1944. "Louis" in the song is pronounced "LOO-ee", akin to the French. The song is one of the few instances of pronouncing the city's name that way. It is normally pronounced "LOO-is". The song, which is generally styled in the form of a limerick, has many and

François Columbiere Columbus "Lum" Missey and Descendants

varied verses, few of which are remembered today - unlike the chorus. In the original sheet music, the chorus is the same for the first two verses but varies in verses three through six, which are essentially jokes with the punch line in the chorus.

Song: "Frankie And Johnny" by Hughie Cannon

It has been suggested that the song was inspired, or its details influenced, by one or more actual murders. One of these took place in St. Louis, Missouri, on October 15, 1899, when Frankie Baker, a 22-year-old dancer, stabbed (or shot) her 17-year-old lover Allen "Al" Britt, who was having a relationship with a woman named Alice Pryor. Britt died of his wounds two days later. On trial, Baker claimed that Britt had attacked her with a knife and that she acted in self-defense; she was acquitted and died in a Portland, Oregon mental institution in 1952.

The song has also been linked to Frances Silver, convicted in 1832 of murdering her husband Charles Silver in Burke County, North Carolina. Unlike Frankie Baker, Silver was executed.

1907-1914 Family Story told in the 1970's

During a family reunion in Bourbon, Missouri, sometime during the late 1970's before her death in 1978, Ethel Delora (**MISSEY**) Isgriggs told me a story about Henry Winslow Pratt and his son; Columbus Benjamin Alexander Pratt having an argument over who was going to cut the firewood.

Ethel Delora (**MISSEY**) Stroup Hamlin Isgriggs is the daughter of Ambrose James and Parry Jane (**RICHARDSON**) Missey. She was a good family friend of my Great Aunt Eula Viola (**RICHARDSON**) Pratt, who also collaborated this story.

The story goes that "Winslow" told his son "Lum" to cut some firewood. Lum refused and Win told him he would have whip him if he didn't obey. Lum still refused and Win and Lum started to fistfight and brawl on the ground until Winslow was victorious and Lum succumbed and cut the firewood.

If this story is true, which I have no reason to doubt these ladies, this would have had to take place before Winslow's death in 1914. Lum would have been around 14 to 20 years old (1907-1914) and Winslow would have been in his 40's!

Columbus was way to old for fighting with his father and Winslow was way to old for trying to prove he was still the top dog in his house.

Ethel also said the Pratt's were hard cases and rough people. Not only were they financially poor and lacking higher educations, but this hard case characteristic in their personality was a carryover from their Cherokee heritage.

Harboring a "Trail of Tears" survival mentality where life was rough and survival was the order of the day, hard times required hard men and the Pratt's and their counterparts; the Blanton's took second seat to no one.

My father often told me that you did not want to challenge or cross Lum Pratt because he was a tough character and a no nonsense type of guy. Whatever he said, you did with no backtalk or discussion...that is if you didn't want to pick your teeth up off the ground.

This type of rough love behavior had its positive influences and negative influences. The positive effect was that the Pratts were taught to stand on their own two feet and take charge and be responsible and accountable for their actions. This led to independence and strength with a get-it-done attitude. The negative result was a lack of or the ability to offer unconditional love or to express their affections to family and friends.

Dad says the only time his father (Lum) embraced him and gave him a hug was when Dad came back from WWII in 1947...my father was 20 years old at that time.

I am convinced without the saving graces of our dear wives teaching us to even the

François Columbier Columbus "Lum" Missey and Descendants

scales of justice...with love, we Pratts would not have the potential to be the loving husbands and fathers that we strive to be today.

Hopefully, when dealing with friends and especially family, none of us in this period of education and enlightenment will carry over the negative caveman characteristics exhibited by our forefathers. Floyd Thomas Pratt 2009

Song: "The Caissons Go Rolling Along"

http://en.wikipedia.org/wiki/The_Army_Goes_Rolling_Along

<http://www.youtube.com/watch?v=yJybwgtR970>

The Caisson Song

The song is based on the "Caisson Song" written by field artillery (later Brigadier General) Edmund L. Gruber, Lieutenant William Bryden, and Lieutenant (later Major General) Robert Danford while stationed at Fort Stotsenburg in the Philippines in March 1908. The tune quickly became popular in field artillery units. In 1917 the Secretary of the Navy and Army Lieutenant George Friedlander of the 306th Field Artillery asked John Philip Sousa to create a march using the "Caisson Song." Sousa changed the key, harmony, and rhythm and renamed it "U.S. Field Artillery." The recording sold 750,000 copies. Sousa didn't know who had written the song and had been told that it dated back to the Civil War. Although an Army magazine claims that Sousa passed on his royalties to Gruber other sources state that Gruber became involved in a prolonged legal battle to recover the rights to music he had written and that had been lifted (unknowingly or not) by Sousa and widely sold by sheet music publishers who reaped profits while Gruber received nothing. The music became so popular that it was also used in radio ads by firms such as the Hoover Vacuum Company. Gruber lost his battle in the courts. They ruled that he had waited too long to complain and that his music was by that time in the public domain. "The Caisson Song" was never designated as the official U.S. Army song likely because the lyrics were too closely identified with the field artillery and not the entire army. The official song retains Gruber's music, but with re-written lyrics.

Song: "Take Me Out To The Ballgame" The words were written in 1908 by vaudevilles star Jack Norworth, who while riding a subway train, was inspired by a sign that said "Baseball Today - Polo Grounds". In the song, Katie's (and later Nelly's) beau calls to ask her out to see a show. She accepts the date, but only if her date will take her out to the ballgame. The words were set to music by Albert Von Tilzer, (Norworth and Von Tilzer finally saw their first Major League Baseball games 32 and 20 years later, respectively). The song was first sung by Norworth's then-wife Nora Bayes and popularized by many other vaudeville acts. It was played at a ballpark for the first known time in 1934, at a high-school game in Los Angeles, and researchers think it made its debut at a major-league park later that year.

Song: "Casey Jones" <http://www.contemplator.com/america/casyjones.html>

There are several songs about Casey Jones, the famous railway man of the Illinois Central. The songs are based on the train wreck of April 1900 at Vaughan, Mississippi. Jones was a well-known and respected driver. He was driving No. 382, possibly for a sick friend. The switching station at Vaughan did not have enough room to accommodate the length of trains there. Flagmen were sent to warn Jones, but for unknown reasons, he was unaware of the problem until it was too late. Jones was killed in the accident. He left a wife and three children. Wallace Saunders, Casey's African-American engine wiper, wrote the first Casey Jones ballad. It was sung to the tune *Jimmy Jones*, which was popular at the time. Engineer William Leighton heard the song. His brothers Frank and Bert, vaudeville performers, polished the song, added a chorus, and began to perform it in their act. When the ballad was published in 1902 the words were credited to T. Lawrence Seibert, and Eddie Newton was credited with the music.

He is medium height, medium build, blue eyes, black hair, not bald and has all extremities. Date of Draft Registration was 5 June 1917 at Precinct #9 at Jefferson County, Missouri.]

[2] Listed on his footstone at his gravesite states, "Columbus B. Pratt was a Horse Shoer in WWI. 46 INF 9 DIV". I attempted to obtain his war record from the War Records Division on Page Avenue, Saint Louis (county), Missouri however, the records were destroyed in a fire on July 12, 1973 and I haven't tried since November 11, 1977.

[3] Lum's obituary states he enlisted in World War 1 on 27 July 1917 and served until 10 February 1919.

Research Note

If you notice, Columbus and his brother Albert Paris Pratt (according to Albert's military record) were living at Rt#1, Catawissa, Missouri on 5 June 1917. This could have been where everyone became confused as to the birth location of Columbus and his siblings. Since we know he was born in Hamilton Hollow in Johnson Township, Washington County, Missouri where he lived until after the 1900 census and then moved to Crows Creek, Boone Township, Crawford County, Missouri by the 1910 census date and after his father died in 1914, his mother Laura Pratt moved to Bourbon, Boone Township, Crawford County to be near her father; Columbus Missey. Columbus Missey died in 1916 in Bourbon, and it looks like Laura Pratt and family moved outside of Catawissa, Calvey Township, Franklin

Without the military records for Columbus Pratt, we really don't know where he served or what foreign countries if any, he visited or when he actually served.

Research Note

Columbus arrived home from World War I in February 1919 and he would patronize the Mercantile store in Bourbon owned by Judge James Millard Johnson. Lum took notice of one of the Judge's daughters that worked in the store, 25-year-old; Rue Flavilla (**JOHNSON**). Rue was a mature beauty schooled in the musical arts as well as educated in the best schools that Bourbon had to offer. Not only could she play piano and organ but also was the only person that could sign language with the deaf people of the community. Educated in business by her father and educated in domestic homemaking by her mother, Mary Jane Theodosia "Dosia" (**BARTON**) Johnson an educated and refined woman herself, Rue learned all the skills of homemaking including cooking and sewing, and possessed a keen sharp mind with a witty sense of humor. Assuming the responsibilities of running her father's mercantile store, while he took care of affairs at the bank, where he was a partner, afforded Rue the opportunity to sharpen her skills as an entrepreneur. To worldly Columbus Pratt, Rue must have been a breath of fresh air compared to the horrors he had witnessed during his war years. What a delicate lovely flower of womanhood blooming in the aftermath of the terrible horrors of war. Such a refined, educated and resourceful example of someone he would want to educate and help him raise children. On the other side of the coin, as the boys began to return from the war, victorious war heroes, dressed in their sharp military uniforms, carrying themselves with confidence and projecting a sense of pride and discipline, they must have appeared very attractive to the eligible women in the community. Rue, thought so and after a short courtship, Columbus and Rue were married at the Bourbon Methodist Church and moved in with her widowed father and newly bride in the old Johnson house at Walnut Street and Blue Springs Road in Bourbon. Research Note

On the horizon loomed a great and terrible event that would change the lives and fortunes of millions of people around the world. The following is an account leading up to that terrible event. I have enclosed it here to prepare you for the change of fortune the Pratts and millions of others had to endure. FTP

Overview of the Stock Market Crash of 1929:

<http://history1900s.about.com/od/1920s/a/stockcrash1929.htm>

The end of World War I heralded a new era in the United States. It was an era of enthusiasm, confidence, and optimism. A time when inventions such as the airplane and radio made anything seems possible. A time when 19th century morals were set aside and flappers became the model of the new woman. A time when Prohibition renewed confidence in the productivity of the common man. It is in such times of optimism that people take their savings out from under their mattresses and out of banks and invest it. In the 1920s, many invested in the stock market.

The Stock Market Boom

Although the stock market has the reputation of being a risky investment, it did not appear that way in the 1920s. With the mood of the country exuberant, the stock market seemed an infallible investment in the future.

As more people invested in the stock market, stock prices began to rise. This was first noticeable in 1925. Stock prices then bobbed up and down throughout 1925 and 1926, followed by a strong upward trend in 1927. The strong bull market (when prices are rising in the stock market) enticed even more people to invest. And by 1928, a stock market boom had begun.

The stock market boom changed the way investors viewed the stock market. No longer was the stock market for long-term investment. Rather, in 1928, the stock market had become a place where everyday people truly believed that they could

become rich. Interest in the stock market reached a fevered pitch. Stocks had become the talk of every town. Discussions about stocks could be heard everywhere, from parties to barber shops. As newspapers reported stories of ordinary people - like chauffeurs, maids, and teachers - making millions off the stock market, the fervor to buy stocks grew exponentially.

Although an increasing number of people wanted to buy stocks, not everyone had the money to do so.

Buying on Margin

When someone did not have the money to pay the full price of stocks, they could buy stocks "on margin."

Buying stocks on margin means that the buyer would put down some of his own money, but the rest he would borrow from a broker. In the 1920s, the buyer only had to put down 10 to 20 percent of his own money and thus borrowed 80 to 90 percent of the cost of the stock.

Buying on margin could be very risky. If the price of stock fell lower than the loan amount, the broker would likely issue a "margin call," which means that the buyer must come up with the cash to pay back his loan immediately.

In the 1920s, many speculators (people who hoped to make a lot of money on the stock market) bought stocks on margin. Confident in what seemed a never-ending rise in prices, many of these speculators neglected to seriously consider the risk they were taking.

Signs of Trouble

By early 1929, people across the United States were scrambling to get into the stock market. The profits seemed so assured that even many companies placed money in the stock market. And even more problematically, some banks placed customers' money in the stock market (without their knowledge). With the stock market prices upward bound, everything seemed wonderful. When the great crash hit in October, these people were taken by surprise. However, there had been warning signs.

On March 25, 1929, the stock market suffered a mini-crash. It was a prelude of what was to come. As prices began to drop, panic struck across the country as margin calls were issued. When banker Charles Mitchell made an announcement that his bank would keep lending, his reassurance stopped the panic. Although Mitchell and others tried the tactic of reassurance again in October, it did not stop the big crash.

By the spring of 1929, there were additional signs that the economy might be headed for a serious setback. Steel production went down; house construction slowed; and car sales waned.

At this time, there were also a few reputable people warning of an impending, major crash; however, as month after month went by without one, those that advised caution were labeled pessimists and ignored.

Summer Boom

Both the mini-crash and the naysayers were nearly forgotten when the market surged ahead during the summer of 1929. From June through August, stock market prices reached their highest levels to date. To many, the continual increase of stocks seemed inevitable. When economist Irving Fisher stated, "Stock prices have reached what looks like a permanently high plateau," he was stating what many speculators wanted to believe.

On September 3, 1929, the stock market reached its peak with the Dow Jones Industrial Average closing at 381.17. Two days later, the market started dropping. At first, there was no massive drop. Stock prices fluctuated throughout September and into October until the massive drop on Black Thursday.

Black Thursday - October 24, 1929

On the morning of Thursday, October 24, 1929, stock prices plummeted. Vast numbers of people were selling their stocks. Margin calls were sent out. People across the country watched the ticker as the numbers it spit out spelled their doom. The ticker was so overwhelmed that it quickly fell behind. A crowd gathered outside of the New York Stock Exchange on Wall Street, stunned at the downturn. Rumors circulated of people committing suicide.

To the great relief of many, the panic subsided in the afternoon. When a group of bankers pooled their money and invested a large sum back into the stock market, their willingness to invest their own money in the stock market convinced others to stop selling.

The morning had been shocking, but the recovery was amazing. By the end of the day, many people were again buying stocks at what they thought were bargain prices.

On "Black Thursday," 12.9 million shares were sold - double the previous record. Four days later, the stock market fell again.

1929 The "Great Depression" began on Black Tuesday when the New York Stock Exchange crashed to an all-time low Tuesday, 29 October 1929 age 35 years, 10 months, 28 days

The Stock Market Crash

<http://history1900s.about.com/od/1930s/p/greatdepression.htm>

After nearly a decade of optimism and prosperity, the United States was thrown into despair on Black Tuesday, October 29, 1929, the day the stock market crashed and the official beginning of the Great Depression. As stock prices plummeted with no hope of recovery, panic struck. Masses and masses of people tried to sell their stock, but no one was buying. The stock market, which had appeared to be the surest way to become rich, quickly became the path to bankruptcy.

And yet, the Stock Market Crash was just the beginning. Since many banks had also invested large portions of their clients' savings in the stock market, these banks

François Columbier Columbus "Lum" Missey and Descendants

were forced to close when the stock market crashed. Seeing a few banks close caused another panic across the country. Afraid they would lose their own savings, people rushed to banks that were still open to withdraw their money. This massive withdrawal of cash caused additional banks to close.

Since there was no way for a bank's clients to recover any of their savings once the bank had closed, those who didn't reach the bank in time also became bankrupt.

Businesses and industry were also affected. Having lost much of their own capital in either the Stock Market Crash or the bank closures, many businesses started cutting back their workers' hours or wages. In turn, consumers began to curb their spending, refraining from purchasing such things as luxury goods. This lack of consumer spending caused additional businesses to cut back wages or, more drastically, to lay off some of their workers.

Some businesses couldn't stay open even with these cuts and soon closed their doors, leaving all their workers unemployed.

After the war, Columbus farmed the land around the house on Walnut Street and Blue Springs Road in Bourbon. They had a very large garden with fruit trees. Columbus had been taught by his father; Winslow the art of cutting railroad ties, staves and mining supports from the local forests. However, as Columbus progressed in age, his strength and stamina could not support such grueling daily labor. Although he incorporated his sons in such labor, the work was hard and tedious and several voiced concerns that there had to be a better way to earn a living. Columbus agreed and sometime during the 1920's or 1930's, became interested in stonemasonry.

Bourbon was home to a renowned master stonemason named Leopold "Leo" Friesenhan. Mr. Friesenhan had earned a great reputation from his skills as a stonemason he honed in St. Louis. Mr. Friesenhan had built many barns, restaurants, houses, walls and even a multi-complex motel in Cuba called the Wagon Wheel Motel, Cafe and Station.

Somehow, Columbus came to the attention of Mr. Friesenhan and a friendship evolved. Seeking help and guidance from Mr. Friesenhan, Columbus was fortunate to be taken under Mr. Friesenhan's wing and taught the skills of this art. After his apprenticeship, Columbus began to hone his skills as a stonemason. He built retaining walls, barns, chimneys, store sheds, smoke houses and homes all types of structures that are still standing today as a credit to his skill and craftsmanship. Dad took me to several of these locations and I saw these monuments to Lum's craftsmanship myself. As Columbus' health declined, he began to support his family by driving trucks for various companies in and around the Bourbon community.

On the other hand, Rue had been trained by her mother; Dosia in the art of food storage and preservation. She would can dozens of jars of fruits and vegetables, when in season, for the winter and off-season months.

François Columbier Columbus "Lum" Missey and Descendants

Hunting wild game was a big contribution to the Pratt dinner table. My dad recalled, being sent out with one 22-caliber bullet to shoot a squirrel for supper. Money was tight and one bullet is all you got and you better not miss! After the boys would clean the game, Rue would cook and prepare a meal fit for a king. She was truly a lifesaver for her family.

Since, Columbus was an entrepreneur, the great crash of the stock market did not affect his family as deeply as others. They had been living off the land and continued even to the point of helping other families in need. However, not so many were that fortunate, including his father-in-law; Judge James Millard Johnson who had tied up his money in several business ventures, *i.e.*, mercantile store, bank and various other investments. When the stock market crashed, Judge Johnson lost all his fortune and investments. This happened over a period of time but eventually he never recovered from the financial loss. FTP

Research Note

Due to a lack of cash flow, most Americans found they could no longer find work or an income in the regions in which they lived. Word would circulate about job openings and hiring's across the nation and thousands if not millions of workers decided in order to make any amount of money they needed to relocate to those areas that offered a job.

The only method that afforded them a ready-made transportation system across this nation was the railroads. Consequently, during the depression years 1930-1940, hobos, tramps and vagabonds as they became known, would jump the trains illegally and ride across America from one locale to another in pursuit of employment...to the chagrin of the railroad companies. These free loading passengers were a loss of income to the railroad companies and they took extreme measures to keep these non-paying passengers off the trains. Even to the point of hiring brutal, cruel and vicious men called "bulls" to physically remove these men even if it meant inflicting injury or loss of life.

All along the railroad tracks, hoboes would set up "shanty towns" where a group of them would live in makeshift shacks made of wood, cardboard, steel remnants or any other material that afforded them protection from the harsh weather. When a train would pull out of the railroad station, these hoboes would run along the tracks and grab the train as it gained speed hopping onto the boxcars, hoping not to get caught by the "bulls".

Most of these unfortunate survivors of a collapsed marketing system, would go door to door in these small towns asking for a handout of food, clothing or medical treatment in exchange for acts of menial labor. They would offer to cut firewood or fix and repair items that the homeowner needed repairing. This exchange of labor for food was beneficial for both parties, since many homeowners were widows and single woman who could not afford to pay someone to have those repairs made, but could provide a meal or some clothing in exchange for the labor.

Over time, these hobos and rail riders developed a system to alert other rail riders that the homeowner at a particular home was willing to help and they could be trusted to provide assistance to the less fortunate. This system was a form of

François Columbier Columbus "Lum" Missey and Descendants

communication comprised of a physical sign marking a tree, gate or fence or any another item located at the entrance to the homeowner's property. These "markings" alerted fellow travelers that they could count on the homeowner of this property to help.

Lum and Rue were people of this caliber, offering help to the hoboes when asked. Dad says he remembered hoboes stopping by and eating at his house or making repairs to the property many times. He said his mother never turned down anyone asking for help. Even with the meager provisions that Lum and Rue had for their family, they always found food to share with others. I consider those markings on the gate or fence a badge of honor and It is because of millions off people like my grandparents, exhibiting Christian charity to those less fortunate that has kept this world from wasting away. Research Note

Should be noted as American families gathered together after dinner around their Philco and Admiral tube radios to listen to their favorite radio shows...not many could afford the money to go to the movie theatres. The movie theatres were in town and it took a long time to get to town especially by horse or wagon. Also, to earn a nickel or a dime was difficult and took many hours of hard labor to achieve those admission fees. My dad said that he wanted to buy an old used bicycle and he had to milk a neighbor's cow everyday in the morning and the evening for several weeks to earn the \$1.50 to buy his bicycle.

The Electric Cooperatives in rural America began a big push to get rural families "hooked" on electricity even going so far as to install the lines and provide free electricity to the community. The strategy was to get the customers accustomed to the service and dependant to the point they would eventually sign up as paying customers.

François Columbier Columbus "Lum" Missey and Descendants

As rural families and farms started to acquire electric service, radios were one of the first items every household had to have. After a hard day in the fields, parents and school aged children, after their chores were done, with supper out of the way, wasted no time gathering in the living room or parlor to settle down to an evening of westerns, mysteries, crime and suspense and a variety of musical programs playing the latest "hit" songs as well as comedy shows with some of the top entertainers to entertain America on a daily basis.

The children had their favorite shows, the wife or mother had her favorite shows and the father had his favorite shows. Each weeknight like clockwork, their shows would come on at a specific day and time and some of the shows, carried a continuing adventure from one week to another called "serials".

These serials usually put the hero of the story in jeopardy. For instance, "our hero" would be caught in a wagon rolling over a cliff, the music would be ominous followed by an announcement "continued next week" followed by the conclusion the following night or week.

This strategy of keeping the audience loyal to the show was especially successful to the advertisers whose product sales increased each week due to a growing addicted audience. This "cliffhanger" tactic had been very successful even when it transcended into the television arena capturing and retaining repeat audiences for advertiser money. Some of these shows were presented on a daily basis and others carried over on a weekly basis.

Besides the entertainment value, the evening news was important because it was through the radio that current and up-to-date events were reported keeping the families of America informed about local, regional, national and worldly news events.

Also, sport programs were very important to the loyal fans of the area. My Dad told me that his grandpa; Judge James Millard Johnson would sit in his rocker in the living room at the Johnson House in Bourbon and listen to the Cardinals baseball game on the radio. Dad said Grandpa Johnson would slowly rock back and forth as he listened to the game and when someone got a hit the announcer would get excited and Grandpa would get excited and rock faster and faster and then when the announcer calmed down then Grandpa Johnson would slow down and resume his steady rocking.

Those who lived in the larger cities or lived close to town would seek out the movie theatres often usually prompted by Saturday matinee promotions given by the studio and theatre management. Not only could you see a first run movie, but also there were usually a cartoon followed by a "short" film followed by the main matinee.

The "short" was usually a serial type of story that dealt with an adventure, western, crime or suspense story designed to capture the imagination of the viewing audience. Examples would be Rin Tin Tin, The Lone Ranger, Rocket Man and Buck Rogers to name a few. Each of these "short" mini-movies were designed to excite and stimulate the audiences, which led to increased popcorn, soda or pop, and

François Columbier Columbus "Lum" Missey and Descendants

candy sales at the concession stand. Sometimes the matinee movie would be a double feature, which I attended in the 1950's for 50¢. I especially enjoyed the creature feature movies of the 1950's era.

Regardless of your interest in the radio, it was the focal point of the home as well as the local business establishments. Men would patronize barbershops, mercantile stores, pool halls, taverns and social clubs always popular for gathering and discussing the daily news and sporting events with contemporaries. FTP

1938 Radio Broadcast War of the Worlds Sunday, 30 October 1938 age 44 years, 10 months, 29 days

[http://en.wikipedia.org/wiki/The_War_of_the_Worlds_\(radio_drama\)](http://en.wikipedia.org/wiki/The_War_of_the_Worlds_(radio_drama))

***The War of the Worlds** is an episode of the American radio drama anthology series The Mercury Theatre on the Air. It was performed as a Halloween episode of*

François Columbier Columbus "Lum" Missey and Descendants

*the series on October 30, 1938, and aired over the Columbia Broadcasting System radio network. Directed and narrated by actor and future filmmaker Orson Welles, the episode was an adaptation of H. G. Wells's novel *The War of the Worlds* (1898).*

The first two thirds of the 60-minute broadcast were presented as a series of simulated news bulletins, which suggested to many listeners that an actual alien invasion by Martians was currently in progress. Compounding the issue was the fact that the Mercury Theatre on the Air was a sustaining show (it ran without commercial breaks), adding to the program's realism. Although there were sensationalist accounts in the press about a supposed panic in response to the broadcast, the precise extent of listener response has been debated. In the days following the adaptation, however, there was widespread outrage and panic by certain listeners, who had believed the events described in the program were real. The program's news-bulletin format was described as cruelly deceptive by some newspapers and public figures, leading to an outcry against the perpetrators of the broadcast. Despite these complaints, the episode secured Welles' fame as a dramatist.

The program, broadcast from the 20th floor at 485 Madison Avenue in New York City, starts with an introduction from the novel, describing the intentions of the aliens and noting that the adaptation is set in 1939, a year ahead of the actual broadcast date. The program continues with a weather report and an ordinary dance band remote featuring "Ramon Raquello and His Orchestra" (actually the CBS orchestra under the direction of Bernard Herrmann that is interrupted by news flashes about strange explosions on Mars. Welles makes his first appearance as the (fictional) famous astronomer and Princeton professor Richard Pierson, who dismisses speculation about life on Mars.

The news grows more frequent and increasingly ominous as a cylindrical meteorite lands in Grover's Mill, New Jersey. A crowd gathers at the site. Reporter Carl Phillips (Readick) relates the events. The meteorite unscrews, revealing itself as a rocket machine. Onlookers catch a glimpse of a tentacled, pulsating, barely mobile Martian inside before it incinerates the crowd with Heat-Rays. Phillips's shouts about incoming flames are cut off in mid-sentence. (Later surveys indicate that many listeners heard only this portion of the show before contacting neighbors or family to inquire about the broadcast. Many contacted others in turn, leading to rumors and confusion.

Regular programming breaks down as the studio struggles with casualty updates, firefighting developments and the like. A shaken Pierson speculates about Martian technology. The New Jersey state militia declares martial law and attacks the cylinder; a message from their field headquarters lectures about the overwhelming force of properly equipped infantry and the helplessness of the Martians in Earth's gravity until a tripod alien fighting machine rears up from the pit.

The Martians obliterate the militia, and the studio returns, now describing the Martians as an invading army. Emergency response bulletins give way to damage reports and evacuation instructions as millions of refugees clog the roads. Three Martian tripods from the cylinder destroy power stations and uproot bridges and

François Columbier Columbus "Lum" Missey and Descendants

railroads, reinforced by three others from a second cylinder as gas explosions continue. An unnamed Secretary of the Interior (Kenny Delma) advises the nation. (The secretary was originally intended to be a portrayal of Franklin D. Roosevelt, then President, but CBS insisted this detail, among others, be changed. Welles directed Delmar to nonetheless imitate Roosevelt's voice.)

A live connection is established to a field artillery battery. Its gun crew reports damaging one machine and a release of black smoke/poison gas before fading into the sound of coughing. The lead plane of a wing of bombers broadcasts its approach and remains on the air as their engines are burned by the Heat-Ray and the plane dives on the invaders. Radio operators go active and fall silent, most right after reporting the approach of the black smoke. The bombers destroyed one machine, but cylinders are falling all across the country.

This section ends famously: A news reporter, broadcasting from atop the CBS building, describes the Martian invasion of New York City - "five great machines" wading across the Hudson River, poison smoke drifting over the city, people running and diving into the East River "like rats", others "falling like flies" - until he, too, succumbs to the poison gas.

Finally, a despairing ham radio operator is heard calling, "2X2L calling CQ. Isn't there anyone on the air? Isn't there anyone on the air? Isn't there... anyone?"

After an intermission for station identification, in which announcer Dan Seymour mentions that the show is fiction, the last third is a monologue and dialogue. Welles returns as Professor Pierson, describing the aftermath of the attacks. The story ends, as does the novel, with the Martians falling victim to earthly pathogenic germs, to which they have no immunity.

After the play, Welles informally breaks character to remind listeners that the broadcast was a Halloween concoction, the equivalent, as he puts it, "of dressing up in a sheet, jumping out of a bush and saying, 'Boo!'". Popular mythology holds this "disclaimer" was hastily added to the broadcast at the insistence of CBS executives as they became aware of panic inspired by the program; in fact, it had appeared in Koch's working script for the play.

Some listeners heard only a portion of the broadcast and, in the atmosphere of tension and anxiety prior to World War II, took it to be an actual news broadcast. Newspapers reported that panic ensued, with people across the Northeastern United States and Canada fleeing their homes. Some people called CBS, newspapers or the police in confusion over the realism of the news bulletins. Future Tonight Show host Jack Paar had announcing duties that night for Cleveland CBS affiliate WGAR. As panicked listeners called the studio, Paar attempted to calm them on the phone and on air by saying, "The world is not coming to an end. Trust me. When have I ever lied to you?" When the listeners started charging Paar with "covering up the truth", he called WGAR's station manager for help. Oblivious to the situation, the manager advised Paar to calm down, saying it was "all a tempest in a teapot."

In Concrete, Washington, phone lines and electricity went out due to a short-circuit

François Columbier Columbus "Lum" Missey and Descendants

at the Superior Portland Cement Company's substation. Residents were unable to call neighbors, family or friends to calm their fears. Reporters who heard of the coincidental blackout sent the story over the news-wire, and soon Concrete was known worldwide. Within one month, newspapers had published 12,500 articles about the broadcast and its impact. Adolf Hitler cited the panic, as Richard J. Hand writes, as "evidence of the decadence and corrupt condition of democracy."

Later studies indicate that many missed the repeated notices about the broadcast being fictional, partly because The Mercury Theatre on the Air, an unsponsored cultural program with a relatively small audience, ran at the same time as the NBC Red Network's popular Chase and Sanborn Hour. About 15 minutes into Chase and Sanborn, the first comic sketch ended and a musical number began, and many listeners began tuning around the dial at that point.

According to the American Experience program The Battle Over Citizen Kane, Welles knew the schedule of Chase and Sanborn and scheduled the first report from Grover's Mill at the 12-minute mark to heighten the audience's confusion. As a result, some listeners happened upon the CBS broadcast at the point the Martians emerge from their spacecraft. Because the broadcast was unsponsored, Welles and company could schedule breaks at will rather than structuring them around necessary advertisements. As a result, the only notices that the broadcast was fictional came at the start of the broadcast and about 40 and 55 minutes into it.

A study by the Radio Project discovered that some who panicked presumed that Germans, not Martians, had invaded. "The shadow of war was constantly in and on the air. People were on edge", wrote Welles biographer Frank Brady: For the entire month prior to The War of the Worlds, radio had kept the American public alert to the ominous happenings throughout the world. The Munich crisis was at its height.

Adolf Hitler, in his address to the annual Nazi party congress at Nuremberg in September, called for the autonomy of the Sudetenland, an area on the Czech border regions populated by three million Sudeten Germans, as they were called. Hitler ranted and lied over German radio ... for the first time in history, the public could tune into their radios every night and hear, boot-by-boot, accusation-by-accusation, threat-by-threat, the rumblings that seemed inevitably leading to a world war.

In the aftermath of the reported panic, CBS responded to public outcry by pointing to reminders throughout the broadcast that it was a performance. Welles and Mercury Theatre escaped punishment but not censure; CBS is believed to have had to promise never again to use "we interrupt this program" for dramatic effect. However, many radio commercials to this day do start with the phrase "We interrupt this program". The notoriety of the broadcast led the Campbell Soup Company to sponsor the show; The Mercury Theatre on the Air was renamed The Campbell Playhouse.

Many listeners sued the network for "mental anguish" and "personal injury". All suits were dismissed, except for a claim for a pair of black men's shoes (size 9B) by a Massachusetts man, who spent his shoe money to escape the Martians. Welles

insisted the man be paid.

A meeting between H.G. Wells and Orson Welles was broadcast on Radio KTSA San Antonio, a CBS affiliate, on October 28, 1940. Wells expressed a lack of understanding of the apparent panic and suggested it may have been only pretense, like the American version of Halloween, for fun. The two men and their radio interviewer joked with embarrassment about the matter.

On December 14, 1988, the original radio script for The War of the Worlds was sold at auction at Sotheby's in New York by author Howard Koch. The typescript bears the handwritten deletions and additions of Orson Welles and producer John Houseman. It was thought to have been the only copy of the script known to survive.

"The police came in after the broadcast and seized whatever copies they could find as evidence, I suppose", Koch told The New York Times. "There was a question that we had done something that might have criminal implications." Expected to bring between \$25,000 and \$35,000, the script sold for \$143,000 - setting a record for an article of entertainment memorabilia. "I had a private offer of \$60,000", Koch said after selling the 46-page script, which had been in his file cabinet for years. "They advised me to take the gamble. I guess it was the right gamble."

A second surviving War of the Worlds radio script - Welles's own directorial copy, given to an associate for safekeeping - was auctioned June 2, 1994, at Christie's in New York. Estimated to bring \$15,000 to \$20,000, the script was sold for \$32,200.

The successful bidder was filmmaker Steven Spielberg, whose collection also includes one of the three balsa "Rosebud" sleds from Citizen Kane. Spielberg adapted The War of the Worlds for a feature film in 2005.

The New Jersey Township of West Windsor, where Grover's Mill is located, commemorated the 50th anniversary of the broadcast in 1988 with four days of festivities including art and planetarium shows, a panel discussion, a parade, burial of a time capsule, a dinner dance, film festivals devoted to H. G. Wells and Orson Welles, and the dedication of a bronze monument to the fictional Martian landings. Howard Koch, an author of the original radio script, attended the 49th anniversary celebration as an honored guest.

On October 29, 2013, the PBS documentary series American Experience will examine The War of the Worlds broadcast on the eve of its 75th anniversary.

Research Note

Many of you may wonder why I included such detail concerning this historic 1938 War of the Worlds broadcast, the answer is because Dad says that Lum and Rue and the family were listening to this broadcast at the time of its production. I asked him, did anyone feel threatened or scared and he said everyone that it was amusing but didn't think anything about it. He said they did not take it seriously and dismissed it as folly and entertainment. After all, Grover Mills, New Jersey was a long way from Bourbon, Missouri. FTP

1938 Death of mother; Laura Mary Magdalene (MISSEY) Pratt age 44 years, 4 months, 16 days

Laura Mary Magdalene (**MISSEY**) Pratt died at her home in Bourbon, Boone Twp, Crawford, Missouri, United States on Sunday, 17 April 1938. Due to the large crowd of family and friends, they decided to hold the funeral in her front yard. I have a picture of her lying in state in her coffin in her front yard as mourners passed by to offer their condolences.

1938 Chester Milford Skaggs (Son-in-law) and Mary Edith (PRATT) (Daughter) were married age 44 years, 6 months, 24 days

Chester Skaggs of Potosi, Washington County Missouri over the age of 21 and Mary Edith Pratt of Bourbon, Crawford County, Missouri over the age of 18 were married on Saturday, 25 June 1938 in Farmington, Saint Francois, Missouri, United States.

Research Note

Seventeen-year-old Mary Edith (**PRATT**) was her mother: Rue's right hand. Taking care of her brothers and little sister, was an ominous task for 18-year-old Edith. Not only was she required to attend Bourbon school on a daily basis but also the household duties associated with 4 brothers and 1 sister including her own homework left little time for a social life.

On the other hand, Chester Milford Skaggs, born in Bonne Terre, Perry Twp, Saint Francois, Missouri, United States 6 years her senior, a rugged handsome young man living in Potosi, Missouri working as a tiff miner seemed like a good opportunity to her to get away from the drudgeries of babysitting and a small town life.

Where or when they met is unclear but a romance blossomed and young Mary Edith and Chester discussed marriage. I imagine when they presented their proposal to Lum and Rue; the idea of marriage was not received well especially to an outsider from Saint Francois County.

Probably many arguments ensued with hurt feelings all the way around. If you entertain the idea that Edith was with child, then dismiss that idea since Edith could not have children and she was barren her whole life, hence they adopted.

The reason I feel that the marriage was not accepted with open arms is based on two observations. First, when Chester and Edith finally get married they do so in his birth county in Farmington, Saint Francois County, Missouri.

You might jump to the conclusion that they married at his parent's home and you would be wrong. Chester's parents; Winfield "Winey" Curtis and Mary Catherine (**HAGGARD**) Skaggs were living in Potosi and had been for the last 10 years. Maybe his parents, the Skaggs were not too keen on this marriage either.

Second, when I asked my father, when at the age of 11 years old did he and his parents attend Aunt Edith's wedding down in Farmington in 1938 he stated they did not.

François Columbier Columbus "Lum" Missey and Descendants

Bourbon to Farmington was two counties away and a long distance and Lum had an old Ford pick-up truck by that time and if they wanted to go to the wedding they could have. On the other hand, if they did not want the neighbors to know their daughter was getting married then the marriage out of town may have been their idea. I don't think that was the scenario since after Chester and Edith were married they moved into the Johnson house with her parents as depicted in the 1940 census...the neighbors knew anyway.

So, it appears Chester and Edith without the support of either side of the family, eloped to Farmington and were married. I wonder why didn't Edith want her own pastor at her church in Bourbon marry them? Since both are gone at this point we really can't ask the questions. Also, from my experience, asking older family members about their actions that took place long ago will not yield the truth concerning those actions. I asked my birth mother why she and my father got a divorce when I was one year old and she said flippantly, "It was just one of those things".

Nevertheless, it appears once Chester and Edith were married the family decided to take them in and provided for them with a private apartment on the second floor of the Johnson house. Dad says that Edith and Chester lived on the second floor and the rest of the family, including Grandpa Johnson lived on the first floor.

Dad also said that Chester made good money and he says when Edith would cook Chester's dinner, they could smell the pork chops cooking upstairs and the smell was driving them crazy downstairs because it smelled so good. FTP

Judge James Millard Johnson Sr. died in Bourbon, Boone Twp, Crawford, Missouri, United States on Wednesday, 21 May 1941.

Research Note

Judge James Millard Johnson Sr. is a descendant of Benjamin and Amelia (_____) Johnson from Rowan County, North Carolina. Benjamin and Amelia left Iredell County, North Carolina for Franklin County, Missouri in 1823 and began to purchase property and entrench themselves into the Franklin County community.

François Columbier Columbus "Lum" Missey and Descendants

James' father; Martin accompanied his parents to Franklin County and learned the profession of farming and cattle ranching.

Judge Johnson was born near Moselle, Central Twp, Franklin, Missouri, United States and was educated in the finest schools and was taught in all manners of business. His father; Martin dying at an early age, left James' mother; Comfort (**OSBORN**) Drace Johnson, a woman of refined manners and trained in all the graces an educated culture had to offer, raised James to adulthood until her death in 1877.

In 1884, James began courting another well-educated refined lady of Bourbon; Mary Jane Theodosia "Dosia" (**BARTON**). They were married at her father's home in Bourbon. It was in 1892 that James built what became the Johnson house on the hill at Walnut Street and Blue Springs Road. His in-laws, William and Harriet (**KING**) Barton lived down the hill from the house in the back.

James farmed and acquired enough financial backing to open a mercantile store in Bourbon and he bought a partnership in the Bourbon Bank. Earning a reputation as an honest, fair, upright man and pillar of the community, James Johnson was appointed a Circuit Court Judge of Crawford County. Losing his wife; Dosia and mother of his seven children to epilepsy in 1913, James, 5 years later, married widow Mrs. Mary Louvincy Emily (**KING**) Chappell.

Emily (**KING**) daughter of Senator Daniel Jacob "Jake" and Harriet E. (**FISHER**) King of Mountain View Town in Blue Mountain Twp, Stone County, Arkansas married John Franklin "Frank" Chappell and after 5 children Frank died in 1909. Emily ran a motel and rooming house in Mountain Home and shortly after the death of her husband, she sold her property and moved to Bourbon, Missouri where she bought the Bourbon Hotel down the street from future husband; Judge James Millard Johnson's bank.

After their marriage, Emily moved in with Judge Johnson in his home on Walnut Street. Columbus Pratt's family moved into William and Harriet (**KING**) Barton's home down the hill from the Johnson home. After the death of William and Harriet in 1922-1920, their son; Zechariah Alonzo "Lon" Barton inherited the Barton home and rented the property to the Pratts.

Dad remembers as a young boy taking the \$6 a month down to Lon Barton's house to pay the rent.

With the death of James Millard Johnson, the Pratts not only lost a grandfather and father-in-law; but they lost a good and dear friend to the family and Crawford County lost a great leader and benefactor to the community. FTP

employment opportunities. With the declaration of war, the whole country needed support services of all kinds. Manufacturers, plants and industrial companies retooled their machinery for the war effort.

My Grandmother and Dorothy's mother; Anna (**KIER**) Bednarek worked at The St. Louis Army Ammunition Plant on Goodfellow Boulevard in St. Louis making bullets. Consequently, workers were needed for the war effort in all the major cities...even women.

Dad says after a few months, Lum and Rue did not like city life and decided to move back to Bourbon with his little brother Jim. However at the age of 14, my Dad, Floyd Theodore Pratt decided to stay in Saint Louis and work and he says he paid \$10 a month to Uncle Henry Arthur "Art" & Aunt Hazel Belle (**COZIAH**) Darnell Schwartz Bellamy Vail Stall Pratt for room & board in 1942. 1945 Carl Benjamin Pratt (Son) and Mary Theresa (BRESZIA) Caro (Daughter-in-law) were married age 51 years, 1 month, 2 days

Carl B. Pratt and Mary F. Caro were married in Baltimore, Baltimore, Maryland, United States on 3 January 1945.

Research Note

Uncle Carl was either on leave from the Navy or had been discharged when he was in Baltimore, Maryland in 1945. He met and began a courtship with a beautiful 23-year-old girl, named Mary Theresa (**BRESZIA**) Caro.

Mary had been previously married circa 1940-1945 to Peter Caro, which ended in a divorce, no children.

Mary is the daughter of James Vincenzo "Vincent" and Maria Teresa Concetta (**RIMOLA**) Brescia from Catanzaro, Calabria Region, Italy. Devoted Catholics, James and Maria were not pleased with their daughter's divorce, which was contrary to their Catholic beliefs.

All through her adult life, Aunt Mary never talked about her first marriage and was always made to feel ashamed because of the divorce. No one else in Uncle Carl's family really cared, but nevertheless Aunt Mary carried that stigmatism with her, her whole life and I felt she was unjustly persecuted because of the divorce.

Aunt Mary was a wonderful woman and Uncle Carl was lucky to have such a loving and devoted partner. After, their marriage, Uncle Carl brought his new bride home to meet his parents. According to Dad, some of the Pratt family members were not too

François Columbier Columbus "Lum" Missey and Descendants

keen on a Catholic bride in the family since most of Pratts were Pentecostal and eventually became Assembly of God churchgoers.

The scriptures are very clear where the Lord states that one should marry within their tribe, clan and race and share a common background with the same goals and aspirations. However, when did mankind ever obey their Heavenly Father and take his advice?

In order for you to understand what Carl and Mary were up against, let me explain the religious atmosphere in a small rural American town. Most people went to church because their parents took them to church when they were children. These families would build long lasting friendships and acquaintances even to the extent of doing business with the people you went to church with.

As the small town grew, new ideas and different peoples from strange cultures began to move into the community. Instead of a Baptist Church, now there was a Methodist Church, and then a Lutheran Church, then a Catholic Church and as these churches moved into the community and started to establish themselves, families based on ignorance, taught their children the evils of those varying churches.

This built a prejudice against each religion and this intolerance had its roots in Lucifer's philosophy. From the beginning of time, Lucifer has always known that to conquer the saints, one much separate and divide.

Bourbon was no exception. The competition between the churches and the preachers were so severe as to turn the community into a war zone. I remember reading in Bourbon newspapers that in the early 1900's, one group of citizens would plot and burn down another church and members of opposing churches reciprocated those acts of violence.

The seeds of religious prejudice were planted in the minds of the children at an early age and these religious "clicks" were not very kind to others with opposing viewpoints.

This lack of tolerance was standard in a small community and unfortunately this was the prevalent attitude that Carl and Mary found when he went home to introduce his bride.

Millions of young men and woman who had gone away to war, had seen events and horrors coupled with beautiful places, meeting a variety of peoples and cultures that removed any and all prejudices they may have harbored before the war. Their new attitude was live and let live and to each his own.

This open-minded freshness, carried over not only to the choices of their marriage partners but to the very occupations they had been trained to do prior to the war and now with an expansion of experiences, duties and knowledge, they didn't want to work at the same jobs they had before the war.

François Columbier Columbus "Lum" Missey and Descendants

Young men did not go home and take over the family business; especially after they had been trained and educated to do more complex and financially rewarding professions.

Dad says when he returned from the war, he helped his Dad build a barn out of local limestone rock. Dad had to carry a large pallet of rocks on his shoulder up a ladder onto the roof of a barn, in the heat of the summer and said to himself, there's got to be a better way to earn a living.

This was the case with each of Lum and Rue's children who came back from the war. None of the boys wanted a backbreaking career such as stone masonry and all chose to engage in less demanding, hard labor and each one prospered in their own professions.

However, the prejudices and close-minded attitudes that prevailed in small communities could not be avoided and these attitudes created hardship and hurt feelings not only among families but among the community members.

Not everyone in the Pratt family found fault with Carl's new bride and offered her unconditional Christian love as depicted in the scriptures. Rue and the Skaggs family attended the Pentecostal Church as well as aunts, uncles and friends. However, Lum never found much value in church and did not attend with his family. It wasn't until near his death he professed a belief in the Savior.

The Savior is not interested in deathbed confessions, but is more interested in how you lived his teachings during your life. He realizes that all people will sin, and through the atonement he has taken care of that penalty, however, living a Christian life on a daily basis is most important. He wants each and every one of us to be tested and challenged throughout our lives to see if we will choose the right or the easy path. **Living** the gospel principles is more important...not professing them.

The first step to recognizing the correct path is to become familiar with the scriptures and teachings of the gospel. This is why he instructs parents to attend church with their children.

Without knowing the rules or gospel principles, how can you learn how to be a good example and help protect your family from making poor choices? And if you choose to learn and teach others the gospel, then the Lord blesses you and your family, even if you fail at living up to these principles... after repentance, he still rewards you for trying.

But, the atmosphere concerning Carl and Mary when he returned home was very uncomfortable and I don't know what was said or who said it, but they moved to Saint Louis and raised their family far from Bourbon.

I remember when attending a family reunion in Bourbon when I was a child, the buzz was always..."Are Carl and Mary coming to the family reunion?" Sometimes they came and sometimes they did not. Hurtful, unkind words had damaged their

François Columbier Columbus "Lum" Missey and Descendants

relationship with his side of the family and these damaged feelings created distant aloof associations lasting until their death.

Individually, all were welcomed at Uncle Carl and Aunt Mary's home but they avoided the family reunions and other get-togethers.

However, when I reached adulthood, I found Uncle Carl and Aunt Mary wonderful people and I remember fellowshiping with their son; Johnny who played the saxophone and was in his high school's orchestra school band that played for my 1967 Senior Prom at Pattonville High School in Saint Ann, Missouri.

I always felt it foolish and hypocritical that others judged others base on their religious affiliation. Too many fights, misunderstandings, disagreements have taken place within families and countries because someone doesn't agree with someone else's religious affiliations.

The scriptures are very clear; we will be judged on how each of us lived according to the scriptures we knew and understood regardless of what church we belonged to. How sad that all those years of love and fellowship with family members were lost due to prejudices and misunderstandings.

Nevertheless, Uncle Carl and Aunt Edith were wonderful people and raised great children and if their religion made them better people and closer to their Heavenly Father then that is all the Lord can ask and as for me...I miss them dearly. FTP

Floyd Theodore Pratt and Delores Brown were married in Saint Clair, Franklin, Missouri, United States on Saturday, 1 March 1947. (my parents)

Research Note

Shortly after his discharge from the Army in 1946, at the reckless age of 19, like

François Columbier Columbus "Lum" Missey and Descendants

most returned war heroes, Floyd was looking for fun and companionship. Instead of satisfying this need for companionship by seeking a suitable potential wife in church...as his mother had taught him, he went where the "action" was...to the bars, taverns and nightclubs.

In addition to Floyd's formal 8th grade education, the Army and the war were responsible for his worldly education and experience while in the service. Neither an avid book reader nor one to seek a higher education, but young and wanting fun and excitement he went where the action was. Any and all church instructions were lost on him during the war and his interest could not be found in churches.

At one of these bars, he met this beautiful, free spirited fun loving talented singer Delores Virginia (**BROWN**). Delores, a single girl of 22, with no serious goals or commitments, and possessing a vivacious personality, also found solitude in the bar scene where she could exercise her singing talent and find acceptance from fellow patrons.

The attraction between these two was magnetic. Floyd a slender, handsome decorated soldier and Delores a beautiful, fun loving, high spirited beauty who both held steady jobs and with this combination of chemistry and magnetism, led to an interest, courtship and an eventual marriage following the natural progression of a loving relationship. 1947 Columbus B. Pratt bought a hunting permit

C. B. Pratt was issued a Hunting, Trapping, and Fishing permit for \$2.15 by the State of Missouri on 5 May 1947. He was living in Bourbon, MO., 53 years of age, Brown hair, Blue eyes, 5' 10" tall, weight 190 lbs.

Research Note

Columbus' Grandfather Alexander R. Pratt was 7 years old when his parents; Henry and Nancy (**CARTER**) Pratt were forced by the United States Government on the infamous "Trail of Tears" in 1838. Due to Henry's Cherokee heritage, they were forced by bayonet to leave their home in Monroe County, Tennessee, in the heat of the summer and cold of the winter until the Pratts "jumped" the trail in Crawford County, Missouri in March of 1839.

Finding refuge in the hills of Crawford County, they eventually settled near Richwoods Township in Washington County, Missouri by the 1840 census.

The Pratts were hunters and woodsmen and were able to produce a good living in spite of the anti-native laws the US government passed. Alexander taught his sons to make railroad ties and staves for the mining companies.

Also, avid hunters, they were able to supply their families and others with game and fish from the abundant rivers and creeks that populated Washington and Crawford Counties of Missouri.

Alexander's son; Henry Winslow Pratt also taught his sons these skills to help them support their families.

François Columbier Columbus "Lum" Missey and Descendants

Winslow's son; Columbus likewise, taught his sons these skills and loved the solitude of camping and hunting as well as fishing on the Meramec River.

Dad says that his Dad would go down to the river and spend a few days alone enjoying the fishing and hunting and probably the peace and quiet. This is why Grandpa Lum owned fishing and hunting licenses. FTP

Research Note

On January 25, 1947 and until his death, Dr. Ronald Scott D.O. of Bourbon began treating Columbus Pratt for chest pains. He died from a Myocardial infarction (MI) or acute myocardial infarction (AMI), commonly known as a heart attack. A Heart Attack results from the partial interruption of blood supply to a part of the heart muscle, causing the heart cells to be damaged or die. This is most commonly due to occlusion (blockage) of a coronary artery following the rupture of a vulnerable atherosclerotic plaque, which is an unstable collection of cholesterol and fatty acids and white blood cells in the wall of an artery. The resulting ischemia (restriction in blood supply) and ensuing oxygen shortage, if left untreated for a sufficient period of time, can cause damage or death (infarction of heart muscle tissue (myocardium).

2008 Character Profile of Columbus "Lum" Benjamin Alexander Pratt

According to my Dad, Uncle Carl and Aunt Mary, Lum was known as honest and hard working. Through research, I have discovered that monetary wealth seemed to elude him, but he was never poor because he had good friends and family. As a stonemason, he is responsible for building most of the fireplaces and many of the stone retaining walls that are still standing in the city of Bourbon and surrounding community to this day.

My father took me to several of the houses, barns, chimneys and retaining walls, which Lum built and as a credit to his skill, engineering and professionalism, with less than a grade school education, these structures are still standing and functioning after almost after 70 years.

Lum was a disciplined man and he helped built character in his children. Those hard times required discipline and hard work to get through the depression years.

He professed a belief in the Savior before he died and has been greatly missed all these years.

I never had the privilege of knowing my grandpa, in the flesh, but I knew him before I came to this earthly existence. We passed each other after he died on July 24, 1947 and before I was born January 3, 1948. So, we got to visit for a little while, before it was my turn. I am looking forward to seeing him again and after all I have learned and know about him...I feel it will be even more of an honor to share his company.- Floyd Thomas Pratt 2008

End of Cradle to Grave (C2G) Profile

Using the C2G profile as a guideline, I was able to write a comprehensive biography on Columbus Benjamin Alexander Pratt including pictures, maps and mementoes into a book comprising over 100 pages. Creating the Cradle to Grave Profile is the first step in understanding your subject and a stepping-stone to greater literary creations. Floyd Thomas Pratt F.H.C., M.A.G.I. 2 July 2013

Chester would slide over by the door and Dad would get behind the wheel and that's how he learned to drive. Chester and Edith lived upstairs in the house and had separate cooking facilities.]

Reserch Note

James Millard Johnson Sr. owned the home at Walnut and Blue Springs Road. Even though Columbus is shown in the 1940 census as head of the house, it was actually owned by his father-in-law; James Millard Johnson Sr. As explained above, Chester and Edith lived upstairs and had separate cooking facilities and would cook great meals that other members of the house would smell and envy.

Grandma Rue could sign

Grandmother Rue's father; James Millard Johnson Sr. with partners started the Bourbon Bank. He also owned a mercantile store in Bourbon before he lost his fortune in the depression of 1929-1930. My Dad, Floyd Theodore Pratt says that his mother, Rue worked in her Daddy's store as a clerk when she was a young girl. Around the Bourbon area lived several deaf families.

Grandmother Rue (**JOHNSON**) Pratt learned sign language, probably from her well educated and talented mother; Mary Jane Theodosia "Dosia" (**BARTON**) Johnson and could communicate with the deaf when they came in to purchase goods. He said that she was so fast that she could hold a whole conversation on one hand. Her mother also taught her to play the organ and piano, which she played for her church. Floyd Thomas Pratt 2009

1961 June Inquiry

June 1961 Floyd Pratt received a letter from John Steele McCormick about family history to go into a book about the families of Crawford Co., MO. He sent this request to his mother Rue Pratt and she responded with the information below which some of it has been printed in the book "**Forest Hills and Vicinity**" by John Steele McCormick 1971. This information about the Pratts was forward to Mr. McCormick by my father Floyd T. Pratt.

1961 July Letter

[This letter was handwritten by Grandmother Rue and sent to my dad after John McCormick sent a letter to him requesting Pratt family information for his upcoming book; " **Forest Hills and Vicinity**". Dad sent the request to Grandma and this is one of the reply's she sent. I have laminated her letter for future posterity. Floyd Thomas Pratt]

Research Note

[1] Uncle Chester was a victim of corporate downsizing and lost his job in 1961. As is the custom of businesses's in the US, when an employee becomes older and the corporations have to deliver more benefits, then they find ways to sever the relationship on older employees. Until the government puts a stop to this practice, older employees will always be replaced by cheaper, younger employees. Remember, business is the great whore of Babylon.

[2] This letter is where the information came from which Mr. McCormick wrote in his book. If you will read my notes on Henry Winslow Pratt I clarify this information and correct the errors.

[3] Grandmother Rue was a fantastic woman and knew a great deal of family history much more than this letter reveals. I wish I had spent more time with her, however, I would not have known what to ask her about the family, it has been only after all these 35 years of research do I now feel I could actually ask intelligent questions about the family. Floyd Thomas Pratt 26 Dec 2007]

Grandmother Rue's Family History

In response to John McCormick's request, Grandmother Rue wrote more loose leaf pages on family history. The originals are in the Pratt Archives. There are no dates as to suggest when she may have written this information. It is almost as if she was writing it for me and future generations. This is an equivalent of a Pratt Family Bible.

Research Note

Grandmother Rue's written family history is the tempplate I used to begin my family research in December 1975. Without this roadmap it would have been very difficult to connect the families. Remember, back then there were no computers, no databases, no genealogy programs and the sources where...libraries, headstones, courthouses, census records, death certificates, marriage licenses and word of mouth. Most sources had to be bought and researched from scratch. Thousands of man hours had to be expended in order to get the information you now enjoy with a click of the mouse. I am thankful and proud to have been one of the genealogical pioneers of the Pratt, Barton, Missey, Osborn, Johnson, Carter, Blanton, Brown, Bednarek, Kimberlin(g) and allied families which comprise the **Pratt Progenitor Papers**. Dear Children:- Recieved your letter and money, Many Thanks I was broke and it came in handy. I still had to borrow \$10.00 from Edith to send an order off I had made out a month ago. I thought my gas bill would not be so big but it was so I called John Rohrer he said he would come and see about it but he hasn't so far, I have shut off all my gas but the hot water heater, am cooking [page 2]on my hot plate to see what is wrong if this gas is that high I am going to hunt me another place. I hate to move from here I like the place but that "housegas" sure robs you. Jess Pratt is in the Veterns Hospital very bad with a heart attack he had early monday morning he was taken to the Sullivan Hospital then yesterday they taken him to the veterans. then they called last night and said he was worse and the Drs there said [page 3] there wasn't any chance for him to live.

Dear Children:- What has become of you? Are you sick? Have not heard from you for so long. We are still having around close to zero weather surely the real cold weather will let up some day. I went down to allenton and stayed a week with Mrs. Miller and Lottie. I stayed over at Jim's last night until 12 oclock with the kids while they went bowling Jim and his buddies that haul for Von der Ache and their wives were bowling. Juanita just told me Roy was in and she was afraid the bunch would[page 2] want to go again to night. I was sleeping a while ago and the next door neighbor ran in and wanted to call the fire department we had a fire, it was around my house and the wind is blowing and so strong. I heard the fire department called out again in about ½ hour after they left here.

I am having my teeth made will get them about the first of March. It will cost me \$60.00. Juanita said they would pay \$15.00. Roy said he would pay \$15.00. Chester and Edith will pay that much and if you could pay that much they would be paid for. I sure hate to ask you kids to pay [page3] for them for I know you have expense of your own. I thought maybe he would let me pay for them by the month and I could pay for them this summer. I never ask him yet but he patched my old teeth up till I can wear them, but take them out of my mouth when I eat part of the time so if he won't let me have them I can get by just having them in when I set around it rests my jaws.

I am looking forward to you comming home Easter. I hope the other kids can be home then also. I am going to try and get two hens and have baked[page 4] chicken, dressing, dumplings and hope it won't cost you so much for eats when you are here.

I am sending a picture of Roy's truck for Mike. Roy said he wanted one and he gave it to me and told me to send it to him. Well must close. Now answer soon and let me know how you all are.

Love Mother

Shanklin Memorial Trusts Funeral Plan

Rue Pratt bought a Memorial Trust Plan from Shanklin Memorial Trusts. The plan was \$1202 the Shanklin Trust knocked off \$202 and Grandmother Rue paid \$40 cash and \$10 check. Apparently, she was not able to keep up the \$13.50 a month payment beginning 5 October 1966. She was concerned that she would be a burden on her children upon her death and as is apparent in her letters she tried to take care of herself but sometimes she needed help. Since Lum died in 1947, she has been alone taking care of herself with assistance from her children, mostly Edith & Chester. She is a strong and remarkable woman. 1 September 1966

Dear Son and family what have I done that none of my children will visit me. Floyd you did visit me about every two weeks now, you never come or even call me any more. Love Mother [end]

16 May 1970 Letter

Between 1969 and 1970 Grandmother Rue was moved into a nursing home. By this date she was living at the McFarland Nursing Home in Rolla, Missouri. After living an active life for 76 years it was hard for her to adjust to the idleness of a nursing home. Also, as a good Christian woman all her life she found her roommates intolerable.

Dear children:-Well as I don't have anything to do but set and listen to this talking machine is going and can't be shut off and it is a broken record because it keeps repeating all the time. He wants me to go to the family reunion in July but I don't think I will. I sure did enjoy the ride we taken while you were up here. Edith was here twice this week. I got a

Subject: Rolla Hospital

Dear Mary, My aunt died on 9 December 1939 at the ?Farland Hospital in Rolla, Phelps, Missouri. I can't seem to find any information about the hospital. Could you please tell me the actual name of the hospital so I get it right in my records? Thank You, I have enclosed a copy of the death certificate. Floyd Pratt

Floyd, I ask the president of the Phelps county genealogy society your question.

Here is her reply. If you need more here is her address Sheila Wood swood@rollanet.org

Mary,

OH YES!!!!!!! It started out as McFarland Hospital and then to a nursing home. You never wanted to go there. That was the worst place, but some people had no other place to go when they got old or sick. I will try and tell you where it was: On Hwy 63 & Pine street (the corner) there a rock house there now,(on the south side) next to the campus book store. Behind the rock house was the hospital, where Vessel fitness center is now. I don't know if there was a street name at that time, and I don't know if there is street name now. I know that Gene McFarland is off this family and he might know more then I. My husband was in the hospital in 1945, when his great uncle was dying Bill's mother was always taking care of someone and this was Bill's dad side. She should been a doctor. You haven't been sending me any more queries. I know we have really slowed down for the holidays and it happens every year. Then spring hits. We now have a new mico reader printer, we went ahead and got it, left us with very little money to work with, but we needed that machine. Sheila [end]

[This is the same nursing home that Grandmother Rue stayed in when she was housed in Rolla. I asked Dad and he said yes, his mother used to tell them that she was uncomfortable being in the same hospital/nursing home that daughter; Nadine had died in. Floyd Thomas Pratt]

In Memoriam to Rue Flavilla (JOHNSON) Pratt

I knew Grandma Rue (**JOHNSON**) Pratt very well. I used to stay with her when I was a small boy. I can remember she was one of the best cooks in the world. She made blackberry cobbler the best I have ever tasted. We used to go on trips to her house when we lived in Saint Louis and the whole family, Dad, Mom and us kids and grandma would go out into the country on some dirt road around Bourbon and pick blackberries on the side of the road. The bushes grew wild..I ate more than I picked.

Grandma Rue possessed a strong character with a righteous sense of good. She read the bible and attended the Pentecostal Church in Bourbon and played the piano or organ when called upon to do so. Later she changed to the Bourbon Assembly of God Church in Bourbon.

As a young boy always getting in trouble, she would defend me from my Dad when I would do something wrong and would say "Ted, you leave him alone." I used to run to her and hide behind her and she protected me from punishment from my Dad. Sometimes I would climb up on her lap and lay my head on her shoulder and just feel safe and comforted. I know I probably deserved the punishment but as small child I could get sympathy from her and enjoyed the attention and loved every minute of her protection. I remember giggling and laughing because I thought I was getting away with something.

François Columbier Columbus "Lum" Missey and Descendants

When I was young, I can remember her going with us on trips to the zoo in Saint Louis and the Missouri State Capitol in Jefferson City, Missouri.

When I became a grown man with a family of my own, I used to bring my family out to Bourbon from Saint Louis to visit with her. She would give them the same unconditional love that she had always given me.

I remember one time she told me that as a little girl she took the train from Bourbon to Saint Louis to see the 1904 World's Fair. She said her Daddy bought her a new pair of shoes for the trip. She told me that the Johnson's were merchants and businessmen and well-to-do before the great depression. [This I have verified through research on the Johnson family.]

She was born of upper middle class stock and I don't know what she saw in a poor Missouri dirt farmer and war hero; named Columbus Benjamin "Lum" Alexander Pratt. She was probably taken over by the famous Pratt charm, that I have found all us Pratt boys possess. However, fortunate for us Lum and Rue married and raised our parents.

Her Johnson brothers didn't approve of the marriage and gave Grandma Rue a hard time. In fact it has been said that they didn't have much to do with her for a long time because of her spousal choice. Rue, being a woman of strong character overcame her brother's objections and prejudices and raised good children that are well respected and loved by those who know them.

Not all the Johnsons were against her, because her father, Judge James Millard Johnson Sr. let Lum and her after they were married, stay at the Johnson house on Blue Springs Road and Walnut Street until Millard died in 1941. Dad says that Lon Barton either bought that house or inherited it and charged the Pratt family for rent, \$8 dollars a month while they lived there.

I can remember attending Sunday School with Grandma Rue at Bourbon at the Old Penecostal Church and feeling a sense of love from the people I met.

We picnicked and swam in the Blue Springs Creek and was scared when we crossed the infamous two wheeled Hog-Trough Bridge. If any of you remember that bridge, it was a nightmare. This bridge expanded the Meramec River with two small lanes that barely fit the wheels of the vehicle you were driving. Between the lanes was an opening where you could see the river flowing. There were only a few supports and the bridge was only about 1 to 2 feet above the river, mostly 1 foot or less. In some places, the water came right up onto the lanes and flowed over the wooden bridge. After a storm, in high water, the bridge disappeared under the river. As you drove over the bridge it would creak and crack and groan from the weight of the vehicle and always scared me to death. I think they have closed it now due to its unsafe condition.

Rue was an overflowing fountain of knowledge and stories of the past but being a child, I thought as a child and was too busy to listen or be interested.

One day when she was at the Rolla Nursing Home, I asked her why she named my father...Floyd. She said that during the great depression the Pratt family like others were in hard times and there wasn't much money for food and supplies. The grocer in Bourbon would give the family credit and would go out of his way to help the family. She said his name was Floyd and so to honor his kindness and generosity she named one of her sons after him.

François Columbier Columbus "Lum" Missey and Descendants

After hearing that story, what used to be an unusual name, which I always disliked, I now wear with pride in honor of a man whose kindness and generosity helped families in time of need.

Now that she has passed over, I don't feel an acute sense of loss because I took advantage of the opportunity to fellowship and get to know her while she was here. I felt helplessness and cried because of the unhappiness and pain she suffered in her latter years from a body stricken with disease. When she passed on, I was happy that she would no longer suffer as she had.

I am glad her spirit is co-mingling with her father, mother, brothers, sisters and children and delight in the knowledge that she is fellowshiping in the presence of our Heavenly Father. I am thankful for the privilege of her association and because of that association, my life has been enriched with her acts of kindness and loving memories. This family history legacy I have compiled and leave behind is my way of honoring her for her unconditional love she offered everyone. I rejoice in the knowledge that I will one day fellowship with all the ancients and especially Grandmother Rue. To me, she will always be a rare star in the cluster of our Heavenly Father's heaven. -- Floyd Thomas Pratt 2008

She was a widowed homemaker and died June 26, 1983 at the Briarwood Manor Nursing Home, 410 North Franklin Street, Cuba, Crawford, Missouri. She was buried at the Bourbon Cemetery, Bourbon, Missouri on June 29th, 1983. The Britton Funeral Home of Cuba, Missouri officiating. The informant was son; Floyd Pratt of 12706 Brumley Drive, Bridgeton, Missouri.

Research Note

When Grandmother Rue died, my family and I attended her funeral at her Assembly of God Church in Bourbon, Missouri. The pastor of the church was new to the congregation and area and since Grandmother Rue had been in a nursing home for several years, he didn't know her at all. Instead of asking if anyone would like to say a few words about her, no one who knew her was allowed to speak. In retrospect, I guess I should have forced their hand and said a few words. Aunt Edith and Uncle Chester were on vacation in the state of Washington and were traveling by motor home, so they missed the funeral. Otherwise, Dad, Uncle Jim, Uncle Carl and Uncle Roy and their families were in attendance and many friends who had known her. After her interment in the Bourbon Cemetery, we all went across I-44 and had lunch at a local restaurant and that's when Crystal said her famous line to Uncle Jim. As we were sitting there, Uncle Jim was sitting across from us at the table and I turned to Crystal; my 5 year old daughter and said, "That's your Great Uncle Jim" pointing my finger towards him. She pondered the statement for a minute and with an innocent query, looked him straight in the eye and said, "What makes you so great?" Uncle Jim and I were both startled and caught off guard and he said, "Because I just am." Satisfied, she focused her attention on something else. But Uncle Jim and I got a big laugh from that because it caught us both off guard and...it was a good question!

Letter to My Children (no date)

Dear Children,

I am sorry that I can't find time to talk with you about things that I have on my heart. We live in much too busy a world and our time together are usually so brief we have touched on the subject several times, but I find it difficult to say the things I feel in my heart lest I create the impression of being a "meddling" mother or fuddy duddy. However, I do feel very concerned about all of you, I dearly love you, I am very proud of all of you.

There may be nothing particular wrong with taking part in the activities of the world, but when it causes you to lose out spiritually or when it crowds out your testimony as a Christian, then it can not be the right thing to do. You know the bible says, "what fellowship hath right with darkness" and also "come out from among them be ye seperate". The truth is they are influencing you, you are not influencing them. There are days when we need spiritual strength.

Moses became a great influence for God because he refused the pleasures and fame of Egypt, choosing rather to suffer afflictions with the people of God than to enjoy the pleasures of sin for a season. Our responsibilities are not only God-ward but man-ward. Our bodies should be presented as a sacrifice to God as a channel thru which he could work. The enemy of our soul is very subtle and he has only one objective...to devour us, he will endeavor to do it by fair means or foul.

Our love for Christ can cool so gradually that we are scarcely aware of it. I have seen this happen so often, they were on fire for God once, now they are let down, nothing but wasted years, nothing to look back but regret and can't hardly get a hold of God and feel a real peace again. The bible plainly declares that in the last days men shall be lovers of pleasure more than lovers of God, and that "because of sin, many shall wax cold." I know you don't want this to happen to you.

There is no greater joy than to see your children walk in the ways of the Lord. It is also true there is no greater sorrow than to see them grow careless and indifferent in their love for God.

You are parents and realize the weight and responsibility that is yours, you need to be very consistent and faithful when it comes to your responsibilities to God. Further, your example and consistency is influencing your children.

I have tried to talk to you about these things but I hope and pray I won't say anything wrong or in the wrong way or do anything that would discourage you. I have brought you up in Sunday school and church. "O, God don't let me fail". I look around in church on Sundays and see so many with their children, like I use to do, and look around for my own children and grandchildren and wonder where they are.

These are the best years of your life. In them you should give of your best to him. The coming of the Lord can not be far off. The world will not become better, your children will have greater

François Columbier Columbus "Lum" Missey and Descendants

temptations to face than you had. They will need to be stronger than you have been, much depends upon you as a parent. I have tried to do my best and I am hoping and praying the Lord will keep his hand on you and protect you until you find him precious to your souls.

I hope and pray you will understand the spirit in which I write these things. I do not wish in any sense criticize you or be censorious, "God forbid", but I do feel a great responsibility for your spiritual welfare and would like to steer you by the danger points along the road if possible. I have always been very proud of you. You have never made me ashamed. I love you all, Oh so much. Now I have told you the weight I feel, I leave it with you.

I would of talked to you face to face, but find it difficult as I feel it so deeply and cannot restrain the tears. You must do as you wish, not to please me, but because you want to please the Lord.

With my prayers and hope to meet you all in heaven and the circle will not be broken...Love Mother

[No date on this letter, appears to be the last letter that Grandmother Rue Flavilla (**JOHNSON**) Pratt, wife of Columbus Benjamin Alexander Pratt wrote. Was given to me after Uncle Chester died. Aunt Edith gave it to Dad and he sent it to me. What a wonderful and powerful mother's plea to her children to follow the Savior and avoid the wicked ways of this world. How humble and loving she was, just as I remember her. If I didn't know she was of the Assembly of God faith I would say she was a Latter Day Saint because she demonstrates in this letter Latter Day Saint (Mormon) principles and doctrine. I love her dearly and miss her, but I know she is waiting in the Celestial kingdom with her family and I hope each of MY children will heed her words of wisdom. I figure she wrote this close to the end of her life after the 1960's. Love you all...Dad]

2012 Reminiscing by Floyd Thomas Pratt 9 March 2012

When I was a young boy, my parents would drive from St. Louis to Bourbon, Missouri to visit my Grandmother Rue Flavilla (**JOHNSON**) Pratt. The drive was long and tedious so, to pass the time I would play games in the car with my brothers.

One of those games was to see who could spot the Bourbon water tower first. The Bourbon water tower stood 50 or more feet up on steel stilts and could be seen from quite a distance down highway route 66.

Route 66 was a winding road and followed the contours of the landscape as characteristic of the gentle rolling hills of Missouri. From St. Louis to Bourbon was a long and tiresome drive and the roads were not as good as they are today with the new super highways.

The Bourbon water tower stood on a hill on Route 66, outside of Bourbon, and looked like a titan showing the way to Grandmother's house. Seeing the tower was an indication that we would be arriving at our destination shortly.

If we arrived on a Saturday, we would always stay overnight at her home, which was the old Johnson house at Walnut and Blue Springs Road and in my later years, was the home located across from my Great Uncle Virgil & Great Aunt Eula (**RICHARDSON**) Pratt's home behind her Pentecostal Church on Blue Springs Road.

We would all dress up in our Sunday best and attend church with Grandmother Rue and she was delighted that she could show off her son and his family to her Bourbon friends and family. Since,

François Columbier Columbus "Lum" Missey and Descendants

my parents took great pains to avoid the insides of a church their whole life, then this was amazing that Grandmother Rue could still exercise some form of influence over my father and have him agree to attend church with her.

I remember the inside of the church as small with rows of pews and being very hot in the summer. There were many people always in attendance and much excitement with song and testimonies. I remember they would pass around the basket for tithing and offerings and would hear the murmur from some of the attendees about the amount of money that someone gave or failed to give, in any case, this murmuring left an impression on my young mind and I always felt that tithe and offerings should be a private thing and not open to public scrutiny.

One of the attendees of the church, besides Great Uncle Virgil and Great Aunt Eula's family, was Charles "Charley" Thomas "Champ" & Joy Mildred (**JOHNSON**) Record family. Uncle Charley and Aunt Joy to me. Now I realize they were my Great Uncle Charley and Great Aunt Joy but at the time, being my Grandmother's sister, I always called her Aunt Joy, because that's what Dad called her.

She was a tall thin woman with not much weight on her bones but kind and loving and always helpful. Uncle Charley and Aunt Joy lived in a white house next to the church and after the main church meeting, the children would disperse to various locations for Sunday School lessons and at my age, our group would go to Uncle Charley and Aunt Joy's house and we held our lessons in the living room which was spacious.

Even though Aunt Joy was kind and loving, I can't say that about her husband...Charley.

Uncle Charley was a tall and also thin in stature and as I remember, very dark skinned...almost black. As an adult, I now realize why his skin was so dark but at the age of 5 or 6, I didn't understand.

Charley worked for Meramec Caverns as a tour guide and wore a visor on his head, you know, the kind of visor that had no top but covered his eyes from the sun. Due to his constant exposure to the outdoors, his skin received much sun and he darkened with a deep dark suntan.

Another peculiar thing about Great Uncle Charley...was his hair. His hair was long and thick, I would say 4 or 5 inches and coal black and when he put on the visor, the visor would push his long hair **straight up** and would stay like that even after he took his visor off!!!

I remember being at his house one time and he came home from work and with his dark skin and white eyes, he took off his visor and his hair was standing straight up. I became frightened by this sight and ran to my father for protection.

Now, in Uncle Charley's defense, he didn't purposely try to scare me but just the sight of his dark face, white eyes and long black hair standing straight up on his head, did the job.

After years of association with Charley Record, I started to call him "scare me Charley". Apparently, I was describing what I was feeling at that tender age.

Every time, I saw him, even with his hat on or hair combed, I called him "scare me Charley". That was my name for Charley Record. I remember my father; trying to consol me and holding me for

François Columbier Columbus "Lum" Missey and Descendants

protection but I also remember they all got a good laugh out of my perceived fear.

As a child, he looked scary, but now, as I look back on that event, secure in the knowledge that it was not intentional and no harm was intended.

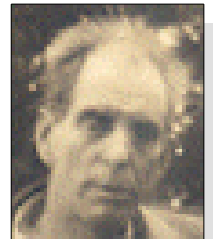

In retrospect, I remember, on several occasions, in my adult life, after beginning my family history research in 1975, walking through the Old Record family cemetery located on the old Thomas Hargis & Melzena Ann (**PINSON**) Record farm, which had overgrown with weeds up to my waist and only a few headstones could be read, and thinking of "scare me Charley" and the love I now have for him and his family.

Through the Gospel of Jesus Christ, I have been inspired to do my family history research and perform the Temple work necessary to reunite these families. In addition to the blessings I receive from my Temple experiences, I get to share with my readers, humorous anecdotes concerning some of these wonderful and extraordinary people.

In a way, I am blessed by my association with them, blessed by performing their temple ordinances and blessed in the knowledge that we will all be together again. In other words, family history research performed for the right reasons is a win, win situation for everybody.

Research Note

As usual in research, conflicting dates and places are evident in this individual. Since his mother stated on 15 June 1900 census he was born November 1894, and Jesse was 5 years old at that time then I suppose his mother knew his actual birthdate. Therefore, I would believe his mother and father in 1900 and say his birth was 23 November 1894 even though he used 23 April all his life. His father was living at the Blanton mansion at Hamilton Hollow, Johnson Township, Washington, Missouri, United States, therefore his statement that he was born in Washington County in the WW1 draft registration is correct. At that time he filled out the registration card (5 June 1917) he was living in Sullivan, MO. -Floyd Thomas Pratt

"Meet Me in St. Louis, Louis", better known as just *Meet Me in St. Louis*, was a popular song from 1904 which celebrated the Louisiana Purchase Exposition, i.e., the St. Louis World's Fair. The song was published in 1904 in New York by Mills's firm operating under the name F. A. Mills . It was recorded by many artists such as William F. Denny and Billy Murray. The song and the fair were focal points of the Judy Garland , *Meet Me in St. Louis* . Garland recorded the song in 1944.

"Louis" in the song is pronounced "LOO-ee", akin to the French. The song is one of the few instances of pronouncing the city's name that way. It is normally pronounced "LOO-is". The song, which is generally styled in the form of a limerick , has many and varied verses, few of which are remembered today - unlike the chorus. In the original sheet music, the chorus is the same for the first two verses but varies in verses three through six, which are essentially jokes with the punch line in the chorus.

It has been suggested that the song was inspired, or its details influenced, by one or more actual murders. One of these took place in St. Louis, Missouri, on October 15, 1899, when Frankie Baker, a 22-year-old dancer, stabbed (or shot) her 17-year-old lover Allen "Al" Britt, who was having a relationship with a woman named Alice Pryor. Britt died of his wounds two days later. On trial, Baker claimed that Britt had attacked her with a knife and that she acted in self-defense; she was acquitted and died in a Portland, Oregon mental institution in 1952. The song has also been linked to Frances Silver, convicted in 1832 of murdering her husband Charles Silver in Burke County, North Carolina. Unlike Frankie Baker, Silver was executed.

The Caisson Song

The song is based on the "Caisson Song" written by field artillery (later Brigadier General) Edmund L. Gruber, Lieutenant William Bryden, and Lieutenant (later Major General) Robert Danford while stationed at Fort Stotsenburg in the Philippines in March 1908. The tune quickly became popular in field artillery units. In 1917 the Secretary of the Navy and Army Lieutenant George Friedlander of the 306th Field Artillery asked John Philip Sousa to create a march using the "Caisson Song." Sousa changed the key, harmony, and rhythm and renamed it "U.S. Field Artillery." The recording sold 750,000 copies. Sousa didn't know who had written the song and had been told that it dated back to the Civil War. Although an Army magazine claims that Sousa passed on his royalties to Gruber other sources state that Gruber became involved in a prolonged legal battle to recover the rights to music he had written and that had been lifted (unknowingly or not) by Sousa and widely sold by sheet music publishers who reaped profits while Gruber received nothing. The music became so popular that it was also used in radio ads by firms such as the Hoover Vacuum Company. Gruber lost his battle in the courts. They ruled that he had waited too long to complain and that his music was by that time in the public domain. "The Caisson Song" was never designated as the official U.S. Army song likely because the lyrics were too closely identified with the field artillery and not the entire army. The official song retains Gruber's music, but with re-written lyrics.

1908 Song: "Take Me Out To The Ballgame"

Song: "Take Me Out To The Ballgame"

The words were written in 1908 by vaudevilles star Jack Norworth, who while riding a subway train, was inspired by a sign that said "Baseball Today - Polo Grounds". In the song, Katie's (and later Nelly's) beau calls to ask her out to see a show. She accepts the date, but only if her date will take her out to the ballgame. The words were set to music by Albert Von Tilzer, (Norworth and Von Tilzer finally saw their first Major League Baseball games 32 and 20 years later, respectively).

François Columbier Columbus "Lum" Missey and Descendants

The song was first sung by Norworth's then-wife Nora Bayes and popularized by many other vaudeville acts. It was played at a ballpark for the first known time in 1934, at a high-school game in Los Angeles, and researchers think it made its debut at a major-league park later that year.

Song: "Casey Jones"

<http://www.contemplator.com/america/casyjones.html>

There are several songs about Casey Jones, the famous railway man of the Illinois Central. The songs are based on the train wreck of April 1900 at Vaughan, Mississippi. Jones was a well-known and respected driver. He was driving No. 382, possibly for a sick friend. The switching station at Vaughan did not have enough room to accommodate the length of trains there. Flagmen were sent to warn Jones, but for unknown reasons, he was unaware of the problem until it was too late. Jones was killed in the accident. He left a wife and three children.

The first Casey Jones ballad was written by Wallace Saunders, Casey's African-American engine wiper. It was sung to the tune *Jimmy Jones*, which was popular at the time. Engineer William Leighton heard the song. His brothers Frank and Bert, vaudeville performers, polished the song, added a chorus, and began to perform it in their act. When the ballad was published in 1902 the words were credited to T. Lawrence Seibert, and Eddie Newton was credited with the music.

The home that my aunts and uncles remember between Crows Creek and Brazil Creek (see map) belonged to Columbus Francois Missey, Laura's father. He had entered a deed for 120 acres on 20 April 1889. Either he sold the property to Henry Winslow Pratt and they never filed the deed or the land was given to his daughter and son-in-law as a gift. Barbara, apparently you are LDS? What I have is extensive information about the family of Ire Skaggs from Londonderry, Ulster, Ireland following his line son; William & Mary (**HATCH**) Skaggs of same location.

These people are Nadine's ancestors. Since, I have all this information about the Skaggs family, i.e., my Aunt Mary Edith (**PRATT**) married Chester Milford Skaggs. Therefore, the Skaggs family interconnects in several locations with the Pratts. Why are you trying now to get Nadine's information? Floyd

Thanks for your info on the Missee family. I too have found it "odd" Charlotte and her family seemingly dropped off the face of the earth! How research has changed, I had to apply to a judge in Ste G to obtain a copy of Jacques Rev War Affidavit, back in the late 1970's. JoAnn Missey, wf/o Lawrence, gave me her Missee research data back in the late 1970's. It was a wonderful start! Barbara in Georgia genengolf@aol.com May God Continue to Bless America!

Barbara, do you know the names of Emmett Ray Davidson's parents? I realize you think that he is Davison but not true. He did not fill in his World War I Draft Registration record...someone else did. He signed it and look at his penmanship. He could not have written that information so clearly. Also, I found him always listed in the census records as Davidson. Let me know if you know about his parents. Floyd

Barbara, Check ancestry.com again for Emmett's ancestors, a miracle happened yesterday and I will be sending you a letter I wrote about it. Enclosed is a C2G Profile on Nadine. I will send you one also on Emmett.

I realize you think he is Davison, but what happened yesterday has not set that to rest. His parents are Major F. & Nancy Elizabeth (**SMITH**) Davidson Cupples and I have updated ancestry.com with that information.

Up until yesterday I did not know anything about his parents and neither did anyone else on ancestry.com.

So, something extraordinary has happened for the benefit of his family. Floyd

I had a note that I had this obit. However, I have been donating my old obits to various groups, found it this morning on the Franklin Co site. Ed Mackley is about to download thousands of more local obits I gave him a few months back on his site. Talmadge Sapp of Bourbon, Missouri passed away Monday, January 6, 2003 at the age of 81 years.

Mrs. Sapp was born on July 4, 1921 at Rosebud, Illinois to Emmett and Nadine (Skaggs)Davidson. At the age of six she moved to the St. Louis area. For a time, she was a waitress at the Holiday Inn in St. Louis and later, when she made her home in Bourbon, Missouri she was employed at Proctor Products. She retired from there after twelve years of employment. She was known as a loving mother and friend and will be fondly remembered by all who knew her.

She is survived by two daughters, Ruth Ann Hoerath and husband, Herman of Bourbon, Sondra Jane Mooney of Hallsville, Missouri, 7 grandchildren, Robin, Lynnette, Sheila, Joe, Stacie, Tracie and April, 21 great-grandchildren, other relatives and friends. Along with her parents, Mrs. Sapp was preceded in death by a brother, Emmett R. Davidson and a sister Ruth Hisaw.

The children of Nadine seemingly used Davison, Her son has his military records/social security as Davison. My guess is her husband used both. Ray, 1894-1946, has an X in the middle of his signature, obviously wasn't able to read and fill in the required info on his WW 1 draft card, poor fellow. But is does read Davison.

Yes, I do believe some power beyond us compelled me to contact you about Nadine. I am busy trying to get

approximate birth dates for all the entries I have in my data base, VERY big job! Barbara in Georgia genengolf@aol.com May God Continue to Bless America!

Barbara, I will need some time to digest your last emails and to "update" my records with what you have sent me before I can formulate some conclusions for you. Also, I want to prepare a Cradle to Grave (C2G) Profile on Emmett but I have a lot of processing to do with the new found information. I will contact you when I have it prepared. Floyd

Email 11 July 2011 to Barbara Geisert genengolf@aol.com

Barbara, ok, I read one of your emails and you have her parentage confused. Enclosed is a pedigree chart showing 5 generations for her. When I send you my C2G profiles you will see my documented "proof" because by now you know I try to validate everything. Floyd

Email 11 July 2011 to Barbara Geisert genengolf@aol.com

Barbara, I have been able to look at some of the information you have been sending me on Emmet and have come to the conclusion, that most of my names, dates and places that Nadine had given me was not necessarily correct. First of all, she said his name was Emmett Ray Davidson. I see now some of his legal records call him Roy. Therefore, I am going to have to add Roy to his middle name in order to be able to "catch" other records when I search for information. Second, even though his relatives all spelled their names as Davidson, the frequent use of Davison has to be addressed and I have now added Davison to his last name of Davidson to catch all records pertaining to him. As I build his C2G profile, I will contact you to let you know what else I need. I will address his children later. Dad says they use to call Emmett Ray Davidson Jr....Junior when he lived around Bourbon. Floyd

Email 11 July 2011 from Barbara Geisert genengolf@aol.com

Thanks for the chart, I had already fixed Nadine's Skaggs connection. I note one other surname in question. You have **Counce**, as listed on son John's death certificate. 1826 Nancy **Stearman** Marriage Date: 20 Oct 1826 Marriage County: Washington Spouse Name: Jeremiah Wilkerson; Thanks again, Barbara in Georgia
genengolf@aol.com May God Continue to Bless America!

Email 11 July 2011 to Barbara Geisert genengolf@aol.com

Barbara you did it again. You started talking about something that does not make sense. What chart? I sent you a Cradle to Grave profile C2G for Nadine which is far and above a chart. It shows a chronological history of an individual from birth to death, listing all major events that took place in a person's life including documentation validating the information. Second, Nadine didn't have a son named John and who are the Stearmans and Wilkersons. I know nothing about a death certificate for a John or Counce.

Now down to something I have found. When you prepare a C2G Profile on an individual you must start with their parents so you can cover all the important events from the time of their birth until they get married and start their own family. This includes, sibling birth, family moves, deaths of parents and grandparents and so forth. In my preparation for a C2G for Emmett Ray or Roy Davidson or Davison I found the following information:

1910 Federal Census

Civil District 9, Chester, Tennessee, United States, page 196a, 19 April 1910, line 22, house 27, family 27

François Columbier Columbus "Lum" Missey and Descendants

CUPLER, R.[Reuben] C.[Cloyd] head w m 57; Nancy C. wife w f 36; Lorader dau w f 11; Lorah H. dau w f 9; Aly N. dau w f 6; Rubin C. son w m 2; **SPATH**, E. R. step-son w m 15
[All born in Tennessee as was their parents except Reuben's mother born in North Carolina. They both have been married twice. They have been married for 12 years. Nancy says she has had 5 children born and 5 are living. Reuben is a farmer and is renting.]

Research Note

E. R. Spath is the above census is actually Emmett Ray or Roy Davidson, son of Major F. & Nancy Elizabeth (**SMITH**) Davidson. Why he was listed as a Spath one can only speculate. Maybe he was wanted by the law or was in trouble with local people but the giveaway here is that Reuben listed him as a step-son. Nancy had two boys in that age group; Elvis and Emmett Davidson. Elvis in the 1910 census is living with his grandparents but Emmett can not be located. In order for this boy to be a Spath would require that Nancy would have married a Spath. Checking the Tennessee marriages showed no Davidson-Spath marriage, therefore, this Spath boy fits the age of her son, Emmett. Also, in the above census Nancy says she has had 5 children born and 5 are living. These would be Elvis and Emmett Davidson, Lorada, Alley and Rubin Cupples, therefore accounting for all her known children. Therefore, E. R. Spath above **IS** Emmett Ray Davidson. Floyd

Email 11 July 2011 to Barbara Geisert genengolf@aol.com

Barbara, what you are talking about in the Pedigree Chart on Nadine not the C2G Profile. I forgot I even sent that to you. I apologize. Now concerning your questions. On John's death certificate they stated his mother's maiden name was COUNCE.

see: <http://www.sos.mo.gov/images/archives/deathcerts/1913/1913_00019033.PDF>

Either Counce was a previously married name or her maiden name. On the burial records it states the following:

Palmer Cemetery, Palmer, Harmony Twp, Washington, Missouri, United States
WILKINSON, JOHN P. 14 FEB 1837 07 MAY 1913 S/O JEREMIAH & NANCY (STEARMAN)
WILKINSON. H/O MARTHA ANN (CASH) 10 SEP 1857. CO. I 33RD MO. INF. CIVIL WAR. TWO STONES, ONE MILITARY W/SURNAME WILKERSON, THE OTHER COMBINED WITH MARTHA W/SURNAME WILKINSON. CIVIL WAR RECORDS HAVE SURNAME WILKINSON OVER-WRITTEN WITH WILKERSON
WILKINSON, MARTHA ANN (CASH) 13 FEB 1840 19 NOV 1905 D/O WILLIAM & MARY (PETTY) CASH. W/O JOHN P. WILKINSON 10 SEP 1857.

Someone needs to investigate her C2G Profile to see if she had been a Counce or a Stearman. Floyd

Barbara, you are correct, the name is Smith, I see when I enlarged the census to 100%, that the tail of the P actually is the crossing of the T for the name Thomas on the next line merging with the m making it look like Spath. However, regardless of my miss-interpretation of the Smith name, I guess by your silence you have concluded the same that E.R. Smith is Nancy's son, Emmett Ray or Roy Davidson? Floyd

Even though Henry Winslow Pratt says he owned the home in the 1910 census, I could not find the deed recorded in Crawford County deeds. I checked 1881 to 1917 deed records and could not find an entry where Henry Winslow Pratt was grantor or grantee. The home that my aunts and uncles remember between Crows Creek and Brazil Creek (see map) belonged to Columbus Francois Missey, Laura's father. He had entered a deed for 120 acres on 20 April 1889. Either he sold the property to Henry Winslow Pratt and they never filed the deed or the land was given to his daughter and son-in-law as a gift. The deed records need to be searched from 1917 to Laura's death to find out when C. F. Missey sold that land or how it was disposed. -Floyd Thomas Pratt]

Dad said that Albert P. Pratt came to visit his mom and dad when he was 5/6 years old (1932-1933). Albert was driving a brand new Excelsior Convertible Automobile and had lots of money. That's all he remembers. The Excelsior-Mascot was a German manufactured in Cologne-Nippes from 1911 until 1922. Only a few, with two- and four-cylinder proprietary engines of 8 hp to 18 hp, were produced.-

Pl Greenlee, you have messed around with my Cradle To Grave Profile once again on Find A Grave Memorial# 63327383. When I submitted these records they were not open for censorship or modification by amateurs like yourself. Because of your actions, you have made me an enemy and when we meet across the veil you will have to answer to me for your interference. This work was commissioned by Heavenly Father and interfering with the data and details is prohibited. I have spent 38 years perfecting my research material and you are such a coward that you won't even respond to my emails and apologize or even explain your actions. Taking someone else's work and altering the content is not permissible without written permission and since the content belongs to the original author, not FAG, not the manager of the gravesite. you are legally liable. I have requested find-a-grave to remove my bio material from your gravesites but they are enept and seem to fail in responding to complaints. Because of your interference with my hard earned work and FAG's lack of response to my complaints, for these reasons I have withdrawn my fellowship from FAG and will no longer help those who need assistance with family members. You are the ONLY person in all the thousands of submissions I have made to FAG to alter, change and delete material on any of my submissions. Research Note

This person is quite a dilemma. She should be with Albert in the 1930 census since they were married in 1926. But I can't find him or her. Albert died at an early age (39) in 1936. So we know where she was in 1936 in Kansas City, MO. The only other piece of information we have in that she was under the age of 21 in 1926 and her father J. H. Shepard gave his consent to the marriage so we know she was in Sullivan, Franklin Co., MO in 1926. Dad said they moved to California and then back to Missouri. Also, Albert had a brand new Excelsior convertible automobile when he came to visit Lum & Rue when dad was 5 or 6 years old. That would be 1933 or 1934.

I checked 1881 to 1917 deed records and could not find an entry where Henry Winslow Pratt was grantor or grantee. The home that my aunts and uncles remember between Crows Creek and Brazil Creek (see map) belonged to Columbus Francois Missey, Laura's father. He had entered a deed for 120 acres on 20 April 1889. Either he sold the property to Henry Winslow Pratt and they never filed the deed or the land was given to his daughter and son-in-law as a gift. The deed records need to be searched from 1917 to Laura's death to find out when C. F. Missey sold that land or how it was disposed. -Floyd Thomas Pratt]

I personally knew Great Uncle Virgil, he was tall, at least six feet and average build. He had a medium complexion, and a very wrinkled face. I remember him because of his sense of humor. I can remember he laughed a great deal and he enjoyed being around his family. He was chopping wood when he was 10 years old and a wood chip struck him in the eye and eventually he lost vision in that eye. As told by daughter...Mary Jessie (**PRATT**) Ivie Dye. -Floyd Thomas Pratt

Eula was a lifelong resident of Bourbon. She was employed at Paramount Cap in Bourbon for 12 years, and was a member of the Slenderella Club.

She professed her faith in Christ, was baptized and a member of the First Assembly of God Church in Bourbon.

On February 27, 1926, she was united in marriage to Virgil Pratt who preceded her in death on January 21, 1971.

Surviving her are: three daughters, Thelma Rowland and husband David of Bourbon, Mary Dye and husband Dannie of Waynesville, Gay Slankard and husband, Leonard of Bourbon: three sons, Curtis Pratt and wife Wilma of Waynesville, Eugene Pratt and wife Norma of Perryville, 21 grandchildren; 31 great-grandchildren: other relatives and many friends.

Besides those previously mentioned she was preceded in death by a daughter, Rosalie Mayberry; three grandchildren; and three brothers, Orville, Curtis and Earl Richardson.

Funeral Services were held at 11am., Monday, May 7, 1990 from the First Assembly of God Church in Bourbon with Bro. Harold Harrison and Rev. Martin Ivie officiating. Interment was in the Hill Cemetery, Bourbon.

In Memoriam of Eula Viola (RICHARDSON) Pratt

What a hard life it must have been to have lost your young bride at the tender age of 26...when Jessie (**COFFMAN**) Richardson died. It was a shock to the whole community. William suddenly found himself a widower raising 4 children. Orville was 8 years old, Eula was 7 years old and Curtis was 5 years old and Earl was 2 years old and when their mom died, they also lost their beloved mother.

When trying times befall upon a family like this, they are sustained by their faith and somehow endure. This endurance is a credit to the human character and gives hope to those of us who follow.

Eula grew up around her family, uncle & aunts, brothers and grandparents. As the only daughter in the house she learned self reliance very quickly having to take care of three brothers and her father. You would have to have a very loving spirit to be able to cope with all those boys.

This hard working, self reliant, independent woman appealed to the rough rugged Virgil Ranson Pratt in 1926 when they began courting. Eula was 16 years old and that tall lanky Pratt boy must have been handsome.

After a period of courtship, a union took place on 27 February 1926 and another strong, outstanding family took its place in the Bourbon community.

My Great Aunt Eula, that I knew, in her latter years was mostly confined to a wheelchair. She was always happy to visit with her family at the annual Pratt Family Reunion held in Bourbon, Mo. held the second Sunday of September.

I remember she was very friendly and loving to all who took the time to visit her. Like all Pratt

François Columbier Columbus "Lum" Missey and Descendants

women, she was a great cook.

She took special interest in my family research and helped me with a great deal of information. She was a warehouse of knowledge about family and community history. After spending her whole married life in the Bourbon community, she knew everything that went on about the people.

At one family reunion I explained the reason for this research and was criticized by other family members. She told them "Hush, leave him alone", and quoted the biblical account of the Savior walking with his disciples, when they came upon other men not of their own faith teaching the gospel. The disciples criticized the men for teaching differently than what they taught, and the Savior told them to be quiet. He stated that if they are not against him then they are for him.

I was very moved by Great Aunt Eula's defense. I feel her support was from her understanding of this important work and I will always think of her with a warm loving feeling in my heart.

I wish I had spent more time with her concerning her life as a child growing up in Patsy and the Bourbon community. However, what always gets in the way of these interviews is time and responsibilities. Not enough time to take the time to get to know her better.

I miss her but will be seeing her soon.-Floyd Thomas Pratt

Date from 1930 census states he was born in

Date from 1940 census states he was born in

Date from death certificate states he was born on 3 January 1902 in Bourbon, Missouri.

Name Comment

It appears to be some confusion over his name. If you look at the 1910 census you will note that his father and mother call him Henry A. Pratt age 7. However, on the death certificate he is called Arthur Henry Pratt and the informant is Arthur H. Pratt. I think that he was called Arthur as he was growing up and figured that Arthur was his first name and Henry was his second name. In the 1920 census he is 17 years old and he is called Arthur H. Pratt. So, do we believe his mother and father when he is 7 years old? I believe he was born Henry Arthur Pratt and his family called him Art and he grew up using Arthur Henry Pratt.-Floyd Thomas Pratt

Research Note

Even though Henry Winslow Pratt says he owned the home in the 1910 census, I could not find the deed recorded in Crawford County deeds. I checked 1881 to 1917 deed records and could not find an entry where Henry Winslow Pratt was grantor or grantee. The home that my aunts and uncles remember between Crows Creek and Brazil Creek (see map) belonged to Columbus Francois Missey. He had entered a deed for 120 acres on 20 April 1889. Either he sold the property to Henry Winslow Pratt and they never filed the deed or the land was given to his daughter and son-in-law as a gift. The deed records need to be searched from 1917 to Laura's death to find out when C.F. Missey sold that land or how it was disposed. -Floyd Thomas Pratt

1970 John McCormick's Book (as it was written)

"Forest Hills and Vicinity" by John Steele McCormick, 1970, states the following about Henry Winslow Pratt family, Page 376:

5. Arthur, b. Jan 2, 1902; d. May 7, 1961; m. (1) Hazel Belle Stall of Kansas City; m. (2) Mrs. Beulah Cross of Detroit, Mich.; no children.

The Amazing Wives of Henry Arthur "Art" Pratt by Floyd Thomas Pratt F.H.C., M.A.G.I. 8 June 2008

Starting with the 1970 book, **"Forest Hills and Vicinity"** by John Steele McCormick, 1970, stated the following about the Henry Winslow Pratt family, on page 376;

5. Arthur, b. Jan 2, 1902; d. May 7, 1961; m. (1) Hazel Belle Stall of Kansas City; m. (2) Mrs. Beulah Cross of Detroit, Mich.; no children.

That's all I had, very little to go on, but the John McCormick book gave me a hint as to Art's first wife's name.

On the surface Hazel Belle sounds like given names Stall did not sound like a maiden name.

Checking ancestry.com resources left a blank. To make matters worse, Art and Hazel had not been listed in a census together to give me an age for her or a birth location. All I knew about her...she was Hazel Belle Stall from Kansas City, Missouri.

When researching deceased ancestors going from birth to grave in the normal

François Columbier Columbus "Lum" Missey and Descendants

procedure (C2G) or cradle to grave. However, when looking for recently live ancestors going from last point known to birth is the correct procedure. This was no exception.

Starting with the last known available census 1930, I was looking for a Hazel Belle Stall hopefully in Kansas City, Missouri. Longshot...Bingo!

Living at 6910 East 37th Street, Ward 14 Block 368, Kansas City, Jackson, Missouri, United States, page 160b, 12 April 1930, line 62, house 6910 was the following information:

STALL, Charles G head w m 52; Hazel B wife w f 36; **SCHWARTZ**, Albert sson w m 16; **DARNELL**, Harold D sson w m 19; **COZIAH**, James boarder w m 76; Joseph H boarder w m 45; **WALTON**, Ethel M boarder w f 40; **VINCENT**, Aden boarder w m 31; **PHILPOTT**, Elmer boarder w m 35; **STALL**, Harold nephew w m 22; **SALING**, Rutherford H boarder 69; Mary E boarder w f 65

[Charles was born in Missouri his parents in Germany; Hazel was born in Idaho her parents in Illinois; Albert was born in Wyoming his father in Pennsylvania his mother in Idaho; Harold was born in Wyoming his father in Iowa his mother in Idaho; Harold Stall the nephew was born in Missouri as was his parents. James Coziah, first married at age 21; Hazel's widowed father was born in Illinois and was his parents. Joseph H.[Harvey] Coziah first married at age 27; Hazel's divorced brother born in Iowa his parents in Illinois, Charles was first married at age 48, Hazel was first married at age 18. Charles owns a boarding house. Albert, Harold D, and Harold are single]

This census was the key to unlocking Hazel's life. It told me her husband's name Charles G. Stall and she had a son named Albert Schwartz age 16 born in Wyoming and another son named Harold D. Darnell age 19 in Wyoming and her father's name James Coziah age 76 from Illinois and a brother named Joseph Coziah born in Iowa..

It also told me that Hazel B. was 36 and born in Idaho. It also told me that Hazel's maiden name was Coziah, she had been married to a Schwartz, and she had been married to a Darnell. She had also been born in 1894 and was first married at age 18 in 1912.

Now it was time to arrange the order of these marriages and families. This was an unusual woman.

Timetracking...I went looking for her or her father or children in the 1920 census in either, Kansas City, Missouri, Wyoming or Idaho or Illinois maybe Iowa. Longshot...Bingo!

In the 1920 census of Freedom Precinct, Election District 13, Lincoln, Wyoming, United States, page 122b, 13 February 1920, line 96, farm 249, family 266 I found the following:

COZIAH, James head w m 61; **BELLAMY**, Hazel dau w f 27; Harold gson

François Columbier Columbus "Lum" Missey and Descendants

w m 9; Albert gson w m 5

[James is a widower and was born in Illinois as was his parents, Hazel is a widow and was born in Idaho her parents were born in Illinois, Harold and Albert were born in Wyoming, their father in Iowa, their mother in Idaho. James is a farm laborer.]

This threw another wrench in the works...Hazel had married a Bellamy! Now, let's get this straight, there was Great Uncle Art Pratt, Charles G. Stall, ? Bellamy, ? Schwartz and ? Darnell...so far.

The 1920 census told me that she was a widow, since son; Harold D. Darnell was born in 1911 in Wyoming this gave me an approximate marriage date to ? Darnell. Albert Schwartz was born 1915 also in Wyoming; this also gave me an approximate marriage date to his father between 1911-1915. Also it said that Harold and Albert's father were born in Iowa.

Timetracking...I went looking for her in the 1910 census...who knows what her surname would be this time? Longshot...Bingo!

I was amazed to find her in the following:

The 1910 census of Red Oak City, Ward 2, Montgomery, **Iowa**, United States, page 123a, 26 April 1910, line 69, house 1211, dwelling 324, family 333 living with her Aunt and Uncle.

KIRBY, Edward head w m 27; Stella wife w f 34; Opal dau w f 2; unnamed son w m 3/12; **COZIAH**, Hazel niece w f 17

[Edward was born in the United States his parents in England. Stella (**COZIAH**) was born in Iowa her parents in Illinois. Opal & unnamed were born in Iowa their father in US their mother in Iowa. Hazel was born in Idaho her father in Illinois her mother in Iowa. Hazel is a housekeeper living with her Aunt Stella. This is Edward and Stella's first marriage and they have been married for 3 years. Stella says she had had 2 children born and 2 are living.]

This census verified that Hazel was a COZIAH and using her maiden name. She was consistent with the birthplaces of her parents. It also gave me a clue that her Aunt Stella was a COZIAH before she married Edward Kirby.

So far, what this told me was that Hazel married Darnell first and right after this census date. Her son, Harold Darnell was born in 1911 in Wyoming. So, either she married in Iowa or for some reason she moved to Wyoming before Harold's birth.

The next step, you guessed it...look for the 1900 census. Bingo! Not what I was looking for. I was looking for her father, mother and siblings since she was born in 1894 she should be 6 years old.

Here's what I found...1900 census of Cokeville Precinct, Election District 5, Uinta, Wyoming, United States, page 185a, 8 June 1900, line 1, house 56, family 56 with the following:

STOFFERS, Claude head w m born February 1865 age 66; Annat wife w f born

François Columbier Columbus "Lum" Missey and Descendants

October 1852 age 47; Fredrick son w m born July 1871 age 28; Laroncy son w m born March 1876 age 24; Laura P. dau w f born February 1878 age 22; Louella dau w f born April 1882 age 18; Johnny son w m born May 1884 age 16; George E. son w m born December 1886 age 13; Oscar son w m born March 1893 age 7; **COZIAH**, Hazel boarder w f born January 1893 age 7; **TITTENGER**, Voluta boarder w m born May 1885 age 15

[Hazel was born in Idaho her parents in Illinois. Her father; James Coziah and sister Ethel Coziah are boarders in separate homes a few houses away. It appears James could not handle all four children after the death of their mother, so he split them up in different houses.]

This was unfortunate...no intact family. This told me that a great tragedy had befallen this family.

Checking neighbors I saw that other Coziah children had been spread out over the Wyoming territory. This told me from experience that when a widowed spouse has to contend with a large family, they needed help; neighbors and friends were the best choice.

My heart began to sorrow for this fragmented family and I wondered what else I would find. Checking the New Family Search files (NFS) on my church's website for a James Coziah born 1863 in Illinois, I found some help.

James J. Coziah born 31 August 1863 at Galesburg, Knox, Illinois, United States to Joseph (1840-1911) & Nancy (18342-1907) (**WOOLEY**) Coziah from Iowa and Illinois. He had married Eva May (**OSTRADER**) on 1 January 1886 in Atwood, Rawlins, Kansas, United States.

KANSAS!!! KANSAS!!! In my 35 years of research I have never seen anything like this family.

New Family Search information is submitted by church members. Most of the time, they fail to document their information. Remember, genealogy without documentation is mythology!

The submitters said that Eva died on 14 November 1893 in Logan, Utah. Based on my research into James Coziah, I was able to piece together a chronological history of his family.

James J. Coziah

James J. Coziah is born in 1863 in Galesburg, Knox, Illinois, United States, by the 1870 census he is living near the Colfax Post Office, Mound City Twp, Jasper, Iowa, United States with his parents.

By the 1880 census he is still with his parents and living in Mound Prairie Twp, Jasper, Iowa, United States.

By 1886 he has moved to Atwood, Rawlins, Kansas, United States and marries Eva

May (**OSTRANDER**).

During that year he moved from Kansas to Des Moines, Polk, Iowa, United States where his son; Joseph Harvey Coziah is born on 7 September 1886. On 20 August 1887, a daughter; Ethel May (**COZIAH**) is born.

Sometime after 1887 they moved from Des Moines to Sun Valley, Logan, Idaho, United States.

I know you are saying, what possessed them to move there. You'll have to ask them.

Son; Frank Lee Coziah is born on 13 March 1889 in Sun Valley, Logan, Idaho, United States. Daughter; Hazel Belle (**COZIAH**) is born on 6 December 1892 and on 14 November 1893 the family losses their mother and James lost his wife; Eva May (**OSTRANDER**) Coziah.

With 4 children all under 7 years of age, and the prospects of remarriage in the western wilderness unlikely, he places his children with local families.

In the 1900 census he is living in the Cokeville Precinct, Election District 5, Uinta, Wyoming, United States with **OLSON**, Peter W 33; Fannie 28; Arthur G 4; Leslie K 3; Tressie M 9.12; **JOHNSON**, Millie 15; **COZIAH**, James boarder w m born August 1858 age 41; **McKEE**, John 42; Clara 26

[James was born in Illinois as was his parents. He is a ranch laborer. His daughter Ethel is living with the Henry Wheelock family on page 184a; his daughter Hazel is living with the Claude Stoffer family on census page 185a.]

James daughter Ethel is living with the Henry Wheelock family on census page 184a; James daughter Hazel is living with the Claude Stoffer family on census page 185a. His son Joseph is living at Nuphar Precinct, Election District 5, Bear Lake, Idaho, United States, page 313b, 27 June 1900, line 67, house 262, family 267 with **MILLER**, John O 32; Mary E 23; Boyd C 6; Mabel C 4; **COZIAH**, Joseph foster son w m born September 1885 age 14
[Joseph was born in Iowa and he didn't know where his parents were born. He goes to school.]

His son Frank is living with his grandparents at Hilburn Twp, Madison, Arkansas, United States, page 150a, 18 June 1900, line 43, house 235, family 245 with **WOOLLY**, Silas E. head w m born March 1836 age 64; Ellen K. wife w f born August 1834 age 65; **COSIAH**, Frank L. gson w m born March 1891 age 9
[Silas was born in Illinois, his father in Kentucky and his mother in Indiana, Kate was born in New Jersey as was her parents, Frank was born in Idaho as was his parents.

Silas was first married at age 43, Ellen at age 43. Ellen has had 3 children born and 0 are living. Silas is a farmer and is renting.]

By the 1910 census James is in Pilot Grove Twp, Montgomery, Iowa, United States.

Delbert Vail and Hazel Belle (**COZIAH**) Darnell Schwartz Bellamy were married from 1920 to 1926.

Delbert Vail and Hazel Belle (**COZIAH**) Darnell Schwartz Bellamy Vail were divorced in 1926.

Charles G. Stall and Hazel Belle (**COZIAH**) Darnell Schwartz Bellamy Vail were married after 1926 before 12 April 1930 census date.

This is the census that started it all.

And then Hazel shows up in the 1930 census of 6910 East 37th Street, Ward 14 Block 368, Kansas City, Jackson, Missouri, United States, page 160b, 12 April 1930, line 62, house 6910 with **STALL**, Charles G head w m 52; Hazel B wife w f 36; **SCHWARTZ**, Albert sson w m 16; **DARNELL**, Harold D sson w m 19; **COZIAH**, James boarder w m 76; Joseph H boarder w m 45; **WALTON**, Ethel M boarder w f 40; **VINCENT**, Aden boarder w m 31; **PHILPOTT**, Elmer boarder w m 35; **STALL**, Harold nephew w m 22; **SALING**, Rutherford H boarder 69; Mary E boarder w f 65

Charles G. Stall and Hazel Belle (**COZIAH**) Darnell Schwartz Bellamy Vail Stall were divorced or she was widowed after 1930.

Sometime after the divorce or widowhood of Charles G. Stall, Henry Arthur "Art" Pratt or Arthur Henry Pratt and Hazel Belle (**COZIAH**) Darnell Schwartz Bellamy Vail Stall were married after the divorce date and before 1939, probably in the Kansas City area.

Hazel Belle (**COZIAH**) Darnell Schwartz Bellamy Vail Stall Pratt became a member of the Church of Jesus Christ of Latter Day Saints and was baptized on 2 September 1934.

Henry Arthur "Art" Pratt or Arthur Henry Pratt and Hazel Belle (**COZIAH**) Darnell Schwartz Bellamy Vail Stall Pratt moved from Kansas City, Jackson, Missouri, United States to 2633 Park Avenue, Saint Louis, Missouri, United States sometime in the 1930's.

Email from Pat Jameson on 3 May 2009

I met Hazel in California in the 40's while on a visit with my grandmother, Jessie Sizemore. We had lunch at her home and at that time, I believe she was married to a Pratt. They had a lovely home with a basement full of beautiful furniture from all over the world. But that is all I can remember.

She was the first wife of Delbert Vail who became the husband to my grandmother, Jessie Sizemore. Delbert Vail died and years later, my grandmother had her own temple sealing to Joseph Harvey Coziah set aside and was sealed to Delbert Vail on October 24, 1967 in the Oakland Temple. In NFS, it shows someone re-did this sealing March 5, 2008 in the Cardston Temple. Hazel and husband (Bellamy) had 2 children (Harold and Albert).

I do not know when Ellen Katherine Coziah married the second time to Silas E. Wooley (who happens to be related to another member of my family). Her death therefore, would be listed as Ellen Katherine Wooley. She is in one of the census as living as a widow with Eva May Coziah.

Eva May Ostrander was born 19 March 1868 in Galesburg, Knox, Illinois.
Eva May Ostrander Coziah died November 14, 1893 in Sun Valley, Idaho.

My notes on Ellen Katherine Price are - Home in 1880 was Wataga, Knox, Illinois per the 1880 Census. Mother and Father were both from New Jersey.
1910 census shows Kate E. married to Silas E. Wooley and her age as 75.

I am 73 years old and have been on 2 missions to Salt Lake City working on the NFS starting in 2002. I teach in the FHC on Sunday and work there on Wednesdays. I work in the Houston Temple Office on Thursday mornings. I am on a Service Mission now out of Salt Lake. I work with Quality Assurance checking the e-mails that Salt Lake missionaries send out to make sure they are kind, helpful and correct. Sister Jameson, my interest in the Ostrander and Coziah families comes from Hazel Belle (**COZIAH**). These two families have been a real pain to research. I have never seen in my 35 years of family history research a family move around so much. Hazel's 6th husband was my Great Uncle; Henry Arthur "Art" Pratt.

Concerning the Ostranders they were fun to research up to a point...after Henry P. Ostrander married a second time. Henry had married first Angeline () born 1811 in New Jersey listed in the 1850, 1860 census records. They had...6 verified children. Angeline died after the 1860 census and before her husband's second marriage to Ellen Catherine "Kate" (**PRICE**) you mentioned above. Now it gets sticky.

When I researched the Ostrander's I did not go into detail because my interest was the Coziah line. But after your inquiry and email I decided to investigate the Ostrander family line. This is where I ran into a problem. I thought that I had gotten my information from New Family Search, which is how I found you are a member, and upon investigation did not find the answers there.

I thought maybe I found this info from ancestry.com "trees" and did find others but it looks like they copied what I had put in. So, at this point I don't know where I made the connection and after investigation I now think that Jeremiah B. & Huldah (**SALTER**) Price (1850, 1860, 1870 census) are not her parents. I am not sure that she is even a Price.

Somewhere, someone gave me that info otherwise I would not have put it into my records. One of the problems with Ellen Katherine is she did not know how to tell the truth when it came to her birth year. In the 1870 census she says she is 35, same for the 1880 census. In the 1900 census she finally states she was born August 1834.

Do you know when she died? I figure between 1917-1920. This is where I lose her in the records. It is imperative that we find her death certificate or death notice in the newspapers in order to verify her parents. After looking at Jeremiah Price's census records in New Jersey, I believe his daughter Ellen A...; who was 5 in 1850 and Ellen 15 in 1860 and he had a dau Annie E. age 25 in the 1870 census which looks like Ellen Annie (**PRICE**) is not our Ellen Catherine "Kate" () that married Henry P. Ostrander around 1866-1868. Getting a copy of Eva May (**OSTRANDER**) Coziah's death certificate or newspaper obit might disclose her mother's maiden name.

If Ellen died between 1917-1920 do you have a copy of her death certificate? Probably in Lincoln County, Wyoming.

In the 1910 census she states that she and Silas were married around 1880-1881. This exact date would be helpful. If you are doing the temple work for this family let me know and I will let you do it. If not then I will process these family members.

End of emails

If all goes well, I plan on a trip to visit Dad in September and he said he would show me the house that Art and Hazel lived in Bourbon and it turns out that Art's second wife Beulah lived there. If I get to go, I will take a picture for those of you who are interested.

Hazel had 6 husbands and maybe more. She had 2 known children and maybe more.

With all that she had been through and all of her trials and difficulties, she still managed to find the time to listen to the spirit and heed the calling for membership in the Church of Jesus Christ of Latter Day Saints.

I have a great respect and admiration for Hazel; I feel she was an amazing woman. I am looking forward to meeting her.

Beulah Trassy (COFFMAN)

After Hazel's death in 1959, Art married his second wife; Mrs. Beulah Cross from Detroit, Michigan.

All I had to go on was John McCormick's statement *Mrs. Beulah Cross of Detroit, Michigan*.

This appeared to be impossible to track since I was looking for a marriage after 1959 and before Arthur's death on 7 May 1961.

So, I had resigned myself the obvious...someone else will have to figure out this mystery.

However, sometimes I feel the Lord moves mountains to solve mysteries especially when eternal consequences are involved.

For 35 years since I had known about Mrs. Beulah Cross of Detroit, Michigan, no one else in my family circles knew about her much except Dad, he said that Art and Beulah lived in Art's house in Bourbon, Missouri when Art died.

She lived in the home for a while after Art's death and then apparently moved back to Michigan. But, wait, I am getting ahead of myself.

One thing I knew; Cross was not her maiden name and she had lived or did live in Detroit.

François Columbier Columbus "Lum" Missey and Descendants

With no census information to help, no death certificate, no marriage records, I had nothing...until.

I had self imposed a deadline to finish with this genealogy research by December 2010 when my annual subscription to ancestry.com renewed. I was going to be done once and for all after 35 years and wanted to start and finish some other projects I had started.

So, I worked my way down through my 27,000 people in this Pratt Progenitor Papers family tree starting with Henry Pratt, then updating the Carters, then each of Henry and Nancy's children and their spouses and parents, working my way from generation to generation to me.

When last month I got to Ambrose James Missey and Parry Jane (**RICHARDSON**) family and began updating the Richardsons, Parry Jane's brother is William Eli "Pete" Richardson who married Jessie (**COFFMAN**) on 5 January 1907 at Steelville, Meramec Twp, Crawford, Missouri, United States.

William and Parry's parents are George Washington & Mary Lucinda "Cindy" (**HOLLINGSWORTH**) Richardson, old family in Crawford County, Missouri.

So, as I began my updating of William & Jessie (**COFFMAN**) Richardson family I remembered that one of their children is my great Aunt Eula Viola (**RICHARDSON**) who married my great uncle Virgil Ranson Pratt, brother to Henry Arthur Pratt.

Aunt Eula as we called her was a storehouse of knowledge and information about the people and families in Bourbon and surrounding communities. She was amazing!

But, unfortunately, although I had asked hundreds of questions, I didn't ask all the right questions when she was alive and now I go asking questions to people who just don't know.

That's where the Lord helps.

As I was filling in the blanks on Jessie (**COFFMAN**) Richardson, Aunt Eula's mother, I began my update on Jessie' parents; Joseph Lafayette "Fate" & Elizabeth Isabelle "Izzie" (**DAVIS**) Coffman.

You may ask what is "updating"? Updating is setting in logical order events and documents in a person's life that can be found in courthouses, like deeds, marriages, court records and cemeteries, census records from 1790 to 1930 and land records, military participation and any other records, like pictures, stories from other family members and the most neglected and untapped source...newspapers.

After I have assembled these records I set them in chronological order and call it the Cradle to Grave Profile. (C2G) I post these profiles on ancestry.com and send them to interested parties knowing that this information will give them a boost in their

François Columbier Columbus "Lum" Missey and Descendants

research so they don't have to repeat my 35 years of research. Saving them hundreds if not thousands of hours of research.

Sometimes these profiles are several pages long. Depends on how long the individual lived and how active they were in their community.

As I was updating Fayette & Izzie's family, Jessie (**COFFMAN**) happened to be the oldest child. After Jessie came her sister; Myrtle Ellen (**COFFMAN**) who married Arthur S. Lindsey. Followed by each child until I have all I can find and know on each individual, their spouses and their spouse's family.

Fayette & Izzie's had 10 children that we can verify and 3 we can't. When I got to child number 7, whom was Beulah Trassy (**COFFMAN**).

Going to ancestry.com to find out what others knew about her I found 9 trees with very little to no information on her...except one tree.

One tree had two husband's for her a Cross and a James. When I saw the Cross surname a bell went off in my head that was so loud I am sure others in the neighborhood could hear.

I began to start checking. I contacted that person on ancestry but she was very vague about Beulah and said that Beulah had been married 5 or 6 times. She said she knew a cousin, son of Beulah named Bobby Cross that had information about his parents.

I asked her to get him in touch with me and she has not replied. She kept giving me incorrect information about the Coffman family even though she claimed to have known them. She left children out of the family and made other claims that were proven false.

However, when I told her that I thought my Uncle Henry Arthur Pratt was married to Beulah, the next day she had updated her tree with that information...willing to accept others information but not willing to share...or even a thank you.

Nevertheless, I found through another researcher Beulah's headstone and picture on Find-A-Grave, which also listed Beulah's other husbands.

It appears that Beulah Trassy (**COFFMAN**) was a busy girl. Her first husband is listed as James Thomas Beauten born 1898 in Equality Twp, Gallatin, Illinois, United States and before the 1920 census he had moved to Detroit, Michigan.

I was able to find him in the 1900, 1910 and 1920 census before I lost him. If he did marry Beulah Trassy (**COFFMAN**) then the record must be in Michigan.

Her second husband was Charles Spoel. Could not find anything about him.

Her third husband and this is confusing, she is listed in the 1925 & 1930 Kansas census with a Richard Cross.

François Columbier Columbus "Lum" Missey and Descendants

However, the person on ancestry.com whom I previously spoke about who was supposed to know her son; Bobby Cross put in her tree that his father was Kenneth Archibald Cross born 21 November 1906 at in Switz City, Greene, Indiana, United States <<http://places.ancestry.com/index.aspx?tid=5479606&pid=678296183&eid=10570846855>> and died 6 August 1975 in Belleville, Wayne, Michigan, United States.

I am a little afraid of this information because two days ago it was not there and now it shows up without explanation. She failed to list a marriage date and with her history of conflicting information it is hard to determine who really was Beulah's 3rd husband; Richard Cross of Kansas or Kenneth Cross of Indiana.

Therefore, until further evidence can be documented I am not convinced who her ? Cross husband was.

It appears that Henry Arthur "Art" Pratt was her 4th husband. No marriage location or date has been found but I figure Crawford County, Missouri, St. Louis, Missouri or Kansas City, Missouri holds the marriage record.

This marriage took place after the death or divorce of her 3rd husband and after the death of Art's first wife Hazel Belle (**COZIAH**) Pratt in 1959.

Knowing Art, at age 57 he would not have been running around up to Detroit, Michigan to get married. Beulah was probably down in Crawford County, Missouri visiting relatives and met widower; Henry Arthur "Art" Pratt.

They were married between 1959 and 1961 either in St. Louis or Crawford County or elsewhere and she moved in with Art at Bourbon, Missouri. She attended the local Pratt family reunions held in each September and became good friends with my Aunt Mary Edith (**PRATT**) Skaggs.

After the death of Uncle Art in 1961, it is unknown how long she lived in their home before she moved back to the Detroit area where she married her 5th husband, Clifford D. James.

Clifford died in May 1973 and was buried at Parkview Memorial Cemetery, 34205 5 Mile Road, Livonia, Wayne, Michigan, United States.

Beulah Trassy (**COFFMAN**) Beauten, Spoel, Cross, Pratt, James died on 4 January 1984 at Taylor, Wayne, Michigan, United States. She is buried with 5th husband; Clifford D. James.

On Find-A-Grave they posted a picture of her and a picture of the joint headstone with her husband at Parkview Memorial Cemetery, 34205 5 Mile Road, Livonia, Wayne, Michigan, United States. You can access this at <<http://www.findagrave.com/cgi-bin/fg.cgi?page=gr&GSIn=James&GSiman=1&GScid=1344&GRid=7106224&>>

I don't believe I would have purposely researched this person if I had not seen one of her husbands was a Cross.

François Columbier Columbus "Lum" Missey and Descendants

The coincidence of a Mrs. Beulah Cross from Detroit, Michigan as John McCormick's book stated to be located was too much of a long shot.

However, what drew my interest to this Beulah was that she was born in Crawford County, Missouri, had married a Cross and was from Detroit, Michigan.

After hard research and many, many hours in these records I was able to put two and two together and connect Arthur's mystery 2nd wife listed in John McCormick's book as Mrs. Beulah Cross from Detroit, Michigan as one and the same as Beulah Trassy (**COFFMAN**) Beauten, Spoel, Cross, Pratt, James.

Great Uncle Art seems to have had a penchant for woman who had multiple husbands.

So, there you have it. A great mystery concerning two outstanding women and how they crossed the path of my great Uncle Henry Arthur "Art" Pratt. A 35-year or more mystery has been solved.

After I disclosed my findings on ancestry.com, now I see many of those 9 trees that knew nothing before about Beulah's husbands have now updated their trees with my information and added Henry Arthur "Art" Pratt as one of her husbands.

That is my purpose and mission...to shake up a complacency of apathy in the genealogical world about record keeping and research techniques.

I have attempted to set a prime example of how research should be conducted and produced. Based on my findings you can write a biography of any individual using my sources.

And you may ask, where did the spark that enlightens and guides your mind originate...from my Heavenly Father, of course. Floyd Thomas Pratt F.H.C., M.A.G.I.

Date from the 1920 census states she was born 1893 in Idaho.

Date from the 1930 census states she was born 1894 in Idaho.

Date from the death certificate states she was born 6 December 1892 in Idaho.

Since her mother died 14 November 1893 at Sun Valley, Logan which later became Blaine County, Idaho, United States, I would suspect that is where she was born.

I met Hazel in California in the 40's while on a visit with my grandmother, Jessie Sizemore. We had lunch at her home and at that time, I believe she was married to a Pratt. They had a lovely home with a basement full of beautiful furniture from all over the world. But that is all I can remember.

She was the first wife of Delbert Vail who became the husband to my grandmother, Jessie Sizemore. Delbert Vail died and years later, my grandmother had her own temple sealing to Joseph Harvey Coziah set aside and was sealed to Delbert Vail on October 24, 1967 in the Oakland Temple. In NFS, it shows someone re-did this sealing March 5, 2008 in the Cardston Temple. Hazel and husband (Bellamy) had 2 children (Harold and Albert).

I do not know when Ellen Katherine Coziah married the second time to Silas E. Wooley (who happens to be related to another member of my family). Her death therefore, would be listed as Ellen Katherine Wooley. She is in one of the census as living as a widow with Eva May Coziah.

François Columbier Columbus "Lum" Missey and Descendants

Eva May Ostrander was born 19 March 1868 in Galesburg, Knox, Illinois.
Eva May Ostrander Coziah died November 14, 1893 in Sun Valley, Idaho.

My notes on Ellen Katherine Price are - Home in 1880 was Wataga, Knox, Illinois per the 1880 Census. Mother and Father were both from New Jersey.

1910 census shows Kate E. married to Silas E. Wooley and her age as 75.

I am 73 years old and have been on 2 missions to Salt Lake City working on the NFS starting in 2002. I teach in the FHC on Sunday and work there on Wednesdays. I work in the Houston Temple Office on Thursday mornings. I am on a Service Mission now out of Salt Lake. I work with Quality Assurance checking the e-mails that Salt Lake missionaries send out to make sure they are kind, helpful and correct. The computer has a knowledge base that can be reached through the Help Center on the front page of NFS. Lets keep in touch and work together on this mutual line. Thanks for your information. Pat

Sister Jameson, my interest in the Ostrander and Coziah families comes from Hazel Belle (**COZIAH**). These two families have been a real pain to research. I have never seen in my 35 years of family history research a family move around so much. Hazel's 6th husband was my Great Uncle; Henry Arthur "Art" Pratt.

Concerning the Ostranders they were fun to research up to a point...after Henry P. married a second time. Henry had married first (Angeline (_____) born 1811 in New Jersey listed in the 1850, 1860 census records). They had...6 verified children. Angeline died after the 1860 census and before her husband's second marriage to Ellen Catherine "Kate" (**PRICE**). Now it gets sticky.

When I researched the Ostrander's I did not go into detail because my interest was the Coziah line. But after your inquiry and email I decided to investigate the Ostrander family line. This is where I ran into a problem. I thought that I had gotten my information from New Family Search, which is how I found you are a member and upon investigation did not find the answers there. I thought maybe I found this info from ancestry.com "trees" and did find others but it looks like they copied what I had put in...so at this point I don't know where I made the connection and after investigation I now think that Jeremiah B. & Huldah (**SALTER**) Price (1850, 1860, 1870 census) are not her parents. I am not sure that she is even a Price.

Somewhere, someone gave me that info otherwise I would not have put it into my records. One of the problems with her is she did not know or tell the truth when she was born. In the 1870 census she says she is 35, same for the 1880 census. In the 1900 census she finally states she was born August 1834.

Do you know when she died? I figure between 1917-1920. This is where I lose her in the records. It is imperative that we find her death certificate or death notice in the newspapers in order to verify her parents. After looking at Jeremiah Price's census records in New Jersey, I believe his daughter Ellen A...; who was 5 in 1850 and Ellen 15 in 1860 and he had a dau Annie E. age 25 in the 1870 census which looks like Ellen Annie (**PRICE**) is not our Ellen Catherine "Kate" () that married Henry P. Ostrander around 1866-1868. Getting a copy of Eva May (**OSTRANDER**) Coziah's death certificate or newspaper obit might disclose her mother's maiden name.

If Ellen died between 1917-1920 do you have a copy of her death certificate? Probably in Linclon

François Columbier Columbus "Lum" Missey and Descendants

County, Wyoming.

In the 1910 census she states that she and Silas were married around 1880-1881. This exact date would be helpful. If you are doing the temple work for this family let me know and I will let you do it. If not then I will process these family members.

Research Note

From the 1930 census we know that Earl, Richard, James and William are Beuten children from Beulah's previous marriage to James Thomas Beuten. Therefore, it appears that son Harold and maybe Gertrude and Marjorie may have also been Beuten children. If this is true, then James and Beulah were divorced after 1931 and before 1934. Since Beverly was born in 1935, this would indicate that Charles Spoel and Beulah Trassy (**COFFMAN**) Beuten were married 1933-1935. Giving the children your present spouse's surname was customary in mixed families. Hi Floyd, it's Marti...I know the most out of anyone left in the family!...I was very close to ALL of my Grand Aunts & Uncles Myrtle, Annie, Lafayette Joseph, Beulah & Dan....I was raised as an only child, so I got alot of attention! As far as Aunt Beulah, she was married about 5-6 times!!...I used to run round with her son Bobby Cross and his wife....She was married last to a guy last name of James...I remember one of husbands died just as soon as they were married! One their honeymoon I think? Anyway, everyone lived up here in Michigan other than Annie and later on Uncle Lafe went down to Florida were he died and my GrMa Pearl died down In Litchfield,Illinois on 8/13/1973

Research Note

Matri is talking about Art Pratt but he didn't die on their honeymoon. Art and Hazel lived in Bourbon, Missouri in the house that Art owned. Hazel was known by the community. FTP

Marti are you same as Margaret at SmartiMarti716@aol.com? Did you happen to get a listing of those husband's with marriage dates and location? I believe I have one more to add to the list. Floyd

Email from Margaret/Marti on 6 June 2010

Yes I'm The same!...I'd have to ask Bobby Cross, Beaulah's son to get all of her husbands names...The one in Kansas Richard Croos was Bobby's dad..I still have a lot packed up from our move from Livonia,MI to Brighton,MI...My mom isn't doing well (she's dwindling) and I've been ill as well...But the only siblings that had children were Jessie,GrMa Pearl,Beulah. Myrtle,Lafayette,Annie & Daniel didn't. I think that Dan may have had a son but I was so young when he died ??

Email sent to Margaret/Marti on 6 June 2010

Yes Marti if you could contact Bobby Cross for that information, I believe Beulah married my greatuncle Henry Arthur Pratt. Find out from him any marriage dates or locations. For instance I can't find Beulah in the 1930 census. Did she marry Richard Cross before the 1930 census or after? If my hunch is correct, this will fill in a mystery and tie up a lose end. Floyd

Marti, You profess to know so much about his family how can you miss all the known children? What about their son; Ralph who apparently died before the 1920 census because I can't find anything about him?

1903 Childbirth of son; Ralph Coffman

Ralph Coffman was born in either Meramec Twp, Phelps, Missouri, United States or Courtois Twp, Crawford, Missouri, United States in 1903.

1906 Childbirth of daughter; Beulah (COFFMAN)

Beulah (COFFMAN) was born in either Meramec Twp, Phelps, Missouri, United States or Courtois Twp, Crawford, Missouri, United States in 1906.

1907 Childbirth of son; Daniel "Dan" Coffman

Daniel Coffman was born in either Meramec Twp, Phelps, Missouri, United States or Courtois Twp, Crawford, Missouri, United States in 1907.

1910 Childbirth of daughter; Clara (COFFMAN)

Clara (COFFMAN) was born in Courtois Twp, Crawford, Missouri, United States in March 1910.

1910 Federal Census

Courtois Twp, Crawford, Missouri, United States, page 44a, 2 May 1910, line 1, house 218, family 222

COFFMAN, Fayette head w m 49; Isabelle wife w f 32; Pearl dau w f 19; Lafy son w m 12; Anna dau w f 10; **Ralph son w m 7**; Beulah dau w f 4; Daniel son w m 3; Clara dau w f 3mos; Daniel brother w m 51

[All born in Missouri including their parents. They have been married 21 years and **10 children** have been born and **7 are living**. This is both their first marriage. Fayette is a miner at the iron works and they are renting.]

Also, If you notice that Isabelle says she has had 3 children die before the 1910 census date of 2 May 1910. I can not identify any who did not make it past 1910.

Eula died in 1990.

Please answer my questions when I write to you to ask. You are replying and missing some of my questions.

I am a professional genealogist and have been researching the families in the Franklin, Crawford and Washington Counties for 35 years...so I do my homework before I make claims and statements. I have many rare research books to consult and I use all of my resources to dig out the details. You should be thankful that I am taking an interest in the Coffman family and allied lines and instead of fighting me on this material you should be assisting me so we both can learn.

I am tackling the Coffmans and Richardson families in honor and respect to my Great Aunt Eula. I loved her dearly and in her latter years after the 1980's she was confined to a wheelchair and could not get around much...but she was a storehouse of family history and knew everything about everyone around Bourbon.

Of course, when your Coffmans moved from Crawford to Michigan, everyone lost track.

[1] Are you a member of the Church of Jesus Christ of Latter Day Saints?

[2] Who was the first group to move to Michigan and when did the others follow?

[3] What took them to Michigan?

[4] Have you checked the death certificates for Joseph Lafayette "Fate" Coffman after 1930 in Michigan?

Floyd....I have ALL of the children on my tree, So I dont know what your trying to say??...The kids were Jessie,Myrtle,Pearl,Annie,J.Lafayette,Beulah,Daniel & baby Edith....WHOEVER, put others in their trees DO NOT know what in the heck they are doing...I KNEW each and everyone VERY well, other than Jessie & Edith because Edith was a baby at time of death and Jessie was before mine & mom's time...I have verified ALL members within my GrMa Pearls journals, Aunt Oma (prior to death, and my cousin Shirley...These are direct family members of my mother....I think I know who is who.....I have Not missed the known children....And is Ralph....I sure didn't enter that name in my tree....Check out whose tree you looked at...It sure wasn't mine!!...Mine is Compton-Coffman....Also, I do know that some lady has a tree and threw a bunch of people in it from Texas I believe??

Also the other day you wrote that all kids were born in Courtois,Mo and that's WRONG...I have my GrMa Pearls stuff and she, Myrtle,Annie,Lafe,Beulah & Dan were born in Meramec,Phelps,MO....So PLEASE dont try and tell me what I'm doing wrong....I'm totally correct...And Beulah is Bobby Cross's mother, the one you think might have been married to your uncle ? Pratt?? She was married 5-6 times...I know of Cross & James

Research Note

Marti's research is full of holes. She was supposed to know Richard's son; Bobby Cross, but she has now put in her tree that Bobby's father was Kenneth Archibald Cross born 21 November 1906 at Switz City, Greene, Indiana, United States and died 6 August 1975 in Belleville, Wayne, Michigan, United States.

After checking out the details, I found records in conflict with her statements, so I am a little afraid of this information because two days ago, that information was not in her tree, now it shows up without explanation. She failed to list a marriage date and with her history of conflicting information it is hard to determine who really was Beulah's 3rd husband; Richard Cross of Kansas or Kenneth Cross of Indiana.

Therefore, until further evidence can be documented I am not convinced who her Cross husband was. Finding the marriage license would prove Beulah and Kenneth Cross' relationship.

Email from Celina Pearson celinaj@verizon.net 20 June 2010

Hi Floyd, Beulah is my great grandmother who married quite a few times after the divorce from my great grandfather who was her first husband (James Beauton). Henry Pratt was someone she must have met when she returned to Missouri sometime in the mid to late 50's. not much was known of him and it wasn't until their marriage record surfaced that it raised quite a few questions. Do you know of anything about their short marriage together? Any stories? We don't know what ended the marriage to Henry Pratt. When did he die and where?

Beulah was born in Steelville, Crawford Co., Missouri and had quite a disrupted childhood. Her mother died when she was just 4 years old and it was up to her father and older siblings to raise

her. At the age of 14 she married her first husband in St. Louis, MO and then auto boom hit in Detroit during the early 1920's. She moved to Detroit with her first husband so that he could find work in the auto factory. Celina

KissinCuzzins Simply Amazing!: My word, did the earth shake? When I was contacted back in 2010 by you RE: my Grand Aunt Beulah T. Coffman-Beuten-Spoel-Pratt-Cross-James (ewww that's a lot!)...I was "the missing link"...Even Beulah's GGD Celina had only seen her twice in life (she's the Beuten GGD) and she also contacted me, not realizing that my GrMa "Pearl Lillian "June" Coffman was Beulah's older sister. Once again, I did not have very little to contribute, I had A LOT, for all other immediate family members are/were deceased.

Knowing "all" of my GGMA Izzie Davis's children personally, other than Jessie Coffman...I grew up around them...I was the road map! Once again, I myself have been suffering with Cancer, etc, was in the midst of losing my Mother, but can not get an apology...just slammed in your 34th (or so) book ??? Saying that I did not have credible, first hand info ?? It's simply amazing that you have taken such an avid interest in the Coffman, Davis, Burns..Comptons...Unfortunately you GGR Uncle had "only" just married Aunt Beulah & died within a very short time after the honeymoon. He was the only husband that did not have children with Beulah.

Because of matters like this, I have now made my tree private with no member contact!

Even though Henry Winslow Pratt says he owned the home in the 1910 census, I could not find the deed recorded in Crawford County deeds. I checked 1881 to 1917 deed records and could not find an entry where Henry Winslow Pratt was grantor or grantee. The home that my aunts and uncles remember between Crows Creek and Brazil Creek (see map) belonged to Columbus Francois Missey, Laura's father. He had entered a deed for 120 acres on 20 April 1889. Either he sold the property to Henry Winslow Pratt and they never filed the deed or the land was given to his daughter and son-in-law as a gift. The deed records need to be searched from 1917 to Laura's death to find out when C. F. Missey sold that land or how it was disposed. -Floyd Thomas Pratt]

For your information, I have severed my relationship with the Find A Grave organization. I have asked them to remove all memorials, flowers and any references relating or mentioning my account. In harmony with the first law of genealogy or family history research, i.e., documentation, I submit my famous Cradle to Grave (C2G) Profile on this subject including all known documentation presented for the serious researcher. This has been done to help the serious researcher continue in their thirst for family history knowledge without a duplication of effort. All I ask is that you acknowledge my contribution to your family history research. My gift to you...Floyd Thomas Pratt F.H.C., M.A.G.I.

1907 Birthblock for Mary Center (PRATT) daughter of Henry Winslow "Win" & Mary Laura Magdalene (MISSEY) Pratt

Mary Center (**PRATT**) was born in Vilander, Liberty Twp, Crawford, Missouri, United States on 12 June 1907.

Date from the 1910 census states she was born 1907 in Missouri.

Date from the death certificate states she was born 12 June 1907 at Vilander, Liberty Twp, Crawford, Missouri, United States.

Date from the headstone states she was born 12 January 1907.

Research Note

The death certificate is unclear as to her middle name. Her mother and father said in

François Columbier Columbus "Lum" Missey and Descendants

the census she was MARY S. PRATT. On the death certificate it states MARY CEUTER PRATT. I thought it might be CARTER however if the census taker spelled her initial with an "S" then the "C" should sound like an "S". Also the death certificate states she was born 12 June 1907 whereas the headstone states she was born 12 January 1907.

This is their first marriage and they have been married for 18 years. Henry says he owned his home and was a farmer. Henry could not read or write neither could Alexander. Laura says she has had 7 children born and 7 are living. Alexander is a widower. All children are single. Living a few doors down from John & Susan (**WEST**) Studdard family. Even though Henry Winslow Pratt says he owned the home in the 1910 census, I could not find the deed recorded in Crawford County deeds. I checked 1881 to 1917 deed records and could not find an entry where Henry Winslow Pratt was grantor or grantee. The home that my aunts and uncles remember between Crows Creek and Brazil Creek (see map) belonged to Columbus Francois Missey, Laura's father. He had entered a deed for 120 acres on 20 April 1889. Either he sold the property to Henry Winslow Pratt and they never filed the deed or the land was given to his daughter and son-in-law as a gift. The deed records need to be searched from 1917 to Laura's death to find out when C. F. Missey sold that land or how it was disposed. -Floyd Thomas Pratt]

1914-1918 Family Move

From Crow's Creek, Boone Twp, Crawford, Missouri, United States to Bourbon, Boone Twp, Crawford, Missouri, United States. 1914-1916 Postcard

It looks like my Grandmother Rue (**JOHNSON**) Pratt's writing of the names on the postcard which states..."Mrs. Laura Pratt, Ruth Pratt, Mary Pratt and Arvill Pratt". The other writing says "from Mother to Lum" that looks like Laura's writing and addressed to

François Columbier Columbus "Lum" Missey and Descendants

her son, "Columbus "Lum" Pratt, Patsy, Missouri". This was in the possession of my Aunt Evelin Juanita (**MILLER**) Pratt, wife of James Henry Pratt and she sent a copy of the picture and postcard to my father with the following note, " *This picture was a postal card that Luara Pratt sent to your father. I have copied it for you. In case you wonder, Patsy, Missouri was around Cherry Valley. Don't know what he was doing there unless he was doing a home. Juanita.*" Lum worked in masonry and was a tie maker. Unknown, if this took place before the death of Henry Winslow Pratt in 1914 or afterwards. I figure the date to be circa 1914-1916 because Ruth looks like she is 10-11, Mary looks like she is 6-7, Orville looks like he is 3-4 years old. Floyd Thomas Pratt, F.H.C., M.A.G.I. 2009

Research Note

Even though the 1940 census states they were living in the same place in 1935, this is incorrect since they were not even married until 1937. The fact that Billy Davis was born in 1935 and they stated he was born in Arkansas contradicts the "same place" issue.

1940-1952 Divorce of Raymond Mounce and Marie Virginia (PARSLEY) Davis Mounce

Research Note

Should be noted that Marie could have had another marriage between Raymond Mounce and Orville Pratt. When I interviewed Marie at a Pratt Family Reunion back in the 1980's, she failed to mention this marriage to Raymond Mounce completely. I am a trained thorough interviewer and would customarily grill these people to obtain vital information about their lives. Because she deliberately omitted this information suggests it was a painful marriage and something she did not want to remember.

My above FAG entry no longer exists as it is written here. When I created the entry I gave a full Cradle to Grave Profile. I removed my original entry due to unethical practices by the Find A Grave administration. Read my report, "**Why I STILL can no longer support www.findagrave.com**" for the details.

I have severed my relationship with the Find A Grave organization. I have asked them to remove all memorials, flowers and any references relating or mentioning my account. I have had an uneasy relationship with their administration for the last 5 years and in my opinion, they have lost faith and violated the public trust. I continue to list various Find A Grave memorials in my publications stricky to afix the burial locations in my reports. Most memorial data is in conflict with the facts and should not be accepted without research validation.

1902 Childbirth of daughter; Ethel Delora (MISSEY)

Ethel Delora (**MISSEY**) was born in Liberty Twp, Crawford, Missouri, United States on 17 October 1902.

Research Note

Yes, there seems to be some discrepancy about the birthdate of Ethel and the marriage date of her parents. In the 1910 and 1920 census she is listed as being born in 1903. In the 1940 census she states she was born in 1904. On the SSDI and her headstone states she was born 17 October 1902. I believe she was actually born the 17th of October 1903. I base this conclusion on the birthdate of her sister; Gertrude born 15th of June 1904. Backdating 9 months we get a conception month of September 1903...if Gertrude was a full term birth. However, I suspect she wasn't and right after Ethel was born in October 1903, Gertrude was conceived and delivered in June 1904.

Without seeing the birth certificate we really don't know when she was born. It seems doubtful she was born out of wedlock, however, more information is needed to determine her actual birth

date. A newspaper announcing her birth would be helpfull.

Research Note

My above FAG entry no longer exists as it is written here. When I created the entry I always gave a full Cradle to Grave Profile for the memorial. I removed my original entry due to unethical practices by the Find A Grave administration. Read my 2nd report, "**Why I STILL can no longer support www.findagrave.com**" for details. Due to their unscrupulous practices, I have severed my relationship with the Find A Grave organization. I have asked them to remove all memorials, flowers and any references relating or mentioning my account. I have had an uneasy relationship with their administration for the last 5 years and in my opinion, they have lost faith and violated the public trust. I continue to list various Find A Grave memorials in my publications strictly to affix the burial locations in my reports. Most memorial data on Find A Grave is in conflict with the facts and should not be accepted without research validation.

Date from the 1910 census states she was born in 1885 in Missouri.

Date from the 15 April 1915 father's pension application states she was born March 26, 1883.

François Columbier Columbus "Lum" Missey and Descendants

Date from the 1920 census states she was born in 1884 in Missouri.

Date from the 21 December 1926 mother's widows pension application states she was born March 26, 1884.

Date from the 1930 census states she was born 1884 in Missouri.

Therefore I would conclude she was born 26 March 1882 from the 1900 census. This exact date is confusing to say the least. This is just a good guess.

1902 Childbirth of daughter; Ethel Delora (MISSEY)

Ethel Delora (**MISSEY**) was born in Liberty Twp, Crawford, Missouri, United States on 17 October 1902.

Research Note

Yes, there seems to be some discrepancy about the birthdate of Ethel and the marriage date of her parents. In the 1910 and 1920 census she is listed as being born in 1903. In the 1940 census she states she was born in 1904. On the SSDI and her headstone states she was born 17 October 1902. I believe she was actually born the 17th of October 1903. I base this conclusion on the birthdate of her sister; Gertrude born 15th of June 1904. Backdating 9 months we get a conception month of September 1903...if Gertrude was a full term birth. However, I suspect she wasn't and right after Ethel was born in October 1903, Gertrude was conceived and delivered in June 1904.

Without seeing the birth certificate we really don't know when she was born. It seems doubtful she was born out of wedlock, however, more information is needed to determine her actual birth date. A newspaper announcing her birth would be helpful.

Research Note

My above FAG entry no longer exists as it is written here. When I created the entry I always gave a full Cradle to Grave Profile for the memorial. I removed my original entry due to unethical practices by the Find A Grave administration. Read my 2nd report, "**Why I STILL can no longer support www.findagrave.com**" for details. Due to their unscrupulous practices, I have severed my relationship with the Find A Grave organization. I have asked them to remove all memorials, flowers and any references relating or mentioning my account. I have had an uneasy relationship with their administration for the last 5 years and in my opinion, they have lost faith and violated the public trust. I continue to list various Find A Grave memorials in my publications strictly to affix the burial locations in my reports. Most memorial data on Find A Grave is in conflict with the facts and should not be accepted without research validation.

Find A Grave Errors

As usual, those who post information on Findagrave fail to do serious research on their postings. They either take the information from an unreliable death certificate or from an equally

unreliable headstone. The only reason I bother to list the FAG postings in my C2G profiles is to validate the burial location of the deceased. All other information unless researched by a qualified family history researcher...supported with documentation and source references is questionable and should not be taken as accurate. The above FAG posting is one of those with errors and should not be considered factual. Floyd Thomas Pratt F.H.C., M.A.G.I.

Dea Alvin Hamlin, born October 6, 1895; married Ethel Missey daughter of Ambrose and Parry Jane Richardson Missey (later Mrs. Stroup). The Missey family is of very early Missouri history. Originally Canadian-French, they came to this area by way of Ste. Genevieve. Hamlin was killed in an auto accident December 20, 1928.

Children of Dea Alvin and Ethel (Missey) Hamlin:

1. Florence, married Douglas Tidwell. Resides in Santa Monica, California; One daughter; Sandy.
2. Betty Lou, born November 18, 1927.
3. Thelma, born July 26, 1929.

Research Note

There seems to be some discrepancy with the above account. Dea Alvin Hamlin could not have been Ethel's first husband because Ethel married Robert E. Stroup on 10 December 1923 by her uncle; Rev. Albert Paris Missey. She must have married Dea Alvin Hamlin sometime before 1928 when he was killed in an auto accident. Then she married Harrison Isgriggs. Finding the dates and places of the above marriages will help to clear this up. FTP

1970's Family Story by Floyd Thomas Pratt F.H.C., M.A.G.I.

During a family reunion in Bourbon, Missouri, sometime during the late 1970's

François Columbier Columbus "Lum" Missey and Descendants

before her death in 1978, Ethel Delora (**MISSEY**) Isgriggs told me a story about Henry Winslow Pratt and his son; Columbus Benjamin Alexander Pratt having an argument over who was going to cut the firewood.

Ethel Delora (**MISSEY**) Stroup Hamlin Isgriggs is the daughter of Ambrose James and Parry Jane (**RICHARDSON**) Missey. She was a good family friend of my Great Aunt Eula Viola (**RICHARDSON**) Pratt, who also collaborated this story.

The story goes that "Winslow" told his son "Lum" to cut some firewood. Lum refused and Win told him he would have whip him if he didn't obey. Lum still refused and Win and Lum started to fistfight and brawl on the ground until Winslow was victorious and Lum succumbed and cut the firewood.

If this story is true, which I have no reason to doubt these ladies, this would have had to take place before Winslow's death in 1914. Lum would have been around 14 to 20 years old (1907-1914) and Winslow would have been in his 40's!

Columbus way to old for fighting with his father and Winslow way to old for trying to prove he was still the top dog in his house.

Ethel also said the Pratt's were hard cases and rough people. Not only were they financially poor and lacking higher educations, but this hard case characteristic in their personality was a carryover from their "Trail of Tears" survival mentality and Cherokee heritage when life was rough and survival was the order of the day. Hard times required hard men and the Pratt's and their counterparts; the Blanton's took second seat to no one.

My father often told me that you did not want to challenge or cross Lum Pratt because he was a tough character and a no nonsense type of guy. Whatever he said, you did with no backtalk or discussion...that is if you didn't want to pick your teeth up off the ground.

This type of rough love behavior had its positive influence and negative influence. The positive effect was that the Pratts were taught to stand on their own two feet and take charge and be responsible and accountable for their actions. This led to independence and strength with a get-it-done attitude. The negative result was a lack of or the ability to offer unconditional love or to express their affections for family and friends.

Dad says the only time his father (Lum) embraced him and gave him a hug was when Dad came back from WWII in 1947...my father was 20 years old at that time.

I am convinced without the saving graces of our dear wives teaching us to even the scales of justice...with love, we Pratts would not have the potential to be the loving husbands and fathers that we strive to be today. Hopefully, when dealing with friends and especially family, none of us in this period of education and enlightenment carry over the negative caveman characteristics exhibited by or forefathers.-Floyd Thomas Pratt 2009

My above FAG entry no longer exists as it is written here. When I created the entry I always gave a full Cradle to Grave Profile for the memorial. I removed my original entry due to unethical practices by the Find A Grave administration. Read my 2nd report, "**Why I STILL can no longer support www.findagrave.com**" for details. Due to their unscrupulous practices, I have severed my relationship with the Find A Grave organization. I have asked them to remove all memorials, flowers and any references relating or mentioning my account. I have had an uneasy relationship with their administration for the last 5 years and in my opinion, they have lost faith and violated the public trust. I continue to list various Find A Grave memorials in my publications strictly to affix the burial locations in my reports. 1899 Birthblock of Robert Emanuel Hartley son of and Cornelia Anna (HARTLEY)

Robert Emanuel Hartley was born in Sullivan City, Meramec Twp, Franklin, Missouri, United States on 30 October 1899.

Research Note

It appears Robert's mother; Cornelia Anna (**HARTLEY**) had Robert out of wedlock. Robert was born on the 30th of October 1899 and so far I have not located his parents marriage record. In the 1900 census they are living with her parents and have listed Robert aged 7 months as a Hartley. After her mother married John Atchison Stroup on 18 March 1902, Robert was given the Stroup surname.

Research Note

This does not help us with the identity of Robert's father. When Cornelia married John Atchinson Stroup in 1902, John gave Robert his surname. FTP

My above FAG entry no longer exists as it is written here. When I created the entry I always gave a full Cradle to Grave Profile for the memorial. I removed my original entry due to unethical practices by the Find A Grave administration. Read my 2nd report, "**Why I STILL can no longer support www.findagrave.com**" for details. Due to their unscrupulous practices, I have severed my relationship with the Find A Grave organization. I have asked them to remove all memorials, flowers and any references relating or mentioning my account. I have had an uneasy relationship with their administration for the last 5 years and in my opinion, they have lost faith and violated the public trust. I continue to list various Find A Grave memorials in my publications strictly to affix the burial locations in my reports. Most memorial data on Find A Grave is in conflict with the facts and should not be accepted without research validation.

Research Note

My above FAG entry no longer exists as it is written here. When I created the entry I always gave a full Cradle to Grave Profile for the memorial. I removed my original entry due to unethical practices by the Find A Grave administration. Read my 2nd report, "**Why I STILL can no longer support www.findagrave.com**" for details. Due to their unscrupulous practices, I have severed my relationship with the Find A Grave organization. I have asked them to remove all memorials, flowers and any references relating or mentioning my account. I have had an uneasy relationship with their administration for the last 5 years and in my opinion, they have lost faith and violated the public trust. I continue to list various Find A Grave memorials in my publications strictly to affix the burial

locations in my reports. Most memorial data on Find A Grave is in conflict with the facts and should not be accepted without research validation.

Research Note

My above FAG entry no longer exists as it is written here. When I created the entry I always gave a full Cradle to Grave Profile for the memorial. I removed my original entry due to unethical practices by the Find A Grave administration. Read my 2nd report, "**Why I STILL can no longer support www.findagrave.com**" for details. Due to their unscrupulous practices, I have severed my relationship with the Find A Grave organization. I have asked them to remove all memorials, flowers and any references relating or mentioning my account. I have had an uneasy relationship with their administration for the last 5 years and in my opinion, they have lost faith and violated the public trust. I continue to list various Find A Grave memorials in my publications strictly to affix the burial locations in my reports. Most memorial data on Find A Grave is in conflict with the facts and should not be accepted without research validation.

Seems to be some confusion as to this marriage record. Someone posted George Walter Juergens divorced his first wife; Clara Rosetta (**AEMISEGGER**) in 1974. Estelle's sister: Hazel Mae (**WITT**) Missey Barnes' obituary in 1975 listed Estelle as Estell Jergens. Either Estelle married George in 1974-1975 and this marriage was a remake or Estelle was married to a different Juergens before she married George in 1977.

Aka Edward-Edmund-Edmond-Edmun Missey

Seems to be some confusion as to his given name. All census records up to 1910 state his name as Edward Missey and his family claims his first name was Edmond. I don't think his parents intentionally mis-named him Edward. Therefore, I feel his name was Edward and not Edmond. He even named a son, Edward. However in the WWI draft registration he signed his

name as Edmun. Therefore, I am going to use the name Edmun as he signed it on the draft registration card. Floyd Thomas Pratt

1885 Father's Pension Application

Columbus F. Missey applies for a pension at Rolla, Phelps, Missouri, United States. On 11 January 1886, the Department of Interior requested a report on the above pension to verify the records. 1908 Birthblock of Eugenia Maxine (MISSEY) daughter of Edmun Forrest and Grace Sybil "Poppy" (BREWER) Missey

Eugenia Maxine (MISSEY) born in Sullivan City, Meramec Township, Franklin, Missouri, United States on 17 March 1908 and died 8 October 1908. [Dates according to Don Lutes' tree on ancestry.com]

Date from the headstone states she was born 14 June 1908.

Date from the obituary states she was born

Date of 17 March 1907 from Jo Ann (Snowden) Missey.

Research Note

The above dates were posted in Don Lutes' tree on ancestry.com, Obviously we have discrepancies from the headstone dates to the posted dates. An obituary would probably help.

Research Note

In the 1910 census, Grace Missey, mother of Eugenia states that she had been married 3 years and this was her first marriage and she has had two children born and only one was living at the date of the census which was 16 April 1910. Therefore, we feel Eugenia was the child deceased since her brother; Paul was in the 1910 census.

Eugenia Maxine (MISSEY)...when were you born and when did you die? by Floyd Thomas Pratt F.H.C., M.A.G.I. 5 May 2010

There are several conflicting dates pertaining to the birth and death dates of Eugenia Maxine (MISSEY) firstborn of Edmun Forrest & Grace Syblil (BREWER) Missey.

[1] JoAnn (SNOWDEN) Missey, wife of Lawrence Missey and long time family researcher gave me the birth date of 17 March 1907. This would put Eugenia's birth 5 days before her parents were legally married.

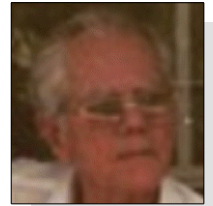

[2] Don Lutes has a family tree on ancestry.com and he posted the birth date to be 17 March 1908. This seems reasonable, however, the next born...Paul Wilbur(n) Missey's social security death notice states he was born 22 July 1908, which means if Eugenia was born on 17 March 1908 then how could Paul be born in July? I don't believe the 22 July 1908 date to be accurate for Paul. In the 16 April 1910 census, Grace said Paul was 8 months old this would put his birth date in August 1909. I believe August 1909 was his birth month and the 22nd was his birth day. This would give room for Eugenia to be born anytime prior to December 1908.

[3] This brings us to Eugenia's headstone. Headstone information must be taken with a grain of salt. Usually the person who gave the information on the death certificate also gives the same information to the company that makes the headstone. However, in this case since the deceased is a child, and both parents were living, then you would think the headstone would offer some sort of stability as to the birth and death dates...not in this case. The headstone of Eugenia M. Missey buried next to her parents in the Buffalo Cemetery, Sullivan, Meramec Twp, Franklin, Missouri, United States states she was born and DIED on 14 June 1908. How this error could be allowed by the family to stand is

François Columbier Columbus "Lum" Missey and Descendants

unconsonable only if...these dates are correct then everyone else is wrong. This leaves us with a questionable birth and death date for Eugenia Maxine (**MISSEY**). Without a family bible to help verify or an obituary or article in the newspapers to validate these dates, we really don't know when she was born or when she died. Research Note

Since I cannot locate her in the 1940 census, but her spouse; Francis Elmer Minx is living with his parents and listed as single in the 1940 Union Township, Washington County, Missouri, United States census, then it appears they were divorced after the 1930 census and before her marriage to Paul Wilburn Missey. Locating Paul and Myrtle's marriage record will determine the approximate dates when Elmer and Myrtle divorced. Also, I cannot locate Paul in the 1940 census but his 1942 World War II record states he was single in 1942.

Research Note

No one on ancestry.com knew anything about Paul's wife Myrtle other than the fact she was listed on his headstone. The key to discovering her identity was in Paul's obituary.

They listed his children as two sons, **F. B. Minx**, of Olathe, Kan., and **C.C. Minx** of Kansas City, Mo.; a daughter, **Lovey Magdelan Smith**. Since they were not Missey children indicated they were his wife's children from a previous marriage.

According to Myrtle's Social Security Death Index she was born 21 Jan 1899. I began my research by looking at every daughter named Myrtle born in January 1899 in the Washington County, Missouri 1900 census.

I found several candidates one being Myrtle (**ROSS**) daughter of Frank and Sophia Ross living in Kingston Township, Washington County, Missouri, United States. However, this still did not prove she was the same Myrtle whom married Paul Wilburn Missey.

My next step was to look for a Myrtle (____) who had married a _____ Minx and produced the three children listed above. I discovered the 1930 census as follows...

Union Township, Washington County, Missouri, United States
MINX, Francis E.[Elmer] head w m 38; Mary M.[Myrtle] wife w f 29; Lovey M. [Magdalene] dau w f 12; Charles C. son w m 9; Francis B. son w m 9

Then I went to the 1920 census and found...

Kingston Township, Washington County, Missouri, United States
MINX, Elmer head w m 27; Mertle wife w f 18; Magdelene dau w f 2yrs 5months

These two census records verified I was looking at the first family of Myrtle and her birth year was pretty close to the 1899 target date.

My next step in discovering her birth surname was to hopefully find her marriage record to Francis Elmer Minx. This was accomplished on ancestry.com with the following...

François Columbier Columbus "Lum" Missey and Descendants

Missouri Marriage Records, 1805-2002

Name: Elmer Francis Minx Marriage Date: 1 Nov 1916 Marriage Location: Old Mines, Washington, Missouri Marriage County: Washington Spouse Name: Mary Myrtle Ross

The original 1900 census I had listed above turned out to be her parents and with 48,000 names from Missouri and other states, I have built over the last 38 years in my database, I was able to produced her parents as follows...

Frank Edward Ross son of John B. and Juliet "Julia" Ann (**TALBOTT**) Ross and Sophia Susan (**AUGÉ**) Ogé Oshia Osia daughter of François Jacques "Francis" "Frank" and Marie Therese Sophie (**COLEMAN**) Colman Augé Ogé Oshia Osia.

As it turns out, Juliet "Julia" Ann (**TALBOTT**) Ross is my 2nd Great Great Aunt, making Myrtle (**ROSS**) wife of my 1st cousin twice removed being Paul Wilburn Missey.

By discovering Myrtle's birth parents, I was able to take her ancestors back three generations on her father's side and 7 generations on her mother's side.

Processing both sides of her family including Myrtle's two husbands took me the better part of a day. Now that I have done this research, I have posted this information on ancestry.com and the rest of the interested researchers will have what I was able to discover.

This work does not come easy and every step takes diligent research and patience. But, in the end, it is all worth the effort because we are saving lives and rescuing prisoners across the veil and in this obedience...fulfilling Malachi's prophecy. Glad I could be of help.

Research Note

No one on ancestry.com knew anything about Paul's wife Myrtle other than the fact she was listed on his headstone. The key to discovering her identity was in Paul's obituary.

They listed his children as two sons, **F. B. Minx**, of Olathe, Kan., and **C.C. Minx** of Kansas City, Mo.; a daughter, **Lovey Magdelan Smith**. Since they were not Missey children indicated they were his wife's children from a previous marriage.

According to Myrtle's Social Security Death Index she was born 21 Jan 1899. I began my research by looking at every daughter named Myrtle born in January 1899 in the Washington County, Missouri 1900 census.

I found several candidates one being Myrtle (**ROSS**) daughter of Frank and Sophia Ross living in Kingston Township, Washington County, Missouri, United States. However, this still did not prove she was the same Myrtle whom married Paul Wilburn Missey.

My next step was to look for a Myrtle (____) who had married a _____ Minx and produced the three children listed above. I discovered the 1930 census as follows...

Union Township, Washington County, Missouri, United States

MINX, Francis E.[Elmer] head w m 38; Mary M.[Myrtle] wife w f 29; Lovey M.[Magdalene] dau w f 12; Charles C. son w m 9; Francis B. son w m 9

Then I went to the 1920 census and found...

Kingston Township, Washington County, Missouri, United States

MINX, Elmer head w m 27; Mertle wife w f 18; Magdelene dau w f 2yrs 5months

These two census records verified I was looking at the first family of Myrtle and her birth year was pretty close to the 1899 target date.

My next step in discovering her birth surname was to hopefully find her marriage record to Francis Elmer Minx. This was accomplished on ancestry.com with the following...

François Columbier Columbus "Lum" Missey and Descendants

Missouri Marriage Records, 1805-2002

Name: Elmer Francis Minx Marriage Date: 1 Nov 1916 Marriage Location: Old Mines, Washington, Missouri Marriage County: Washington Spouse Name: Mary Myrtle Ross

The original 1900 census I had listed above turned out to be her parents and with 48,000 names from Missouri and other states, I have built over the last 38 years in my database, I was able to produced her parents as follows...

Frank Edward Ross son of John B. and Juliet "Julia" Ann (**TALBOTT**) Ross and Sophia Susan (**AUGÉ**) Ogé Oshia Osia daughter of François Jacques "Francis" "Frank" and Marie Therese Sophie (**COLEMAN**) Colman Augé Ogé Oshia Osia.

As it turns out, Juliet "Julia" Ann (**TALBOTT**) Ross is my 2nd Great Great Aunt, making Myrtle (**ROSS**) wife of my 1st cousin twice removed being Paul Wilburn Missey.

By discovering Myrtle's birth parents, I was able to take her ancestors back three generations on her father's side and 7 generations on her mother's side.

Processing both sides of her family including Myrtle's two husbands took me the better part of a day. Now that I have done this research, I have posted this information on ancestry.com and the rest of the interested researchers will have what I was able to discover.

This work does not come easy and every step takes diligent research and patience. But, in the end, it is all worth the effort because we are saving lives and rescuing prisoners across the veil and in this obedience...fulfilling Malachi's prophecy. Glad I could be of help.

Find A Grave Errors

As usual, those who post information on Findagrave fail to do serious research on their
postings. They either take the information from an unreliable death certificate or from an equally
unreliable headstone. The only reason I bother to list the FAG postings in my C2G profiles is to
validate the burial location of the deceased. All other information unless researched by a
qualified family history researcher...supported with documentation and source references is
questionable and should not be taken as accurate. The above FAG posting is one of those with
errors and should not be considered factual. Floyd Thomas Pratt F.H.C., M.A.G.I.

Hazel Harriet McEwen of Potosi, Mo. was born at Prosperity, Mo. on February 9, 1916, the daughter of the late Edmond and Grace (Brewer) Missey. She departed this life at Jefferson Memorial Hospital, Crystal City, Mo., Monday, November 13, 2000 having reached the age of eighty-four years, nine months and four days.

She is survived by two sons; Edward William Vincent and wife Maureen of Potosi, Mo., and William Howard Vincent of Astatula, Florida; two daughters, Judith Ann Blanford and husband Gary of Potosi, Mo. and Rebecca Sue Ballard of Potosi, Mo.; daughter-in-law Jeanette Vincent of Potosi, Mo.; twelve grandchildren; twenty great grandchildren; two great great grandchildren; two sisters, Elsie Schmidt and husband Theodore of Fenton, Mo. and Vera Kinder of Poplar Bluff, Mo., and a host of nieces, nephews and friends.

In addition to her parents, she was also preceded in death by her husbands Stephen H. Vincent and Willard G. McEwen; three brothers, Paul, Lucien and Kenneth Missey and three sisters, Helen Depew, Yvonne Lutes and Eugenia Missey.

"Me-Ma", as Hazel was lovingly known, was first and foremost a wonderful mother and grandmother. Me-Ma loved her family with a passion and her pride in them was always evident. She was a truly gracious lady, and one who never met a stranger and could converse easily with anyone about any topic. Her skillful art of conversation was just one of her many attributes that was responsible for her success in the restaurant profession when she owned and operated the Plaza Grill in Potosi and the Log Cabin Inn at Shirley, Mo. In later years she was head cook at the Y.M.C.A. Trout Lodge where she met many people from all over and could swap fish stories due to her enjoyment of fishing during her younger years.

Hazel continued to stay active during the most recent years by volunteering with the V.F.W. Post 6996 Auxiliary, where she has been a continuous member since 1969, served as their president in 1993-94, and was currently serving as chaplain.

Hazel loved people and life and appreciated the many gifts she was blessed with throughout her time on earth. Those who had the privilege of knowing Me Ma also shared a blessing, that of having a dear and true friend.

Visitation was held Wednesday, November 15, 2000 from 6 to 9 p.m. at Moore Funeral Home in Potosi.

Research Note

Back in the early 1980's I made several trips into Saint Louis where Hazel lived. I visited with Hazel and spent several hours going over her family history. Much of what I learned about her parents and siblings came from her and she was immense help in my family history research. I believe she bought the first edition of the **Pratt Progenitor Papers Volume 4 Francois Columbier "Columbus" Missey** when I finished with it in 1992. Now it is 2015 and I am revising this addition and would like to thank her for her help and assistance she graciously gave back 35 years ago. Floyd Thomas Pratt F.H.C., M.A.G.I.

Find A Grave Errors

As usual, those who post information on Findagrave fail to do serious research on their postings. They either take the information from an unreliable death certificate or from an equally unreliable headstone. The only reason I bother to list the FAG postings in my C2G profiles is to validate the burial location of the deceased. All other information unless researched by a qualified family history researcher...supported with documentation and source references is questionable and should not be taken as accurate. The above FAG posting is one of those with errors and should not be considered factual. Floyd Thomas Pratt F.H.C., M.A.G.I.

Find A Grave Errors

As usual, those who post information on Findagrave fail to do serious research on their postings. They either take the information from an unreliable death certificate or from an equally unreliable headstone. The only reason I bother to list the FAG postings in my C2G profiles is to validate the burial location of the deceased. All other information unless researched by a qualified family history researcher...supported with documentation and source references is questionable and should not be taken as accurate. The above FAG posting is one of those with errors and should not be considered factual. Floyd Thomas Pratt F.H.C., M.A.G.I.

A Little Something About Your Author.....

Floyd Thomas Pratt, F.H.C., M.A.G.I.

At the age of 19, Tom Pratt embarked on a career in law enforcement. This experience gave him training in detective and investigative skills. Little did Mr. Pratt know, how useful these skills would be in the field of genealogy.

Tom Pratt started his family research career in 1975 after becoming a member of the Church of Jesus Christ of Latter Day Saints. His first calling as a new member was to serve in the newly created genealogical department or known today as the Family History Center in the Springfield, Missouri ward. This two-year calling gave Mr. Pratt a tremendous amount of experience helping others to research their families.

In fact, he felt family research came easy and required little effort on his part. In reality, years of reading and studying increased his expertise and he made it look easy to others.

Over the course of several years, Mr. Pratt was asked by his church to instruct several family history courses. This experience established a deep profound love for family and ancestors.

It was not uncommon for Mr. Pratt to spend 4 to 8 hours a day researching and compiling family histories in addition to his duties, as an entrepreneur in the insurance business.

The first major achievement for Mr. Pratt was a breakthrough on his Pratt family back to the early 1800's. Not satisfied with just the direct line research, Mr. Pratt branched out to research all connected lines and allied families.

This dedication led to 42,000 individuals and achieved expert status for Mr. Pratt on the families of middle and eastern Missouri, eastern and western Tennessee and central North Carolina.

Concerning Mr. Pratt's style of research, he is a strong supporter of the "hands on" approach. When he took family vacations, they usually went to libraries, cemeteries, courthouses, National Archive centers, and visited family members in various states. He attended multi-state family reunions and obtained his material from the actual sources when possible.

A Little Something About Your Author.....

Being a researcher of the highest degree, in 1991, Mr. Pratt formed the Pratt Publications Company and offered to the public, a series of books titled, The Pratt Progenitor Papers. This series of volumes are a collection of legal documents, stories, pictures and historical presentations concerning the families of Missouri, Tennessee and North Carolina.

The first three Volumes were released to the public in 1991 and were issued to 18 different libraries including the Library of Congress and the St. Louis Public Library. The next 7 volumes were published with at total of 43 volumes scheduled for publication.

In 1996, Mr. Pratt formed the Genealogical Institute to further the education of serious researchers.

The Genealogical Institute offers a series of educational materials to teach and instruct the uninitiated in the procedures of family history research. These courses offer "a hands on" curriculum designed to instruct in investigative, deductive reasoning and logical procedures for tracking your family history.

Beginners and experienced researchers have found a treasure chest of knowledge when undertaking these courses. Mr. Pratt has taken the hobby of genealogy and has enhanced it into a science. Heavy on instructions concerning documentation, research procedures, alternative sources and common public records, this course is a valuable tool for the researcher. One of Mr. Pratt's favorite sections of the course is teaching researchers "how to stop" researching and compile their information for publication.

Upon completion of the educational courses from the Genealogical Institute, the graduate is awarded the **Master Accreditation of the Genealogical Institute. (M.A.G.I.)**

This designation is equivalent to a Doctorate Degree and signifies the recipient has been trained and demonstrated superior research techniques.

Mr. Pratt's ability in family history research has amazed many educated researchers. When Mr. Pratt is asked for help concerning their "brick wall" in their family research, his quick wit and logical mind rapid fires instructions and procedures so fast they cannot write the material quickly enough. Little do they realize this knowledge has been acquired over 30 years of experience and research.

In June of 2000, Mr. Pratt undertook a new and unprecedented task.

Outside of Washington, Franklin County, Missouri is an old cemetery called the Johnson-Caldwell Cemetery. This cemetery has many pioneer heroes and ancestors of various descendants from that region. Some of the inhabitants were born in the 1750's and traveled west to Missouri after the 1803 Louisiana Purchase.

A Little Something About Your Author.....

Mr. Pratt took down all the information off the headstones, including every person in the cemetery and researched each individual related or not. 1000 man-hours and two years later, he published the book "Johnson-Caldwell Cemetery of Franklin County, Missouri"© 2001.

Obtaining newspapers, legal documents, personal interviews with ancestors and researching various sources for any and all information concerning the history of the cemetery and the inhabitants produced this master text. What makes this book stand out among the rest is basic content and structure.

First, it is the only book to cover the known and reported inhabitants of an entire cemetery.

Second, this book reports on each inhabitant, their birth and activities throughout their life until their death, including their ancestors, spouses and children.

Third, even the index is unique, listing the individual and their father's name if known. This is extremely helpful when several individuals have the same given name.

Upon examination, professional researchers have hailed this body of work as a masterpiece and a standard in which all future research of cemeteries should be based. In their opinion, no one has ever produced a body of work about a cemetery as unique and professional as this publication.

Currently, Mr. Pratt is working on a series of books from the [Pratt Archive Collections](#), which is a series of biographical publications concerning a progenitor and a generation of descendants. This collection is a "cradle to grave" report, which covers the subject's ancestry, birth, marriage, children, and geographical domiciles as well as the political environment during the subject's lifetime.

In addition, Mr. Pratt is working on additional volumes of the Pratt Progenitor Papers and several books on public records.

With all these accomplishments, Mr. Pratt humbly refers to himself as a Genealogical Anthropologist...resurrecting progenitors.

We in the genealogical world are deeply grateful to be associates of a man of Mr. Pratt's caliber. Through his dedication to helping the novice as well as the professional researcher, future generations will benefit by his advances in the genealogical field.

In addition, we are thankful for the inspiration that sparks men like Mr. Pratt to magnify their love for people and history. We feel, with a lifetime dedicated to the genealogical pursuit of truth and knowledge, Mr. Pratt's accumulative body of work, will stand as a quintessential manifestation of this divine love.

Lewton Cole, Chairman
Genealogical Institute

GENEALOGY ETIQUETTE

1. Do not give copies or reproduce the information you received from the compiler or author without written permission.
2. In your research efforts if you are able to advance the research, then reciprocate by sharing your research information with the compiler.
3. Use the information you receive as a starting point for your research of your families.
4. If you decide to use information you have received, in a book, document or research material, be sure to acknowledge the author or compiler of that material.
5. All inquiries by third parties for a copy of the material should be forwarded to the original compiler or author.
6. Do not loan or share your information, family heirlooms, special documents, one of a kind, pictures, or irreplaceable materials to non-professional researchers or family members. These types of materials seen to disappear or become damaged.
7. Make copies of important documents or materials when at libraries and be sure to write the name of the book, source, letter or film with the author's name and page number and year of publication.
8. Genealogy work that is not documented is of little value. Remember, you are leaving a trail for those who follow. If future researchers have to verify your work, then of what value is your work?
9. Collect family stories from those relatives who are still alive. This is a short cut to your past and they hold a world of knowledge about your family.
10. Do not try to finance all your research alone. Ask for financial assistance from interested family members.

Remember, the family history information that is so easily exchanged today by computer was acquired over years and years of on-site research. While many were engaged in raising families, working for income, and surviving, genealogist researchers did these things **AND** spent their free time in pursuit of the truth about their ancestors. This pursuit required great sacrifice of time, effort and money. Many researchers went to the actual locations to view the marriage, deed, death and birth records including visiting the cemeteries across the United States and foreign countries. This is why it is important to follow the above guidelines; by doing so, you give respect to their work and honor to their memory. Thank You.

M.A.G.I. Course #4 educates the student to the proper understanding of identifying female birth surnames and the preferred procedures for creating useful obituaries. Mr. Pratt offers a simple process thereby eliminating confusion and misunderstandings by using a standardized identifying process or method concerning female birth surnames.

OBJECTIVE

To acquaint the family researcher with a proper understanding of identifying female birth surnames.

After 39 years of researching family histories and accumulating over 42,000 ancestors in my primary tree, I have discovered there exists a great deal of confusion when it comes to displaying maiden names, married names, subsequent married names and adopted names when it pertains to our female ancestors and relatives.

I have been dismayed, by an indifferent attitude or concern writers, authors, researchers and newspaper editors have displayed by publishing various documents, purposely confusing their readers by not using a standardized identifying process or method concerning female birth surnames.

I have been using a method developed over the last 39 years, which clarifies and displays to the reader an easy and recognizable method immediately removing any confusion concerning the marital status of our female ancestors.

SOME OF THE PROBLEMS...

I have seen newspaper reporters when presenting an obituary, list the deceased female's name in such a way as to confuse the reader as to her married name, maiden name and additional married names. Even to the extent of **leaving previous married surnames** out of the obituary but listing children from those previous marriages in the obituary!!!

I have seen instances where maiden names were listed as such...(Jones) or (Smith) conveying to the reader no indication if this is indeed a maiden name or another married name.

Also, let's clarify this concept...describing her birth surname as a maiden name is outdated and presents the wrong connotations. Therefore, henceforth I shall refer to female maiden names as birth surname.

Using the old French and English "**née**" prior to the birth surname indicates the female was born as that person in that particular family. This is mostly used on headstones and seldom used in today's society.

However, when one runs across nee Jones or nee Smith, this is a good indicator of her birth surname.

Now that we understand the problem, let's investigate the solution.

REMOVING THE CONFUSION....

I have developed a method that clarifies and alerts the reader and is instantly aware of the marital status of any female without scratching their heads in confusion.

I have been using this method for the last 38 years and have had no complaints as to its understanding by the general public.

There are several instances where identifying a female's maiden surname, married name, adopted name and subsequent married names needs to be adopted into the family history research community as a standardized method.

I shall present these methods for future generations so they may adapt to this style of recording to help readers understand the female's identity. The reasoning behind my statement...claiming future generations will adopt this method is based on this generation's failure, lack of ability or indifference to adopt or change.

Also, as more of us enlightened researchers adopt this method, we will force institutions, computer programmers, newspapers editors and family researchers to adopt their programs and procedures to comply with this form of identification.

As it currently stands, most computer programs do not recognize female birth surnames as (**BIRTH SURNAME**) and want to display ALL surnames in Caps.

This is unsatisfactory and does not meet the needs of the family search community.

THE METHOD AND EXAMPLES....

Rule # [1]

First of all and primary, when listing a female using her birth surname, she should always be listed beginning and ending with parenthesis (**JONES**) with the maiden name in **bold CAPS**.

This immediately alerts the reader the name **JONES** is her birth surname and not a married or adopted family name. Also, it clarifies the name **JONES** is not a baptism name, stage name, pen name, ring name, assumed name, alias and nickname.

Using the **bold CAPS** as a birth surname also eliminates any confusion concerning adopted or divorced surnames.

The parenthesis around the (**BIRTH SURNAME**) alerts the reader to a birth surname and not just a whimsical injection by the author.

Genealogy without documentation is...mythology

Sure, it takes a little more time, and sure it slows down your recording process, but it sends a clear and distinct signal of your intentions to your readers and helps to identify your female subject thereby, solving a problem that has confused mankind since the invention of writing.

Warning...using the **bold CAPS** as a birth surname should not be used by the unknowledgeable and/or people who are guessing as to the women's birth surname.

Placing the wrong birth surname in an article, obituary, headstone, report or story throws the researchers in the wrong direction and hampers the research process.

If the birth surname is not known, then state as such and you will be doing the research community a great service.

Rule # [2]

The next consideration would be married surnames. Women marry sometimes in multiple instances.

For example... Beulah Trassy (**COFFMAN**) Beautin Spoel Cross Pratt James

Yes, this is a real person and she was married 5 times.

Beulah is the daughter of Joseph Lafayette "Fate" & Elizabeth Isabelle "Izzie" (**DAVIS**) Coffman born in either Meramec Township, Phelps County, Missouri, United States or Courtois Township, Crawford County, Missouri, United States on 23 April 1906.

The data on Beulah is still being collected so we don't have the dates and places of all her marriages as of yet.

However, we know she married 1st James Thomas Beautin circa 1921-1922 and married 2nd Charles Spoel followed by 3rd Kenneth Archibald Cross and then my Great Uncle 4th Henry Arthur Pratt circa 1960-1961 with her final and last spouse; 5th Clifford D. James.

By listing her as... Beulah Trassy (**COFFMAN**) Beautin Spoel Cross Pratt James indicates to the reader the unmistakable identity of each of those names. Beulah and Trassy being her given names, (**COFFMAN**) her birth surname followed by each of her spouses in the order of her marriages.

This method is invaluable for identity purposes and gives the basis and foundation in which to start research proceedings. Since Coffman is her birth surname then we would be looking for a marriage license between Coffman and Beautin or Beauton. Then, we would be looking for a marriage license between Beautin and Spoel, Spoel and Cross, Cross and Pratt and finally Pratt and James.

This is the proper method when listing a woman who has been married more than once.

COURSE LESSON #4 "A ROSE BY ANY OTHER NAME..."

by *Floyd Thomas Pratt F.H.C., M.A.G.I.* © 2014 Revised 2015

Genealogy without documentation is...mythology

However, how do you handle a situation where she has been married prior to her marriage to your direct line ancestor? Same way, using the same example... Beulah Trassy (**COFFMAN**) Beutin Spoel Cross Pratt James.

Let's say, when she would have married Kenneth Archibald Cross she would have been listed as Beulah Trassy (**COFFMAN**) Beutin Spoel. Thereby giving the family history researcher an idea on what names she may have been using when she married Mr. Cross.

Sometimes, when a marriage was an unpleasant experience, the woman would drop her previous married name and revert back to her birth surname or if she had prior children to the "new" marriage, revert to her children's father's surname, which would have been one of her previous spouse's married names.

Consequently, if I were looking for a marriage record for Beulah and Kenneth Archibald Cross I would be looking for Beulah (**COFFMAN**), Beulah Beutin or Beulah Spoel. Of course, this is based on the fact you, the researcher, are aware of all your subject's spouses.

By listing all her married surnames after her birth surname, provides the family history researcher a road map and by tracking her in the census records helps researchers to narrow down the locales she may have been married. Thereby, locating her marriage records and completing her Cradle to Grave Profile. (C2G)

Rule # [3]

Adopted names, if known should be hyphenated.

For example... Mary Ellen Studdard-(**MURRAY**). Mary is the daughter of John & Betsy "Bacey" Susie Nancy (**PRUITT**) Studdard Murray and was born in Jefferson County, Missouri, United States on 3 October 1865.

Mary's mother; Bacey was previously married to 1st James William Studdard on 12 November 1854 with James' death occurring on the 4th of March 1863 during the civil war.

Betsy "Bacey" Susie Nancy (**PRUITT**) Studdard married 2nd John Murray circa 1863-1865 and had 4 children whereas John died between 1873-1880.

However, a peculiar thing happened, after John Murray's death, in the 1880 and subsequent census records, Bacey started calling John Murray's 4 children by her previously married deceased husband's surname...Studdard.

The children even married using the Studdard surname however in reality they were all John Murray children.

Genealogy without documentation is...mythology

When I brought this anomaly to the attention of other Studdard family researchers, none of us could understand her reasons for this strange behavior. Especially since the death of first husband; James William Studdard in 1863 is indisputable and well documented through Civil War records and proves he is not the father of those Murray children.

However, the question came up on how to list the children. Since they are actually Murray children then Murray should be included as their birth surname and since they adopted the Studdard surname, then Studdard should also be included in their name.

I decided the Studdard name...their adopted name, the one they used their whole life, should be listed after their given names for familiar and identification purposes.

This would help all those family researchers who don't know the whole story and only know these children by their Studdard surname.

Also, the Murray surname **MUST** be included to give proper credit and validation to their birth father; John Murray and his marriage to their mother; Bacey (**PRUITT**) Studdard.

John Murray and Bacey (**PRUITT**) Studdard's marriage record has not been located yet, however, one cannot assume these children were born out-of-wedlock.

I can understand one child being born to unmarried parents but four children would not have been proper and I cannot believe Bacey would have permitted such a shameful situation.

Therefore, all four children should be listed as follows...

Mary Ellen Studdard-(**MURRAY**)
Amanda F. Studdard-(**MURRAY**)
Lucas Irvin Studdard-Murray
Henry Harrison Studdard-Murray

This identifies the adult known surname of Studdard, the name they have been known as by their community and credits their birth father; John Murray with his birth surname.

Remember, when you have adopted children, it's ok to use the surname they have been using their adult life for identification purposes. But, also include their birth surname, if known with a hyphen to alert the researcher this person was born with one surname and adopted another either legally or out of convenience.

Your explanation would be recorded in the children's note section of your family history program. Explaining to interested researchers the reasons behind your actions and removes confusion and forges an universal understanding among the family research community.

MORE HARM DONE THAN GOOD...

When widows or divorced women remarried with children, the new spouse, out of courtesy would give the children his surname. This was done for several reasons...

[1] First, to remove any shame from the spouse or mother concerning a previous marriage or divorce.

Your reputation and social status within the community was of upmost importance due to small-minded people. If a woman had any form of moral shadow cast against her reputation, the hypocritical so called "God fearing church women" of the community would make life so miserable for the divorcee, with the intention of forcing them out of the community.

Motivated by fear, these hypocrites feared their husbands would associate with these "loose" women and their own marriage and security would be in jeopardy.

This is why, as so many of the census records reveal, after a woman was separated or divorced from her spouse; she listed herself with the census taker as a widow, even though her ex was still alive.

After all, widowhood was an honorable and acceptable status to the community, if you had been a previously married female.

[2] Another reason men gave their surnames to the children of his wife's previous marriage was...to remove any shame, guilt or stigmatism from the children when asked by their peers, why their surname was different from their current "father's" surname.

Back in those days, there was a tremendous stigmatism placed on who your parents were, the type of work you father did, your family's social status within the community and what family ties to either famous or infamous people may be in your family tree. The Bible is full of proud and haughty people concerning their genealogy.

I am sure "new" subsequent husbands thought they were doing the children a favor by giving them their surnames, and with the hypocrisy of small town America, they were right, but in reality and in the long run, they stole the children's identity and robbed them of their true family heritage.

This is why many "adopted" children, who had been given subsequent father's surnames, when attaining adult age, changed their adopted surname back to their birth surname.

However, as a family researcher, by placing both surnames separated with a hyphen, you are helping those children reclaim their heritage and give credit to the true parent where credit is due.

WE NEED A UNIFORM METHOD...

When various organizations, institutions, newspapers and authors report data concerning our female relatives, they all improvise the method to display their birth surnames, married names and professional names of female participants.

This is unproductive and unnecessary if the whole community would only adopt a uniform method.

For example, displaying birth surnames as (Jones), or JONES or Jones does not convey to the reader in what context does Jones represent this female individual.

However, using (**JONES**) as a standard representation of a female birth surname is so unique as not to be misconstrued or confusing of the writer's intention or meaning.

COMPUTER SOFTWARE COMPANIES...

Another aspect in our society sadly needing harmony and conformity by adopting this method is the computer programming technical departments of software companies.

One example is www.ancestry.com. You would think, being a leader and standard-bearer in the genealogy field, someone in the sacred halls of corporate ancestry.com would have suggested a uniform method to organize, correlate and conform the various improvised displays perpetuated by their patrons concerning the female birth surname.

However, what I have found with the most popular genealogy software programs, not only do they **not offer** as alternatives to the standard female birth surname such as they display as Jones, but their programs become confused, lock-up, freeze and display an inability to recognize any alternatives such as (**JONES**) as **THE** definitive answer to clarifying the female birth surname issue.

In their failure to bring harmony concerning this subject and in their inability to help, educate and lead concerning this vital technical aspect of family history research procedures, they become co-conspirators by perpetuating the problem.

So, it appears we have a long road to haul concerning change in the research community, such as the pioneer originators who finally were able to get the family history community to adopt the date format; using the military style of Day Month and Year in lieu of Month Day, Year.

IN CLOSING...

The more we can educate future researchers as to a uniform method of recording female birth surnames the easier it will be to distinguish female surnames...especially in our current divorce-driven society.

However, educating the public will be a long and tedious task since most reporters, educators, and research descendants do not take family history research seriously and deem this subject as unwarranted and immaterial.

To these uninformed, whatever lackluster style, in their presentations they wish to present their female subjects, is OK as long as they get paid or they justify their postings and are satisfied...at least they made an effort. After all, why verify, investigate and validate your information if no one really cares how accurate your work.

Until this re-education process is complete, the rest of us serious researchers will be labored with unnecessary checking, validating and verifying resulting in time consuming duplication of effort.

The pioneers of an idea, thought or process have always taken the brunt force of public indifference to change until...it becomes an established procedure.

Only by gaining converts, can this process succeed.

I am eliciting your help in this effort, hoping to benefit all future family history researchers.

It makes sense, it is logical and it serves a need in the family history community, a community we all so love and cherish. This process is good and the right thing to do, and have you ever been sorry for doing the right thing?
